Editing The Maximus Poems:

Editing The Maximus Poems George F. Butterick, 1983 **The Maximus Poems** George F. Butterick, 1983 The Editor Function Abram Foley, 2021-08-31 Offering the everyday tasks of literary editors as inspired sources of postwar literary history Michel Foucault famously theorized the author function in his 1969 essay What Is an Author proposing that the existence of the author limits textual meaning Abram Foley shows a similar critique at work in the labor of several postwar editors who sought to question and undo the corporate editorial industrial complex Marking an end to the powerful trope of the editor as gatekeeper The Editor Function demonstrates how practices of editing and publishing constitute their own kinds of thought calling on us to rethink what we read and how The Editor Function follows avant garde American literary editors and the publishing practices they developed to compete against the postwar corporate consolidation of the publishing industry Foley studies editing and publishing through archival readings and small press and literary journal publishing lists as unique sites for literary inquiry Pairing histories and analyses of well and lesser known figures and publishing formations from Cid Corman's Origin and Nathaniel Mackey's Hambone to Dalkey Archive Press and Semiotext e Foley offers the first in depth engagement with major publishing initiatives in the postwar United States The Editor Function proposes that from the seemingly mundane tasks of these editors routine editorial correspondence line editing list formation emerge visions of new better worlds and new textual and conceptual spaces for collective action Reading the Modernist Long Poem Brendan C. Gillott, 2020-12-10 How do readers approach the enigmatic and unnavigable modernist long poem Taking as the form's exemplars the highly influential but critically contentious poetries of John Cage and Charles Olson this book considers indeterminacy the fundamental feature of the long poem by way of its analogues in musicology mycology cybernetics and philosophy It addresses features of these works that figure broadly in the long poem tradition such as listing typography archives mediation and mereology while articulating how both poets broke with the longform poetic traditions of the early 1900s Brendan C Gillott argues for Cage's and Olson's centrality to these traditions in developing critiquing and innovating on the longform poetics of the past their work revolutionized the longform poetry of the 20th and 21st centuries

Rethinking the North American Long Poem Ridvan Askin, Julius Greve, 2024-12-15 For centuries critics poets poet scholars and philosophers have either openly proclaimed or tacitly assumed the long poem as the highest expression of literary ambition and excellence Rethinking the North American Long Poem focuses on the North American variant of this notorious form notorious because of its often forbidding and difficult character particularly with respect to the dialectics of content and form aesthetics and politics matter and genre In nine essays and a contextual introduction the editors and contributors scrutinize seminal long poems by North American writers including Walt Whitman's Song of Myself Ezra Pound's The Cantos Muriel Rukeyser's The Book of the Dead and Charles Olson's The Maximus Poems They also explore recent efforts that have redefined or reopened the case of the long poem including Rachel Blau DuPlessis's Drafts M NourbeSe

Philip's Zong and Claudia Rankine's *Citizen* Taking the categories of form matter and experiment as frames of conceptual reference the book examines the ways in which material and immaterial aspects of literary practice and the philosophically and politically inscribed duality of experience and experiment are negotiated in and by North American long poems from the nineteenth century to the present

The Olson Codex Dennis Tedlock, 2017-05-15 This exploration of the influence of Mayan hieroglyphics on the great American poet Charles Olson 1910-1970 is an important document in the history of New World verse Olson spent six months in the Yucatan in 1951 studying Maya culture and language an interlude that has been largely overlooked by students of his work Like Olson and Robert Creeley Olson's disciple who published Olson's letters from Mexico the poet Dennis Tedlock taught at the University of Buffalo Unlike his two predecessors Tedlock was also a scholar of Maya language and culture renowned for his translations from indigenous American languages notably the *Popul Vuh* the Maya creation story In *The Olson Codex* Tedlock describes and examines Olson's efforts to decipher Mayan hieroglyphics giving Olson's work in Mexico the place it deserves within twentieth century poetry and poetics

Staying Open: Charles Olson's Sources and Influences Joshua S. Hoeynck, 2019-05-03 *Staying Open: Charles Olson's Sources and Influences* investigates the inter disciplinary influences on the work of the mid Century American poet Charles Olson This edited collection of essays covers Olson's diverse non literary interests including his engagement with the music of John Cage and Pierre Boulez his interests in abstract expressionism and his readings of philosopher Alfred North Whitehead The essays also examine Olson's pedagogy which he developed in the experimental environment at Black Mountain College as well as his six month archeological journey through the Yucatan Peninsula in 1950 to explore the culture of the Maya This book will therefore be a strong research aid to scholars working in diverse fields music archeology pedagogy philosophy art and psychology as it outlines methods for close inter disciplinary work that can uncover the mechanics of Olson's creative literary processes Building on the straightforward scholarship of George Butterick whose *Guide to the Maximus Poems* remains indispensable for readers of Olson's work the essays in this volume will also guide readers through the thick allusions within *The Maximus Poems* itself New interest in the wide ranging and non literary nature of Olson's thought in several recent academic works makes this book both timely and necessary

Physics Envy American Poetry and Science in the Cold War and After by Peter Middleton as well as *Contemporary Olson* edited by David Herd have started the process of uncovering the extent to which Olson's inter disciplinary interests inflected his poetic compositions *Staying Open* extends the preliminary investigations of Olson's non literary sources in those volumes by bringing together a community of scholars working across disciplines and within a wide variety of humanistic concerns

The New American Poetry John R. Woznicki, 2013-12-24 *The New American Poetry Fifty Years Later* is a collection of critical essays on Donald Allen's 1960 seminal anthology *The New American Poetry* an anthology that Marjorie Perloff once called the fountainhead of radical American poetics *The New American Poetry* is referred to in every literary history of post World War II American poetry Allen's anthology has reached

its fiftieth anniversary providing a unique time for reflection and reevaluation of this preeminent collection As we know Allen's anthology was groundbreaking it was the first to distribute widely the poetry and theoretical positions of poets such as Charles Olson Allen Ginsberg and the Beats and it was the first to categorize these poets by the schools Black Mountain New York School San Francisco Renaissance and the Beats by which they are known today Over the course of fifty years this categorization of poets into schools has become one of the major if not only way that The New American Poetry is remembered or valued one certain goal of this volume as one reviewer invites is to pry The New American Poetry out from the hoary platitudes that have encrusted it To this point critics mostly have examined The New American Poetry as an anthology former treatments of The New American Poetry look at it intently as a whole Though the almost singularly focused study of its construction and less often reception has lent a great deal of documented highly visible and debated material in which to consider we have been left with certain notions about its relevance that have become imbued ultimately in the collective critical consciousness of postmodernity This volume however goes beyond the analysis of construction and reception and achieves something distinctive extending those former treatments by treading on the paths they create This volume aims to discover another sense of radical that Perloff articulated rather than a radical that departs markedly from the usual we invite consideration of The New American Poetry that is radical in the sense of root of harboring something fundamental something inherent as we uncover and trace further elements correlated with its widespread influence over the last fifty years

The Films of Stan Brakhage in the American Tradition of Ezra Pound, Gertrude Stein and Charles Olson R. Bruce Elder, 2011-08-26 Since the late 1950s Stan Brakhage has been in the forefront of independent filmmaking His body of work some seventy hours is one of the largest of any filmmaker in the history of cinema and one of the most diverse Probably the most widely quoted experimental filmmaker in history his films typify the independent cinema Until now despite well deserved acclaim there has been no comprehensive study of Brakhage's oeuvre The Films of Stan Brakhage in the American Tradition fills this void R Bruce Elder delineates the aesthetic parallels between Brakhage's films and a broad spectrum of American art from the 1920s through the 1960s This book is certain to stir the passions of those interested in artistic critique and interpretation in its broadest terms

Solitude Carmela Ciuraru, 2005-11-01 A literary sanctuary for what Shakespeare called sessions of sweet silent thought this exquisite gathering of poems speaks to the consolations of solitude Here is Wordsworth wandering lonely as a cloud Poe confiding all I loved I loved alone Yeats's communion with the deep heart's core and Han Shan's heart of a hermit clean as a white lotus From Sir Edward Dyer's My Mind to Me a Kingdom Is to the spiritual searching of the Transcendentalists to the meditative verse of Jorie Graham some of the most indelible poems from every time and culture have grown out of the aloneness inherent in the poet's art The poems collected here whether reflecting on the soul or on nature addressing an absent loved one or honoring the self form a book of respite and contemplation and a beautiful tribute to the interior life

Ronald Johnson's Modernist Collage Poetry R.

Hair,2010-12-20 Using a critical examination of the collage poetics of Ronald Johnson this book sets out to understand Johnson's poetry in the context of the New American collage tradition stretching from Ezra Pound to Louis Zukofsky and beyond Additionally the book assesses Johnson's work in relation to wider questions concerning literary chronologies especially the discontinuities commonly seen to exist between nineteenth century Romantic and twentieth century modernist literary forms

Charles Olson and Alfred North Whitehead Shachar Bram,2004 Annotation Through a detailed and thoughtful study of the impact of Alfred North Whitehead's philosophy on Olson's aesthetic theory this book points out the conceptual unity underlying what seems to be a sprawl of fragments in Olson's major work *The Maximus Poems* On the one hand concrete poetic units of *The Maximus Poems* serve as a starting point for clarifying how different elements are joined together in one unity On the other hand the book traces the blending of the whole poem at the macro level following its course through a temporal progress in which the poem moves from one poetic unit to the next that is from a unity of multiplicity to a new unity in which the previous unity is already part of the multiplicity building the new one Thus the book illuminates Olson's theory of the Long Poem as an all containing corpus governed by metaphysical principles equal to life itself enacted in the process of working on *The Maximus Poems* BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Icons of the Middle Ages Lister M. Matheson,2011-12-02 From Thomas Becket to Charlemagne from Leif Erickson to Count Dracula this series of biographical essays separates truth from legend as it explores the lives of some of the most accomplished and influential figures of medieval history Drawing on the latest research *Icons of the Middle Ages Rulers Writers Rebels and Saints* examines the lives of some of the most remarkable personalities of the Medieval Era powerful ruthless compassionate brilliant people who remain widely influential today Each portrait in this extraordinary gallery sets its subject in the context of their world revealing what we really know about their lives their iconic status in their own times and their lasting legacies in our time Readers will encounter fascinating individuals devoted to the pursuit of power Richard III to freedom Robert the Bruce to philosophy and religion Maimonides Thomas More and to the arts Dante Hildegard of Bingen Additional chapters explore life in the medieval castle and the advent of siege warfare two defining developments in the Middle Ages

Expanding Authorship Peter Middleton,2021-06-01 *Expanding Authorship* collects important essays by Peter Middleton that show the many ways in which in a world of proliferating communications media poetry making is increasingly the work of agencies extending beyond that of a single identifiable author In four sections Sound Communities Collaboration and Complexity Middleton demonstrates that this changing situation of poetry requires new understandings of the variations of authorship He explores the internal divisions of lyric subjectivity the vicissitudes of coauthorship and poetry networks the creative role of editors and anthologists and the ways in which the long poem can reveal the outer limits of authorship Readers and scholars of Wallace Stevens William Carlos Williams George Oppen Frank O'Hara Robert Duncan Robert Creeley Jerome Rothenberg Susan Howe Lyn Hejinian Nathaniel Mackey and

Rae Armantrout will find much to learn and enjoy in this groundbreaking volume *Contemporary Olson* David Herd, 2016-05-16 As poet critic theorist and teacher Charles Olson extended the possibilities of modern writing From Call Me Ishmael his pioneering study of Herman Melville to his epic poetic project The Maximus Poems Olson probed the relation between language space and community Writing in the aftermath of the Second World War he provided radical resources for the re imagining of place and politics resources for collective thought and creative practice we are still learning how to use Re situating Olson s work in relation both to his own moment and to current concerns the essays assembled in Contemporary Olson provide a major re assessment of his place in postwar poetry and culture Through a series of contextualising chapters discussions of individual poems and reflections on Olson s legacy by leading international writers and critics the book presents a poet who still informs contemporary poetry whose thought and compositional innovations continue to provoke Remote as some of his fascinations must now seem Olson is shown nonetheless to offer a poetry and poetics that speaks clearly to our own fraught historical moment Contemporary Olson opens this major writer to new readings and new readers

The Limits of Fabrication Nathan Brown, 2017-01-02 Poetry or poesis has long been understood as a practice of making But how are experiments in the making of poetic forms related to formal making in science and engineering The Limits of Fabrication takes up this question in the context of recent developments in nanoscale materials science investigating concepts and ideologies of form at stake in new approaches to material construction Tracing the direct pertinence of fields crucial to the new materials science nanotechnology biotechnology crystallography and geodesic design in the work of Shanxing Wang Caroline Bergvall Christian B k and Ronald Johnson back to the midcentury development of Charles Olson s objectist poetics Nathan Brown carves out a tradition of constructivist nonorganic poetics that has developed in conversation with science and engineering While proposing a new approach to the relation of techn craft skill and poesis making forming this book also intervenes in philosophical debates concerning the concept of the object the distinction between organic and inorganic matter theories of self organization and the relation between design and nature Engaging with Heidegger Agamben Whitehead Stiegler and Nancy Brown shows that materials science and materialist poetics offer crucial resources for thinking through the direction of contemporary materialist philosophy **Yours Presently** Michael Seth Stewart, 2024-06-15 Boston born and bred John Wieners was a queer self styled po te maudit who was renowned among his contemporaries but ignored by mainstream critics Twenty first century readers are correcting this elision placing Wieners back alongside his better known peers including Allen Ginsberg Charles Olson Denise Levertov and Amiri Baraka Wieners was a voluble letter writer maintaining friendships with these contemporaries that spanned decades and tackling a range of complex issues that resonate today including drug use homosexuality subcultures of the East and West Coasts and the differing treatment of mental patients based on their economic class The letters collected in this volume are greatly enhanced by Eileen Myles s preface and Stewart s thorough introduction notes and brief bios of the poets writers artists and

editors with whom Wieners corresponded The result is more than the letters of a poet it is a history that explores the world at large in the mid twentieth century *Pound in Multiple Perspective* Andrew Gibson,1993-06-18 The book consists of seven essays exploring the relationship between Pound and Browning Yeats Ford Lewis Joyce Eliot and American epic tradition Each essay reconsiders and reassesses one aspect of the poet his work and his literary connections in the light of fresh insight and new research Planet on the Table Sharon Bryan,William Olsen,2003 Essential reading for the student of creative writing and all writers **Geopoetry** Dale Enggass,2025-06-17 At its core geopoetics proposes that a connection between language and geology has become a significant development in post World War II poetics In Geopoetry Dale Enggass argues that certain literary works enact geologic processes such as erosion and deposition and thereby suggest that language itself is a geologic and not a solely human based process Elements of language extend past human control and open onto an inhuman dimension which raises the question of how literary works approach the representation of nonhuman realms Enggass examines the work of Clark Coolidge Robert Smithson Ed Dorn Maggie O Sullivan Jeremy Prynne Jen Bervin Christian B k and Steve McCaffery and he finds that while many of these authors are not traditionally connected to ecocritical writing their innovations are central to ecocritical concerns In treating language as a geological material these authors interrogate the boundary between human and nonhuman realms and offer a model for a complex literary engagement with the Anthropocene
