Cisco ASA Jazib Frahim, Omar Santos, Andrew Ossipov, 2014 This is the definitive up to date practitioner's guide to planning, deploying and troubleshooting comprehensive security plans with Cisco ASA. Written by two experienced Cisco Security and VPN Solutions consultants who work closely with customers to solve security problems every day, the book brings together valuable insights and real world deployment examples for both large and small network environments. Jazib Frahim and Omar Santos begin by introducing the newest ASA Firewall Solution and its capabilities. Next, they walk through configuring and troubleshooting both site-to-site and remote access VPNs and implementing Intrusion Prevention System (IPS) features supported by the ASA's Advanced Inspection and Prevention Security Services Module (AIP-SSM). Each chapter is comprised of many sample configurations accompanied by in-depth analysis of design scenarios plus a complete set of debugs in every section.

When I Come Home Again Caroline Scott, 2020-10-29 A page-turning literary gem. THE TIMES BEST BOOKS OF 2020. From the highly acclaimed author of *The Photographer of the Lost*, a BBC Radio 2 Book Club Pick comes a beautiful and compelling story based on true events, perfect for fans of Maggie O'Farrell and Helen Dunmore. One Great War soldier with no memory. Three women who claim him as their own. 1918. A soldier is arrested in Durham Cathedral in the last week of the First World War, but he has no memory of who he is or how he came to be there. He is given the name Adam and transferred to a rehabilitation institution in the Lake District where Doctor James Haworth is determined to uncover his identity. But unwilling to relive the trauma of war, Adam has locked his memory away seemingly for good. Then a newspaper publishes a feature about Adam, and three women come forward, each claiming that he is someone she lost in the war. But without memory, how do you know who to believe? Based on true events, *When I Come Home Again* is a beautiful and compelling story about love, loss, and longing in the aftermath of war, perfect for fans of Maggie O'Farrell and Helen Dunmore. Knowledge under Construction Daniel Ness, Stephen J. Farenga, 2007-03-26 Knowledge under Construction investigates how young children develop spatial geometric and scientific thinking skills particularly those associated with architecture Based on original research and analysis of videotapes of children s play with blocks the authors findings suggest that such play is anything but pointless Their conclusions fill in gaps in our current understanding of how children learn to think spatially and scientifically even while challenging portions of that understanding including some of Piaget s thesis about the primacy of topological space in children s learning A system of measurement developed to identify and categorize children s spontaneous behavior at play allows adults to observe patterns of behavior as children play and record the development of process skills and cognitive abilities enhancing our understanding of how children begin to learn about space and architectural relationships The book also examines the educational implications of our enhanced understanding One possible development is a new alternative way to measure cognitive abilities and development in children based on their work with blocks
