Law's Limits Neil K. Komesar,2001-12-10 What law is can be or ought to be is determined by the character of those institutions that make interpret and enforce law The interaction of these institutions molds the supply of and demand for law Focusing on this interaction in the context of US property rights law and the debates about private property and the rule of law this book paints an unconventional picture of law and rights shifting and cycling as systemic factors such as increasing numbers and complexity strain both supply and demand Although there may be an important role for law rights and courts both in the US and abroad it can not be facilely defined This book proposes a way to define that role and to reform legal education and legal analysis

Invisible Politics Hanes Walton,1985-06-30 With a view that behavioralism has distorted perceptions of black political activity Hanes Walton Jr here reformulates the assumptions of behavioralism to arrive at a more realistic understanding of the political actions of black Americans Considering the cultural and historical events that have shaped black lives Walton examines voting patterns socialization and the development of political opinion his analysis of leadership includes not only legislative and judicial leaders but also leaders of those organizations so influential in black political culture civil rights churches and grassroots organizations Whether he looks at how local politics have changed through the years of civil rights action or how blacks ideas on foreign policy have developed Walton provides a long needed reassessment of the role of black participation in American politics
