Dolby,2014-05-28 Finding Australian Birds is a guide to the special birds found across Australia's vastly varied landscapes. From the eastern rainforests to central deserts, Australia is home to some 900 species of birds. This book covers over 400 Australian bird watching sites conveniently grouped into the best birding areas from one end of the country to the other. This includes areas such as Kakadu in the Top End and rocky gorges in the central deserts of the Northern Territory, the Great Barrier Reef in Queensland, rainforests distributed along the eastern Australian seaboard, some of the world's tallest forests in Tasmania, the Flinders Ranges and deserts along the iconic Strzelecki and Birdsville Tracks in South Australia, and the mallee temperate woodlands and spectacular coastlines in both Victoria and south west Western Australia. Each chapter begins with a brief description of the location followed by a section on where to find the birds, which describes specific birdwatching sites within the location's boundaries and information on accommodation and facilities. The book also provides a comprehensive Bird Finding Guide listing all of Australia's birds with details on their abundance and where exactly to see them. Of value to both Australian birdwatchers and international visitors, this book will assist novices, birders of intermediate skill, and keen twitchers to find any Australian species.

The Anthropology of Learning in Childhood David F.

Lancy, John Bock, Suzanne Gaskins, 2010 The Anthropology of Learning in Childhood offers a portrait of childhood across time, culture, species, and environment. Anthropological research on learning in childhood has been scarce, but this book will change that. It demonstrates that anthropologists studying childhood can offer a description and theoretically sophisticated account of children's learning and its role in their development, socialization, and enculturation. Further, it shows the particular contribution that children's learning makes to the construction of society and culture, as well as the role that culture acquiring children play in human evolution.
