Extensive Reading Activities for Teaching Language Julian Bamford, Richard R. Day, 2004-08-16 This lively collection of over 100 classroom activities allows teachers to exploit fully the language learning potential of extensive reading. The activities contributed by teachers who have used them successfully in classrooms all over the world introduce extensive reading to students and link it with the rest of the language curriculum. Here is a wealth of ideas for encouraging students to read and for using students' reading experiences for further language practice and learning. These creative and enjoyable speaking, listening, role play, reading, writing and vocabulary activities are suitable for students of all ages and levels. Each activity is clearly explained together with a personal note from its author. This is a handbook for teachers of general language courses or grammar, listening, speaking, writing or reading courses. It is written for teachers both non-native and native speaking and for teachers both novice and experienced. It will also be of interest to teacher educators.

Disciplinary Literacy and Explicit Vocabulary Teaching: A whole school approach to closing the attainment gap Kathrine Mortimore, 2020-12-15 Firmly rooted in research evidence of what works within the classroom for our most disadvantaged students, *Disciplinary Literacy and Explicit Vocabulary Teaching* offers teachers and school leaders practical ways in which those students who are behind in their literacy capabilities can make excellent progress. Building on the work of Geoff Barton in his influential book *Don't Call it Literacy*, Kathrine Mortimore outlines the unique literacy challenges posed by specific subject areas for those with weaker literacy skills and more importantly how these challenges can be addressed and overcome. A student's GCSE results are vital in giving them the choices they deserve in order to go on to the next stage of their academic careers. This book draws on the success stories of schools and subjects that have made significant improvements in the outcomes of the children they teach regardless of their starting points. From the inevitable success of Michaela Community School to the gains made by the English department at Torquay Academy and the rapid reading improvements at Henley Bank, this book draws on both whole school initiatives and subject-specific strategies which have had proven success. This book places a wide and balanced knowledge-rich curriculum at the centre of any school improvement strategy designed to improve literacy and illustrates the role that all subjects must combine to play in building the vital background knowledge and vocabulary that young people need in order to read independently. This curriculum must then be delivered using those teaching methods that have had the greatest impact on disadvantaged learners and this book sets out how the methodology of direct and explicit instruction can be adopted within each subject area. Alongside this is a useful summary of staff development and inset which offers practical ways in which teachers' adoption of these effective strategies can be facilitated. There are also useful sections on creating a whole school dictionary of essential vocabulary, creating a culture of reading and writing and also those key literacy barriers experienced by those students with some of the most

Secondary Textbook Review ,1988 This book is intended as a resource for teachers and curriculum developers who select textbooks for secondary English courses It includes a compilation of 32 factual textbook reviews obtained from the application of a review instrument which was based on the California Model Curriculum Standards Grades Nine through Twelve English Language Arts and the English Language Arts Framework for California Public Schools Kindergarten through Grade Twelve The instrument described in the book was applied to selected English composition grammar and reading literature textbooks The book suggests that the resulting reviews can be used by teachers as a screening device to reduce the number of books they review and pilot studies they conduct thus educators will have more time to do in depth reviews of two or three textbooks which appear to match their course requirements and their students academic needs The book also states that the review instrument can be adapted by districts to reflect their own English objectives and test results Every review in the book includes two parts and a publisher s description which appears in the Appendix a section which depicts the extent to which the emphasis on content and process is given to each of the topics in the textbooks reviewed and a section which includes topics on content and processes which might be found only in teachers editions The book does not make assessments regarding the quality of the books reviewed but rather provides information which teachers may find useful in making quality judgments and selecting specific textbooks for English programs SR
