Fireplace Idea Of Fireplace Design Vol 1:

Taking Shape Martina Droth, Penelope Curtis, 2009 This exhibition challenges the reasons why sculpture is usually considered alone in the gallery and the decorative arts are considered as part of a period setting It suggests that by breaking away from these conventional categories we can see how sculpture is also part of a spatial conversation and how furniture and fittings can be appreciated as unique works With five original essays and forty complete catalogue entries this publication both documents an exhibition and goes beyond it opening our eyes to the fluidity of formal language in the long eighteenth century and to the ways in which objects can change according to whether they are seen together or apart as mobile or fixed as two or three dimensional as ideal or as functional Book Jacket **Structural Service Book, Vol. 1** American Institute of Architects.
