Ang, 1999-12-14 This book looks at the changing shape of children's literature in English from the eighteenth to the twentieth century In particular it examines the dialect between enclosure and exposure control and freedom of both fictional child and child reader how the balance of these forces has altered over time and the possible reasons for these changes It also looks at the representation of the child in the English novel from the 1830s to the 1860s the period preceding the publication of Alice in Wonderland the first major work of literature for children and the influence of such representation in later children s books Writers as well known as Lewis Carroll Louisa M Alcott Rudyard Kipling and Charlotte Bront are examined in the course of this work but this study also considers works which have been unfairly neglected till now and which deserve to be better known this list includes the Marlow series by Antonia Forest Jane Gardam's Bilgewater and Henry Handel Richardson German Children's and Youth Literature in Exile 1933-1950 Zlata Fuss Phillips, 2011-11-02 No s The Getting of Wisdom detailed description available for German Children's and Youth Literature in Exile 1933 1950 Children's Literature of the Harlem Renaissance Katharine Capshaw Smith, 2004-07-05 The Harlem Renaissance the period associated with the flowering of the arts in Harlem inaugurated a tradition of African American children's literature for the movement's central writers made youth both their subject and audience W E B Du Bois Carter G Woodson Langston Hughes Alice Dunbar Nelson and other Harlem Renaissance figures took an impassioned interest in the literary models offered to children believing that the New Negro would ultimately arise from black youth As a result African American children's literature became a crucial medium through which a disparate community forged bonds of cultural economic and aesthetic solidarity Kate Capshaw Smith explores the period s vigorous exchange about the nature and identity of black childhood and uncovers the networks of African American philosophers community activists schoolteachers and literary artists who worked together to transmit black history and culture to the next generation Children's Books on the Big Screen Meghann Meeusen, 2020-06-04 In Children s Books on the Big Screen Meghann Meeusen goes beyond the traditional adaptation approach of comparing and contrasting the similarities of film and book versions of a text By tracing a pattern across films for young viewers Meeusen proposes that a consistent trend can be found in movies adapted from children's and young adult books that representations of binaries such as male female self other and adult child become more strongly contrasted and more diametrically opposed in the film versions The book describes this as binary polarization suggesting that starker opposition between concepts leads to shifts in the messages that texts send particularly when it comes to representations of gender race and childhood After introducing

why critics need a new way of thinking about children's adapted texts Children's Books on the Big Screen uses middle grade fantasy adaptations to explore the reason for binary polarization and looks at the results of polarized binaries in adolescent films and movies adapted from picture books Meeusen also digs into instances when multiple films are adapted from a single source such as The Wonderful Wizard of Oz and ends with pragmatic classroom application suggesting teachers might utilize this theory to help students think critically about movies created by the Walt Disney corporation Drawing from numerous popular contemporary examples Children's Books on the Big Screen posits a theory that can begin to explain what happens and what is at stake when children's and young adult books are made into movies
