 Morgan,Bruce Taylor,2011-11-09 During the Second World War over 250 Allied warships from a dozen navies were sent to
 the bottom by German U boats This ground breaking study provides a detailed analysis of every sinking for which source
 material survives from both the Allied and the German sides resulting in detailed treatment of the fate of 110 vessels with the
 remainder summarised in an extensive appendix Uniquely each entry is built around a specialist translation of the relevant
 segment of the war diary log of the U boat in question taken directly from the surviving originals remarkably this represents
 the first large scale publication of the U boat war diaries in any language The book offers a wealth of new information not
 only with respect to the circumstances of the sinkings from both the Allied and German perspectives but also to the technical
 environment in which they lived as well as the fate of the crews The entries include background details on the vessels
 concerned and the men involved with a selection of rare and carefully chosen photos from archives and collections around
 the world Each entry is itself a compelling narrative but is backed with a list of sources consulted including documents
 published works and websites A decade in the making this is probably the most important book on the U boat war to be
 published for many a year
