Angus K. Smith, 2010-12-31 Excavations carried out at two Late Minoan III sites at Mochlos in eastern Crete yielded a pottery assemblage from 31 tombs and 11 houses which are cataloged discussed and illustrated together with petrographic analyses The cemetery remains mirror the settlement remains and the conclusions discuss how the two sites reflect each other Rarely in Crete are a settlement and its cemetery both preserved and it is extremely fortunate to be able to document both in a series of scientific excavation reports Mochlos vols IIA IIC Scott's orchardist, or catalogue of fruits, cultivated at Merriott John Scott (of Merriott.), 1873 **Report of the Dairy and Food Commissioner to the Governor...** Connecticut. Dairy and Food Commissioner, 1911 **Device-to-Device based Proximity Service** Yufeng Wang, Athanasios V. Vasilakos, Qun Jin, Hongbo Zhu, 2017-07-12 D2D based proximity service is a very hot topic with great commercial potential from an application standpoint Unlike existing books which focus on D2D communications technologies this book fills a gap by summarizing and analyzing the latest applications and research results in academic industrial fields and standardization The authors present the architecture fundamental issues and applications in a D2D networking environment from both application and interdisciplinary points of view *Annual Report of the Commissioner of Agriculture and Public Works for the Province of Ontario, on Agriculture and Arts for the Year Ontario.* Commissioner of Agriculture and Public Works, 1869 **Terracotta Lamps II** Birgitta Lindros Wohl, 2017-07-01 This volume discusses more than 400 lamps and lamp fragments dating from the Late Archaic to the Byzantine period found over several decades at the Sanctuary of Poseidon at Isthmia These come from excavations undertaken by UCLA from 1967 to 1987 under the direction of Paul Clement and since then by OSU under the direction of Timothy Gregory In addition to a detailed catalogue the volume presents a commentary on the types of lamps used at the sanctuary that enriches our knowledge of their manufacture use and artistic evolution over time The lamps also contribute to a better understanding of the site as they reflect the various historical political and religious vicissitudes at Isthmia and in the Corinthia in general over the centuries Mrs. Beeton's Book of Household Management Mrs. Beeton (Isabella Mary), 1909 Mochlos III Natalia Vogeikoff-Brogan, 2014-12-31 This volume presents the first of several Late Hellenistic buildings that were uncovered on the island of Mochlos located off the northeastern coast of Crete during the Greek American excavations of the last 25 years It also provides an introduction to the Hellenistic settlement that flourished on the island for nearly a century before it was abandoned The Hellenistic remains overlay much of the Late Minoan III and Neopalatial settlement Due to the excavation of both the Bronze Age and later phases of the town the publication of this Hellenistic building includes paleoenvironmental material among all the other artifacts which is often neglected in excavations of historical material The role that Mochlos

played in East Crete is discussed and conclusions are drawn about its relations with Hierapytna during the Late Hellenistic period
