Bax, 2012-09-01 A remarkable story of recovering from a shattering accident and how the author achieved what others said was impossible. This is the story of a man who miraculously woke up after a catastrophic accident left him unable to talk or eat, with his left side completely paralyzed and with no memories of his past or who he was. He spent the next five years piecing together his past and relearning how to speak, eat and walk, all things the doctors had assured his family he would never do again. This book gives us his story and the methods he used to achieve what conventional wisdom said was impossible and serves as an inspiring, helpful guide for readers who want to replicate his success in their own lives.
