

Er sticht ihm in den Leib den goldnen Speer,
Daß todt er stürzt vom Roß in niedres Buschwerk.
Die Franken riefen: „Helf' uns Gott der Herr!
Denn Karl hat Recht, wir wollen ihn nicht lassen!“ —

246. Und Guineman trifft den Laufgerkönig,
Zerbricht ihm ganz die schönbedäumte Tartse,
Dann hat er ihm das Kettenhemd zerrissen,
Das ganze Banner birgt er ihm im Leib.
Todt stürzt er hin; mag weinen drob, wer will!
Bei diesem Stöße rief das Frankenvolk:
„Haut drein, Barone, säumet euch nicht länger!
Recht hat der Kaiser gegen diese Heiden,
Gott übergiebt uns heut sein Richteramt!“

247. Walprimis sitzt auf völlig weißem Roß,
Er trägt den Leib in das Gewühl der Franken,
Vor allen Andern schlägt er mächt'ge Hiebe,
Oft wälzt er einen Todten auf den andern;
Und als der Erste ruft nun Baligant:
„Ihr meine Helden, lange pflegt' ich euch;
Seht meinen Sohn! Hineilt er, Karl zu suchen,
Anstürmend mit den Waffen manchen Helden,
Nie wünscht' ich einen besseren Vasallen:
So helfet ihm mit euren scharfen Speeren!“ —
Bei diesen Worten gehn die Heiden vor
Mit harten Hieben, groß ist das Gefecht.
Gewaltig und gewichtig ist der Kampf,
Kein stärker war zuvor, noch in der Folge.

Literature In Medieval Germany:

Medieval German Literature Marion Gibbs, Sidney M. Johnson, 2002-09-11 Medieval German Literature provides a comprehensive survey of this Germanic body of work from the eighth century through the early fifteenth century. The authors treat the large body of late medieval lyric poetry in detail for the first time. *Literature in Medieval Germany* Paul Salmon, 1969

Medieval Literature on Display Alexandra Sterling-Hellenbrand, 2020-01-23 How is the medieval world depicted today? Two German museums serve as case studies for a vibrant, imaginative and provocative enactment of twenty-first century medievalism: the Museum Wolfram von Eschenbach in Wolframs Eschenbach (1995) and the Nibelung Museum in Worms (2001). Emerging around the turn of the 20th century, the museums explore medieval German literature, cultural memory and local history. As the museums reconstruct and transform medieval narratives for the contemporary audience, they enact the process of medievalism; they reveal how memory through the lens of the Middle Ages shapes modern cultural identity and heritage. Medieval Literature on Display thereby contributes to important conversations about medievalism's role in constructing and affirming cultural identity in conceptualizing and finding places for the future of the past. This unique book is vital reading for scholars of medieval literature and historians of medieval Europe as well as scholars of visual culture and museum studies.

Literature in Medieval Germany Paul Salmon, 1967 *A Companion to Middle High German Literature to the 14th Century* Francis G. Gentry, 2002 This volume is a guide to medieval German literature from its beginnings in the eighth century to the fourteenth century. It will escort the motivated student and colleague with interest in the European Middle Ages but no expertise in older German languages. The chapter authors, all internationally known scholars, were given the freedom to arrange their chapters as they felt most appropriate, including the question of the terminus ad quem. Chapters deal either with a chronological period (e.g. 13th century) or with specific genres (e.g. drama). In addition, chapters both on the historical epoch and on the development of the German language in the medieval period have been included. In general, historical and cultural topics play an important role in each chapter.

Introductions to German Literature, Vol. 1 Paul Salmon, 1967 *German Literature of the High Middle Ages* Will Hasty, 2006 New essays on the first flowering of German literature in the High Middle Ages and especially during the period 1180-1230. The High Middle Ages and particularly the period from 1180 to 1230 saw the beginnings of a vibrant literary culture in the German vernacular. While significant literary achievements in German had already been made in earlier centuries, they were a somewhat precarious vernacular extension of Christian Latin culture. But the vernacular literary culture of the High Middle Ages was an integral part of broader cultural developments in which the unquestioned validity of traditional authoritative models began to lose its hold. A secular culture began to emerge in which positive value began to be attached to the (however transitory) allegiances, pleasures and loves of life. In new essays dealing with the most significant literary genres—the heroic epics, the romances, the love lyrics and political poetry—and with broader political, social and cultural issues, control of aggression

territorialization this third volume of the Camden House History of German Literature demonstrates how the emergence of a vernacular literary culture in Germany was an important part of a broader cultural transformation in which medieval people began to redefine themselves their relationships to one another and the position of humanity in the scheme of things

Medieval German Literature Maurice O'Connell Walshe,1962 *Introductions to German Literature: Literature in medieval Germany, by P. Salmon* August Closs,1968 Vernacular Literary Theory in the Middle Ages Walter Haug,1997-03-06 The first edition of this book appeared in German in 1985 and set a new agenda for the study of medieval literary theory Rather than seeing vernacular writers reflections on their art such as are found in prologues epilogues and interpolations in literary texts as merely deriving from established Latin traditions Walter Haug shows that they marked the gradual emancipation of an independent vernacular poetics that went hand in hand with changing narrative forms While focussing primarily on medieval German writers Haug also takes into account French literature of the same period and the principles underlying his argument are equally relevant to medieval literature in English or any other European language This ground breaking study is now available in English for the first time

German Literature of the Early Middle Ages Brian Murdoch, 2004 A detailed contextualized picture of the very beginnings of writing in German from around 750 to 1100 This second volume of the set not only presents a detailed picture of the beginnings of writing in German from its first emergence as a literary language from around 750 to 1100 but also places those earliest writings into a context The first stages of German literature existed within a manuscript culture so careful consideration is given to what constitutes the actual texts but German literature also arose within a society that had recently been Christianized through the medium of Latin Therefore what we understand by literature in Germany at this early period must include a great amount of writing in Latin Thus the volume looks in detail at Latin works in prose and verse but with an eye upon the interaction between Latin and German writings Some of the material in the newly written German language is not literary in the modern sense of the word but makes clear the difficulties and indeed the triumphs of the establishing of a written literary language Individual chapters look first at the earliest translations and functional literature in German including charms and prayers next the examination of heroic material juxtaposes the Hildebrandlied with the Christian Ludwigslied and with Latin writings like Waltharius and the panegyrics Otfrid's work the Gospel poem in German is given its due prominence the smaller German texts and the later prose works are fully treated as is chronicle writing in German and Latin Old High German literature was a trickle compared to the flood of the Latin that surrounded and influenced it but its importance is undeniable that trickle became a river Contributors Linda Archibald Graeme Dunphy Stephen Penn Christopher Wells Jonathan West Brian Murdoch Brian Murdoch is Professor of German at the University of Stirling Scotland
