Literature Language And Politics:

The Politics of English as a World Language Christian Mair, 2003 The complex politics of English as a world language provides the backdrop both for linguistic studies of varieties of English around the world and for postcolonial literary criticism The present volume offers contributions from linguists and literary scholars that explore this common ground in a spirit of open interdisciplinary dialogue Leading authorities assess the state of the art to suggest directions for further research with substantial case studies ranging over a wide variety of topics from the legitimacy of language norms of lingua franca communication to the recognition of newer post colonial varieties of English in the online OED Four regional sections treat the Caribbean including the diaspora Africa the Indian subcontinent and Australasia and the Pacific Rim Each section maintains a careful balance between linguistics and literature and external and indigenous perspectives on issues The book is the most balanced complete and up to date treatment of the topic to date

the English Language George Orwell, 2021-01-01 George Orwell set out to make political writing into an art and to a wide extent this aim shaped the future of English literature his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism While 1984 and Animal Farm are amongst the most popular classic novels in the English language this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership In Politics and the English Language the second in the Orwell's Essays series Orwell takes aim at the language used in politics which he says is designed to make lies sound truthful and murder respectable and to give an appearance of solidity to pure wind In an age where the language used in politics is constantly under the microscope Orwell's Politics and the English Language is just as relevant today and gives the reader a vital understanding of the tactics at play

[Literature, Language, and Multiculturalism in Scandinavia and the Low Countries](#) Wolfgang Behschnitt, Sarah De Mul, Liesbeth Minnaard, 2013-11-05 Literature Language and Multiculturalism in Scandinavia and the Low Countries presents a ground breaking comparative approach to the study of multicultural literature Focusing on the development of migration literature in Sweden Denmark Flanders and the Netherlands the volume argues that the political and institutional preconditions for the development of multicultural literatures are still given within the frame of the nation state As a consequence both the field of migration literature and the multi lingual quality of literary texts are shaped differently in each state and in each language area The volume delineates the development of multicultural literature in Scandinavia and the Low Countries as a function of the specific language situations in these countries as well as the various political institutional and discursive contexts This book not only offers a comprehensive theoretical and methodological analysis of multilingualism and multicultural literature but also provides overviews sketching the discourse on multiculturalism language and the development of the literary field in Sweden Denmark the Netherlands and Flanders

Besides it presents a broad range of in depth analyses of selected literary texts from each of these countries Library of Congress Subject Headings Library of Congress,1996 **British Qualifications 2016** Philip Kogan,2015-12-03 Now in its 46th edition British Qualifications is the definitive one volume guide to every qualification on offer in the United Kingdom With an equal focus on vocational studies this essential guide has full details of all institutions and organizations involved in the provision of further and higher education and is an essential reference source for careers advisors students and employers It also includes a comprehensive and up to date description of the structure of further and higher education in the UK The book includes information on awards provided by over 350 professional institutions and accrediting bodies details of academic universities and colleges and a full description of the current framework of academic and vocational education It is compiled and checked annually to ensure accuracy of information *George Orwell* Mark Connelly,2018-11-09 George Orwell 1903 1950 is one of the most influential authors in the English language His landmark novels *Animal Farm* 1945 and *Nineteen Eighty Four* 1949 have been translated into many foreign languages and inspired numerous stage and film adaptations His well known essays *A Hanging* and *Shooting an Elephant* are widely anthologized and often taught in college composition classes The writer is credited with inventing the terms *Big Brother* *thought crime* *unperson* and *double think* His name itself has become an adjective *Orwellian* Seventy years after its publication *Nineteen Eighty Four* remains very popular its sales surging in an era of enhanced surveillance and media manipulation This literary companion provides an extensive chronology and more than 175 entries about both his literary works and personal life Also included are discussion questions and research topics notable quotations by Orwell and an extensive bibliography of related sources **The Tongue-Tied Imagination** Tobias Warner,2019-03-05 Winner 2021 African Literature Association First Book Award Should a writer work in a former colonial language or in a vernacular The language question was one of the great intractable problems that haunted postcolonial literatures in the twentieth century but it has since acquired a reputation as a dead end for narrow nationalism This book returns to the language question from a fresh perspective Instead of asking whether language matters *The Tongue Tied Imagination* explores how the language question itself came to matter Focusing on the case of Senegal Warner investigates the intersection of French and Wolof Drawing on extensive archival research and an under studied corpus of novels poetry and films in both languages as well as educational projects and popular periodicals the book traces the emergence of a politics of language from colonization through independence to the era of neoliberal development Warner reads the francophone works of well known authors such as L opold Senghor Ousmane Semb ne Mariama B and Boubacar Boris Diop alongside the more overlooked Wolof language works with which they are in dialogue Refusing to see the turn to vernacular languages only as a form of nativism *The Tongue Tied Imagination* argues that the language question opens up a fundamental struggle over the nature and limits of literature itself Warner reveals how language debates tend to pull in two directions first they weave vernacular traditions into the normative patterns of world literature but second they create space

to imagine how literary culture might be configured otherwise Drawing on these insights Warner brilliantly rethinks the terms of world literature and charts a renewed practice of literary comparison **The Many Worlds of Anglophone**

Literature Silvia Anastasijevic, Magdalena Pfalzgraf, Hanna Teichler, 2024-01-11 On what terms and concepts can we ground the comparative study of Anglophone literatures and cultures around the world today What if anything unites the novels of Witi Ihimaera the speculative fiction of Nnedi Okorafor the life writings by Stuart Hall and the emerging Anglophone Arab literature by writers like Omar Robert Hamilton This volume explores the globality of Anglophone fiction both as a conceptual framing and as a literary imaginary It highlights the diversity of lives and worlds represented in Anglophone writing as well as the diverse imaginations of transnational connections articulated in it Featuring a variety of internationally renowned scholars this book thinks through Anglophone literature not as a problematic legacy of colonial rule or as exoticizing commodity in a global literary marketplace but examines it as an inherently transcultural literary medium Contributors provide new insights into how it facilitates the articulation of divergent experiences of modernity and the critique of hierarchies and inequalities within among and beyond post colonial societies **Library of Congress Subject**
