Literary Theorists' Future:

Literary Theory's Future(s) Joseph P. Natoli, 1989 The Future of Literary Theory Ralph Cohen, 2016-08-19 In this book first published in 1989 twenty give eminent critics and theorists write about different aspects of literary theory These essays represent leading research in psychoanalytic criticism new historicism Continental theory feminism Afro American studies philosophy cybernetics aesthetics and other theoretical inflections The result is a collective statement on the course that lies ahead for criticism in the humanities and will be of interest to students of literary theory *The Future of Trauma Theory* Gert Buelens, Samuel Durrant, Robert Eaglestone, 2013-10-30 This collection analyses the future of trauma theory a major theoretical discourse in contemporary criticism and theory The chapters advance the current state of the field by exploring new areas asking new questions and making new connections Part one History and Culture begins by developing trauma theory in its more familiar post deconstructive mode and explores how these insights might still be productive It goes on via a critique of existing positions to relocate trauma theory in a postcolonial and globalized world theoretically aesthetically and materially and focuses on non Western accounts and understandings of trauma memory and suffering Part two Politics and Subjectivity turns explicitly to politics and subjectivity focussing on the state and the various forms of subjection to which it gives rise and on human rights biopolitics and community Each chapter in different ways advocates a movement beyond the sort of texts and concepts that are the usual focus for trauma criticism and moves this dynamic network of ideas forward With contributions from an international selection of leading critics and thinkers from the US and Europe this volume will be a key critical intervention in one of the most important areas in contemporary literary criticism and theory The Ends of Theory Jerry Herron, 1996 Featuring diverse disciplines and including creative as well as critical work The Ends of Theory both exemplifies the impact of critical theory and questions its future The sixteen essays in this anthology reflect on the nature and purpose of theoretical work in the humanities and succeed in bridging critical and creative production Contributors include Arthur Danto Paul A Bov Bob Perelman and Steve McCaffery *Future Theory* Patricia Waugh, Marc Botha, 2021-04-08 By interrogating the terms and concepts most central to cultural change Future Theory interrogates how theory can play a central role in dynamic transition It demonstrates how entangled the highly politicized spheres of cultural production scientific invention and intellectual discourse are in the contemporary world and how new concepts and forms of thinking are crucial to embarking upon change Future Theory is built around five key concepts change boundaries ruptures assemblages horizons examined by leading international thinkers to build a vision of how theory can be applied to a constantly shifting world Futures of Literary Studies Tim Lanzendörfer, Mathias Nilges, 2024-08-30 This book brings together essays that ask how one may chart more productive engagements with the methodological foundations of literary studies a discipline that is finding itself in a moment of severe crisis The temptation to reduce methodological debates to method wars constitutes one of the main obstacles for what ought to be the common goal

of our discipline to articulate the possible and indeed necessary futures of literary studies How do we think about the future of literary studies in the funerary climate that has engendered the belief that we need to fight our internal wars for survival How might must our understanding of what literary criticism is and does change How do we formulate possible futures for literary studies while grappling with the significant problems that our present poses The chapters in this volume stage hopeful interventions that seek to contribute to the effort to explore the futures of literary studies by way of and conceived as a collective endeavor Together the authors advance a call for better more useful more active more networked and yes even for abandoned versions of the always multiple and joyously contradictory discipline that is called literary studies This book will be beneficial to students and scholars of English literature literary theory and literary studies The chapters in this book were originally published as a special issue of *Textual Practice* and are accompanied by a new Preface

The Current in Criticism Clayton Koelb, Virgil Llewellyn Lokke, 1987 *The Current in Criticism* is meant to provide the reader with a wide spectrum of current thinking a sampling of some of the arguments attitudes and perspectives which participate in the swirl of intense speculative energy that is so characteristic of contemporary theory The editors describe this collection of 14 essays as a tentative assessment of where we are and where we might be going in literary study of what is current in criticism and of where the critical current might be tending

The State of Theory Richard Bradford, 2005-08-04 Written by teachers who are also at the forefront of the development of critical theory *The State of Theory* offers a diversity of perspectives both practical and theoretical on the current state of literary studies in education

Imagined Futures Jens Beckert, 2016-06-07 Consumers investors and corporations orient their activities toward a future that contains opportunities and risks How do these actors assess uncertainty Jens Beckert adds a new chapter to the theory of capitalism by showing how fictional expectations drive modern economies or throw them into crisis when imagined futures fail to materialize

Theory and the Disappearing Future Tom Cohen, Claire Colebrook, J. Hillis Miller, with a manuscript by Paul de Man, 2011-11-10 Paul de Man is often associated with an era of high theory an era it is argued may now be coming to a close This book written by three leading contemporary scholars includes both a transcript and facsimile print of a previously unpublished text by de Man of his handwritten notes for a lecture on Walter Benjamin Challenging and relevant this volume presents de Man's work as a critical resource for dealing with the most important questions of the twenty first century and argues for the place of theory within it The humanities are flooded with crises of globalism capitalism and terrorism contemporary narratives of financial collapse viral annihilation species extinction environmental disaster and terrorist destruction Cohen Colebrook and Miller draw out the implications of these crises and their narratives and reflecting on this work by de Man explore the limits of political thinking of historical retrieval and the ethics of archives and cultural memory

Does Literary Studies Have a Future? Eugene Goodheart, 1999 As we approach the end of a millennium the battle for the fate of literary scholarship has taken on near apocalyptic overtones with more than a few predictions of the imminent end of literary studies as we know it Taking aim at culture warriors on the left and the right Goodheart provides a succinct and timely assessment of the current state and future of literary studies in the US In Goodheart's view the opposition between tradition the cause of the right and innovation the cause of the left is essentially false tradition is an interactive history between the given and the innovative not an inert set of values or a stable canon of approved texts Midwest

Beyond the Great Story Robert F. Berkhofer, 1995 What legitimate form can history take when faced by the severe challenges issued in recent years by literary rhetorical multiculturalist and feminist theories That is the question considered in this pathbreaking book Robert Berkhofer addresses the essential practical concern of contemporary historians

Dark Affinities, Dark Imaginaries Joseph Natoli, 2016-11-17 A story of self braided to a story of American culture Uniting personal history with cultural history Dark Affinities Dark Imaginaries tells a story of a mind a time and a culture The vehicle or medium of this excursion is an overview and sampling of the author's work and what is revealed are cautionary tales of a once aspiring egalitarian democracy confronted with plutocracy's gentrification of analog history and offline life superseded by a rush toward virtualized robotic AI transformation of the human life world of everything social and public giving way to everything personal and opinionated The vagaries of a lifetime of paths taken are woven together by a narrative that reveals in every piece a significance that was only partially present at its initial writing Thus the reader becomes involved in a developing story of a certain personal psyche working toward understanding its own development within a changing American culture Sometimes angry sometimes joyful but always curious and wry Joseph Natoli crosses the boundary lines of psychology politics literature philosophy education and economics to show how we bring ourselves and our cultural imaginaries simultaneously into being through the processes and pleasures of thinking beyond the confines of the personal Reading Dark Affinities is a welcome break from the neoliberal buzzword speak of politicians and university administrators It reminds me why I entered academia when it was a profession and not a business and when modeling thinking actually mattered Alison Lee University of Western Ontario Natoli's Dark Affinities reads as a culminating work of
