Crosby, 2003 From the founding of its first fire department in Provincetown in 1836 Cape Cod has had an exciting and unique firefighting history as told in *Cape Cod Firefighting* Rare and recently discovered photographs depict some of the area's largest fires as well as its many innovations from Provincetown's first Hunneman hand pumper known as the George Washington to the brush breakers uniquely designed to respond to the Cape's devastating forest fires Cape Cod fire departments also developed rescue squads that eventually evolved into the first emergency medical service system in Massachusetts to use paramedics The images in *Cape Cod Firefighting* offer a tribute to the people and events that have shaped Cape Cod's fire rescue service **Lowell Firefighting** Jason T. Strunk, 2006 The Lowell Fire Department was established by the state legislature on February 6 1830 As Lowell began its climb as a center of industrial power fire protection evolved from the days of the United Fire Society's bucket brigades to organized volunteer fire companies and a full time paid department *Lowell Firefighting* features images

Firefighting in Frederick County Clarence "Chip" Jewell, 2005-11-16 Images of America Firefighting in Frederick County honors the contribution of both volunteer and career firefighters through the years. Captured in these 200 vintage images are the local volunteer fire companies, many support agencies and other emergency services organizations that have been assisting Frederick County for centuries. Featured also will be photographs of the Independent Hose Company of Frederick which has the honor of being the oldest continuously operating fire company in Maryland having been founded in 1818. Today Frederick County is home to the National Fire Academy and the National Fallen Firefighters Memorial both located in Emmitsburg and featured in the book **The Fireman** David D. Dana, 1858 Oceanside Fire Department Stu Sprung, Mark W. Finstuen, Oceanside Fire Department, 2010-10-04 For more than 120 years the firefighters of the Oceanside Fire Department have had the privilege of serving one of Southern California's most active and popular coastal communities. Its firefighters are well known regionally as being highly skilled, capable and aggressive when it comes to firefighting. This legacy has been handed down from Oceanside's first firefighters as they lived in the Wild West of the late 1800s fighting blazes similar to those of today but with dungarees, cowboy boots and nothing to guide them but instinct and bravery. Today a force of more than 100 modern paramedic-trained firefighters protect over 180,000 Oceanside residents and visitors 24 hours a day, 365 days a year. The Functional Fire Company J. Scott Thompson, 2019-01-14 Scott Thompson, author of The Functional Fire Company, says the functional fire company concept was not created but realized. I realized after many attempts at trying to view success in the organization from the top down that it wasn't possible. Real indicators of success in the fire service come from the bottom up. A fire department's success is best judged at the company level. Many leaders and senior members have been taught the how but not the why and they don't understand the reasons for doing what they do. Thompson says, "Because firefighting is such a technical activity, we must ensure that we are explaining why we do things while we demonstrate the how. It is essential that we develop critical thinking for solving fire suppression, rescue and EMS problems." WHAT OTHERS ARE SAYING Chief Scott Thompson combines his decades of experience and years of observation with today's leadership skills and provides a path for the successful fire department to follow. The Functional Fire Company will take you step by step from being an ordinary fire department to one which defines excellence. Rick Lasky, Fire Chief, Ret. Texas: "I found both motivation and a guide to implementation in this book. Chief Thompson has provided a deep resource for all ranks from creating culture to setting up training structure. I highly recommend this book to anyone with aspirations of making an organizational impact." Brian Brush, Chief Thompson has spent his entire career focusing on training and organizational effectiveness. The Functional Fire Company is his life's work wrapped up into a playbook which offers insight

into how to make your organization perform at maximum proficiency Experience perspective and a never quit mentality are evident as Chief Thompson provides a unique view to solving problems in the modern day fire service Terry McGrath Assistant Chief Lewisville TX Fire Department This book offers a living breathing example that Chief Thompson s principles truly work I hope you get as much value from this book as we have received from Chief Thompson s lessons and that you take what you learn back to your organization Garrett Rice The Colony Fire Department TX Battalion Chief A Shift

Achilles, 2009 In September 1756 with only fire buckets two hand tubs and citizen volunteers safeguarding the Colonial seaport Portsmouth decided to organize and regulate its fire protection By 1852 the Portsmouth Fire Department boasted six suction engines and in 1864 entered the age of steam power when the first steam fire engine was delivered Disastrous fires and a growing city required the department to modernize as it moved into the 20th century The departments first motorized engine was purchased in 1912 and by 1921 there was a new central fire station along with a new gasoline powered ladder truck Through an exceptional collection of photographs Portsmouth Firefighting richly illustrates the story and tradition of a fire department forever connected to its brave firefighters their magnificent fire engines and the spectacular blazes they fought **New Haven Firefighters** Box 22 Associates, 2005-01-19 The history of the New Haven Fire Department dates back to December 29 1789 when Mayor Roger Sherman a signer of the Declaration of Independence formed the volunteer system The advent of steam fire engines in 1862 marked the end of the volunteer system and the beginning of the full time paid department giving New Haven the distinction of having the first professional fire department in Connecticut New Haven has a long and proud history of tradition in its fire service Since 1862 there have been only fifteen different chiefs heading the department New Haven Firefighters tells the story from the days of steamers to the era of the tower ladder **Fire Station Number 4** Mary T. Fortney, 1998 Describes the various activities performed every day by fire fighters in Livermore California a suburb of San Francisco **Ashtabula Firefighting** Eric Allen Johnson, 2006 The story of firefighting in Ashtabula is almost as old as the community itself beginning with the informal citizen bucket brigades of frontier necessity in the early decades of the 1800s Between 1836 and 1911 the burgeoning Lake Erie port and manufacturing city was served by a cadre of dedicated volunteer fire companies including the celebrated award winning Protection Fire Company Ashtabula s rapid growth spurred the October 25 1911 transformation of the city s longstanding volunteer fire corps into a paid full time professional fire department With over 200 archival images drawn from the Ashtabula Fire Department the private collections of retired city firefighters and local newspaper and museum archives Ashtabula Firefighting highlights 170 years of firefighting heritage Cause for Alarm Amy S. Greenberg, 2014-07-14 Though central to the social political and cultural life of the nineteenth century city the urban volunteer fire department has nevertheless been largely ignored by historians Redressing this neglect Amy Greenberg reveals the meaning of this central institution by comparing the fire departments of Baltimore St Louis and San Francisco from the late eighteenth to the mid nineteenth century Volunteer fire companies protected highly flammable cities from fire and provided many men with friendship brotherhood and a way to prove their civic virtue While other scholars have claimed that fire companies were primarily working class Greenberg shows that they were actually mixed social groups merchants and working men immigrants and native born all found a common identity as firemen Cause for Alarm presents a new vision of urban culture

one defined not by class but by gender Volunteer firefighting united men in a shared masculine celebration of strength and bravery skill and appearance In an otherwise alienating environment fire companies provided men from all walks of life with status community and an outlet for competition which sometimes even led to elaborate brawls While this culture was fully respected in the early nineteenth century changing social norms eventually demonized the firemen s vision of masculinity Greenberg assesses the legitimacy of accusations of violence and political corruption against the firemen in each city and places the municipalization of firefighting in the context of urban social change new ideals of citizenship the rapid spread of fire insurance and new firefighting technologies Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
