## **Literature For Children Contemporary Criticism:**

*Literature For Children* Peter Hunt, 2003-09-02 Children's literature has recently produced a body of criticism with a highly distinctive voice. The book consolidates understanding of this area by including some of the most important essays published in the field in the last five years, demonstrating the links between literary criticism, education, psychology, history, and scientific theory. It includes Peter Hollindale's award-winning essay on Ideology and Children's Literature, topics from metafiction and post modernism to fractal geometry, and the examination of texts ranging from picture books to *The Wizard of Oz* and the Australian classic *Midnight Sources*. Contributors are as disparate as Signal and the Children's Literature Association Quarterly, and the international community is represented by writers from Britain, the USA, Canada, Australia, and Germany. Each essay is set in its critical context by extensive quotation from authoritative articles. [Literature for Children](#),

*Discourses of Postcolonialism in Contemporary British Children's Literature* Blanka Grzegorzczak, 2014-10-03 This book considers how contemporary British children's books engage with some of the major cultural debates of recent years and how they resonate with the current preoccupations and tastes of the white mainstream British reading public A central assumption of this volume is that Britain's imperial past continues to play a key role in its representations of race identity and history The insistent inclusion of questions relating to colonialism and power structures in recent children's novels exposes the complexities and contradictions surrounding the fictional treatment of race relations and ethnicity Postcolonial children's literature in Britain has been inherently ambivalent since its cautious beginnings it is both transgressive and authorizing both undercutting and excluding Grzegorzczak considers the ways in which children's fictions have worked with and against particular ideologies of race The texts analyzed in this collection portray ethnic minorities as complex hybrid products of colonialism global migrations and the ideology of multiculturalism By examining the ideological content of these novels Grzegorzczak demonstrates the centrality of the colonial past to contemporary British writing for the young

*The Presence of the Past in Children's Literature* Ann Lucas, 2003-09-30 Time is one of the most prominent themes in the relatively young genre of children's literature for the young like adults want to know about the past This book explores how children's writers have treated the theme and concept of time The volume starts

with the application of literary theory and additionally analyzes examples of the juvenile historical novel. In doing so it also examines changing fashions in criticism and publishing and the pressure they exert on writers. It then considers literary adaptations of myths and archetypes, constructions of history in children's literature, colonial and postcolonial children's fiction and the treatment of the past in the postmodern era. The book looks at literature from around the world and the expert contributors are from diverse countries and backgrounds. While the book looks primarily at literature of the 19th and 20th centuries it considers a broad range of historical material treated in works from that period. Included are discussions of such topics as Joan of Arc in children's literature, the legacy of Robinson Crusoe, colonial and postcolonial children's literature, the Holocaust and the supernatural. International in scope, the volume examines history and collective memory in Portuguese children's fiction, Australian history in picture books, Norwegian children's literature and literary treatments of the great Irish famine.

*Children's Literature in Context* Fiona McCulloch, 2011-09-22 *Children's Literature in Context* is a clear, accessible and concise introduction to children's literature and its wider contexts. It begins by introducing key issues involved in the study of children's literature and its social, cultural and literary contexts. Close readings of commonly studied texts including Lewis Carroll's Alice books, *The Wonderful Wizard of Oz*, *The Lion, the Witch and the Wardrobe*, the Harry Potter series and the *His Dark Materials* trilogy highlight major themes and ways of reading children's literature. A chapter on afterlives and adaptations explores a range of wider cultural texts including the film adaptations of Harry Potter, *The Chronicles of Narnia* and *The Golden Compass*. The final section introduces key critical interpretations from different perspectives on issues including innocence, gender, fantasy, psychoanalysis and ideology. Review, Reading and Research sections give suggestions for further reading, discussion and research.
