Literature And Anthropology:

Literary Anthropology Fernando Poyatos, 1988-01-01 The traditional gulf between the theory and practice of literature and the various areas subjoined under anthropology has hindered the development of some very fruitful perspectives in the realm of poetics and the general theory of literature particularly in its narrative forms Poyatos initial idea of literary anthropology as the study of people and their cultural manifestations through their national literatures without doubt the richest source of documentation of human life styles and the most advanced form of our projection in time and space and of communicating with contemporary and future generations has been enriched by the thoughts of a multi cultural group of scholars from both anthropology and literature who at a first symposium on the subject attempted to define this area leaving the way open to many more research possibilities Between Anthropology and Literature Rose De Angelis, 2003-08-27 This collection addresses the ways in which the language of social science fuses with that of the literary imagination The essays fit excellently with the current interest in interdisciplinary studies **Anthropology and Literature** Paul J. Benson, 1993

Literature and Anthropology International Conference on Literary Theory Staff, 1986 *Culture Writing* Tim Watson, 2018-01-19 Focusing on the 1950s and early 1960s Culture Writing argues that this period in Britain the United States France and the Caribbean was characterized by dynamic exchanges between literary writers and anthropologists on both sides of the Atlantic As the British and French empires collapsed and the United States rose to global power in the early Cold War and as intellectuals from the decolonizing world challenged the cultural hegemony of the West some anthropologists began to assess their discipline s complicity with empire and experimented with literary forms and technique Culture Writing shows that the literary turn in anthropology took place earlier than has conventionally been assumed in the 1950s rather than the 1970s and 80s Simultaneously some literary writers reacted to the end of the period of modernist experimentation by turning to ethnographic methods for representing the people and cultural practices of Britain France and the United States bringing anthropology back home There is analysis of literary writers who had a significant professional engagement with anthropology and brought some of its techniques and research questions into literary composition Barbara Pym Britain Ursula Le Guin and Saul Bellow United States douard Glissant Martinique and Michel Leiris France On the side of ethnography the book analyzes works by anthropologists who either explicitly or surreptitiously adopted literary forms for their writing about culture Laura Bohannan United States Michel Leiris and Claude L vi Strauss France and Mary Douglas Britain Culture Writing concludes with an epilogue that shows how the literature anthropology conversation continues into the postcolonial period in the work of Indian author anthropologist Amitav Ghosh and Jamaican author sociologist Erna Brodber **Novel Approaches to Anthropology** Marilyn Cohen, 2013-09-05 This volume of interdisciplinary essays reflect current contributions to literary anthropology Novel Approaches to Anthropology Contributions to Literary Anthropology showcases the myriad ways that anthropologists bring their disciplinary perspectives theories concepts and pedagogical

strategies to interpreting fiction and travel writing written in the past and present The authors integrate insights from the reflexive deconstructive turn in anthropology and from critical Marxist and feminist approaches that ground interpretation in the political economic and social constraints and experiences of everyday life The contributors share the view that fiction like all artistic expression is rooted in specific historical and cultural contexts Literature like all artistic expression stimulates a critical imagination by allowing readers to take a fresh look at their own society and culture Masks of Difference David Richards,1994 Writings about and depictions of savage peoples by conquering races as a form of textual practice **Masks of Difference** David Richards,1995-02-24 David Richards examines historical anthropological discourse specifically writings about and depictions of savage peoples by conquering races as a form of textual practice Masks of Difference provides detailed readings of individual representations both artistic and literary of colonization including Florida 1564 90 and Scotland 1814 together with extended surveys What emerges is a composite picture of anthropological representation as a textual genre in its own right embracing literature literary theory and colonial postcolonial studies Library of Congress Subject Headings Library of Congress,1996 *Library of Congress Subject Headings* Library of Congress. Cataloging Policy and Support Office,2007 *An Analysis of the Literature of Anthropology* Eliza Atkins,1935 **Victor Turner and the Construction of Cultural Criticism** Kathleen M. Ashley,1990 During the past twenty years of intellectual boundary crossing and widespread borrowing between fields Turner s notions of liminality and the processual have been adopted by many theorists of art and society This is the first volume to place individual Turner concepts into the context of his entire career and to spell out their implications for literary studies The Fictive and the Imaginary Wolfgang Iser,1993-03-01 The pioneer of literary anthropology Wolfgang Iser presents a wide ranging and comprehensive exploration of this new field in an attempt to explain the human need for the particular form of make believe known as literature Ranging from the Renaissance pastoral to Coleridge to Sartre and Beckett The Fictive and the Imaginary is a distinguished work of scholarship from one of Europe s most respected and influential critics **Exploring the Written** Eduardo P. Archetti,1994 Ethnography as a genre is distinct from literature and therefore it cannot be treated in the same way The relevant question the contributors in this book claim is how literature relates to ethnography not vice versa In this critical dialogue with postmodernist American anthropology they pose a number of questions Can a novel for example be treated as the statement of an informant as an ethnographic report or even as an implicit analysis of a cultural or social situation And in what way can the ethnographer make use of fiction essays songs letters poetry drama newspapers or autobiographies that are produced in the culture that is being studied The book includes a number of empirical cases from a broad range of cultural settings such as Turkey Argentina Mexico Trinidad Peru Colombia Fiji Norway and Samoa **The Anthropology of Wisdom Literature** Wanda Ostrowska Kaufmann,1996-09-13 This unusual book examines definitions of the fable apologue parable moral tale etc It then proposes the use of the term exemplum used by medieval scribes to define all types of wisdom narratives It makes a cross

cultural structural analysis of the exemplum and identifies its tripartite structure composed of the promythium the nucleus and the epimythium The book ends with an analysis of the reasons why grown men spent so much time writing and collecting these tales It demonstrates that fables and related genres were not really meant for little children to learn moral lessons They were used to teach complex religious and political ideologies to safely ridicule tyrants and despots to release tensions and to give good or bad advice

Before Cultures Brad Evans,2005-11-15 The term culture in its anthropological sense did not enter the American lexicon with force until after 1910 more than a century after Herder began to use it in Germany and another thirty years after E B Tylor and Franz Boas made it the object of anthropological attention Before Cultures explores this delay in the development of the culture concept and its relation to the description of difference in late nineteenth century America In this work Brad Evans weaves together the histories of American literature and anthropology His study brings alive not only the regionalist and ethnographic fiction of the time but also revives a range of neglected materials including the Zuni sketchbooks of anthropologist Frank Hamilton Cushing popular magazines such as Century Illustrated Monthly which published Cushing s articles alongside Henry James s the debate between Joel Chandler Harris author collector of the Uncle Remus folktales and John Wesley Powell perhaps the most important American anthropologist of the time and Du Bois s polemics against the culture concept as it was being developed in the early twentieth century

Written with clarity and grace Before Cultures will be of value to students of American literature history and anthropology alike

Library of Congress Subject Headings Library of Congress. Office for Subject Cataloging Policy,1990 **A-E** Library of Congress. Office for Subject Cataloging Policy,1990 *Mimesis* Valery Podoroga,2022-08-09 Valery Podoroga was one of the most important thinkers of his generation Here his most famous work is translated into English for the first time In it he gives a panorama view of Russian writing focusing in on the work of Nikolai Gogol Fyodor Dostoevsky and Andrei Bely He identifies these authors as pioneers in creating an other literature This constituted a new form of mimesis or vision of the world in opposition to the Imperial and national myths In Mimesis Podoroga develops and elaborates his analytic anthropological approach on these authors with startling effect excavating the identities and forms of Russian literature and society He places an emphasis on how a literary work is a process of world building both internally by creating a fictive world but also how it reflects the wider world in which it was produced and the power with which it changes the world Finally the literary work s ability to exist in a time that is other than its own time a time where it does not have a contemporary reader and an author who exercises his will but where it nonetheless continues to mean something Mimesis is rightly seen as the masterwork of one of the world s leading literary thinkers

Ghostly Encounters Mark Sandy,Stefano Cracolici,2020-12-29 This volume reflects on the ghostly and its varied manifestations including the uncanny the revenant the echo and other forms of artistic allusion These unsettling presences of the spectral other occur in literature history film and art The ghostly and its artistic literary filmic and cultural representations remains of burgeoning interest and debate to twenty first century

literary critics cultural historians art historians and linguists Our collection of essays considers the wider implications of these representations of the ghostly and notions of the spectral to define a series of different but inter related cultural topics concerned with questions of ageing the uncanny the spectral spiritualism eschatology which imaginatively testify to our compulsion to search for evidence of the ghostly in our everyday encounters with the material world
