relevance of astrology in Graeco Roman mentality our information about the early period of Hellenistic astrology is marred by the scarcity of original sources Personal astrology did not take off until the late Hellenistic period due to the more substantial Hellenization of Mesopotamia facilitating the import of Babylonian theories The most relevant doctrines mostly surviving as references and partial paraphrases in later authors and astrological miscellanies are attached to the pseudepigraphical names of Nechepsos and Petosiris which have been traced back to the Egyptian Demotic tradition Critodemus who is classified as a later author even if Firmicus Maternus invokes him as a founding authority appears as a

parallel to these Egyptian transmitters in that he presented astrology like them in the form of a didactic poem but employing an Orphic frame instead of Egyptian By collecting contextualizing and analyzing all the evidence on this author this book establishes a relatively early chronology for Critodemus and aims both at distinguishing his original contributions and at explaining the various forms in which his text was used and modified in the later tradition

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
