Edge Effect Trails And Portrayals:

Edge Effect Sandra McPherson, 2012-01-01 Edge Effect is Sandra McPherson's most original work to date. Constructed in two parts, the collection embraces secretly related worlds, the poetics of natural history and artistic discoveries of self-taught folk artists. Throughout, waves from one poem mark the shores of others. In natural history, an edge effect occurs where two communities such as land and sea overlap, that zone becoming more diversified than each of them. McPherson explores this effect in nature and art, questioning our notions of inside and outside, center and margin. Profound and moving, she recasts the very premises of formal understanding in poetry, accommodating at once the arts of nature and the nature of art.

The Spaces Between Birds Sandra McPherson, 2012-02-08 In 1967, Sandra McPherson's daughter Phoebe was born with Asperger's Syndrome, a form of autism. In *The Spaces Between Birds*, McPherson collects poems from six of her published books as well as new poems, uncollected poems, and poems written under a pseudonym that draw on her experiences as a mother to Phoebe. Representing 28 years of work, these poems describe the voyage, both wrenching and exhilarating, on which mother and daughter embarked. Interspersed are poems by Phoebe, offering an illuminating and often searing counterpoint to those of her mother. The poems poignantly evoke the world created by autism, providing a rare sense of an inner life that has long been unapprehendable and detailing the intimacy and ultimate alienness of relations even between mother and daughter and even between word and meaning.

On Sacred Ground Nicholas O'Connell, 2011-10-01 *On Sacred Ground* explores the literature of the Northwest, the area that extends from the Pacific Ocean to the Rocky Mountains and from the forty-ninth parallel to the Siskiyou Mountains. The Northwest exhibits astonishing geographical diversity, and yet the entire bioregion shares a similarity of climate, flora, and fauna. For Nicholas O'Connell, the effects of nature on everyday Northwest life carry over to the region's literature. Although Northwest writers address a number of subjects, the relationship between people and place proves the dominant one, and that has been true since the first tribes settled the region and began telling stories about it thousands of years ago. Indeed, it is the common thread linking Chief Seattle to Theodore Roethke, Narciissa Whitman to Ursula K. Le Guin, Joaquin Miller to Ivan Doig, Marilynne Robinson to Jack London, Betty MacDonald to Gary Snyder. Tracing the history of Pacific Northwest literary works

from Native American myths to the accounts of explorers and settlers the effusions of the romantics the sharply etched stories of the realists the mystic visions of Northwest poets and the contemporary explosion of Northwest poetry and prose O Connell shows how the most important contribution of Northwest writers to American literature is their articulation of a more spiritual human relationship with landscape Pacific Northwest writers and storytellers see the Northwest not just as a source of material wealth but as a spiritual homeland a place to lead a rich and fulfilling life within the whole context of creation And just as the relationship between people and place serves as the unifying feature of Northwest literature so also does literature itself possess a perhaps unique ability to transform a landscape into a sacred place
