*Work Programs for Poor Men* Lawrence M. Mead, 2011-05-16 Welfare reform which required that poor mothers work in return for assistance was a watershed in the struggle against poverty in America As work levels rose dramatically among low income women the welfare rolls were cut in half and many families escaped poverty But men's employment is also crucial to uplifting families Programs designed to promote work among poor men are currently underdeveloped and little understood by policymakers Expanding Work Programs for Poor Men sets out a strategy for raising work levels among poor men It makes the case that poor fathers like welfare mothers need both help and hassle That is they need better benefits but they must also be expected and required to help themselves

All Things Made New Diarmaid MacCulloch, 2016 The most profound characteristic of Western Europe in the Middle Ages was its cultural and religious unity a unity secured by a common alignment with the Pope in Rome and a common language Latin for worship and scholarship The Reformation shattered that unity and the consequences are still with us today In *All Things Made New* Diarmaid MacCulloch author of the New York Times bestseller *Christianity The First Three Thousand Years* examines not only the Reformation's impact across Europe but also the Catholic Counter Reformation and the special evolution of religion in England revealing how one of the most turbulent bloody and transformational events in Western history has shaped modern society The Reformation may have launched a social revolution MacCulloch argues but it was not caused by social and economic forces or even by a secular idea like nationalism it sprang from a big idea about death salvation and the afterlife This idea that salvation was entirely in God's hands and there was nothing humans could do to alter his decision ended the Catholic Church's monopoly in Europe and altered the trajectory of the entire future of the West By turns passionate funny meditative and subversive *All Things Made New* takes readers onto fascinating new ground exploring the original conflicts of the Reformation and cutting through prejudices that continue to distort popular conceptions of a religious divide still with us after five centuries This monumental work from one of the most distinguished scholars of Christianity writing today explores the ways in which historians have told the tale of the Reformation why their interpretations have changed so dramatically over time and ultimately how the contested legacy of this revolution continues to impact the world today

**Bibliography of Natural History Travel Narratives** Anne S. Troelstra,2017-06-01 Anne Troelstra s fine bibliography is an outstanding and ground breaking work He has provided the academic world with a long needed bibliographical record of human endeavour in the field of the natural sciences The travel narratives listed here encompass all aspects of the natural world in every part of the globe but are especially concerned with its fauna flora and fossil remains Such eyewitness accounts have always fascinated their readers but they were never written solely for entertainment fragmentary though they often are these narratives of travel and exploration are of immense importance for our scientific understanding of life on earth

providing us with a window on an ever changing and often vanishing natural world Without such records of the past we could not track document or understand the significance of changes that are so important for the study of zoogeography With this book Troelstra gives us a superb overview of natural history travel narratives The well over four thousand detailed entries ranging over four centuries and all major western European languages are drawn from a wide range of sources and include both printed books and periodical contributions While no subject bibliography by a single author can attain absolute completeness Troelstra s work is comprehensive to a truly remarkable degree The entries are arranged alphabetically by author and chronologically by the year of first publication under the author s name A brief biography with the scope and range of their work is given for each author every title is set in context the contents including illustrations are described and all known editions and translations are cited In addition there is a geographical index that cross refers between authors and the regions visited and a full list of the bibliographical and biographical sources used in compiling the bibliography     The Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1899     **Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1898
