The Creative Teaching of Religious Education: Heather Meacock,2014-07-18 This book is based on the vision that religious education RE can be taught creatively with relevance to the lives of teachers and their pupils today in predominantly secular society RE should be taught from the perspective of knowledge and understanding of religions to

foster tolerance and to dispel prejudice and misunderstanding without any attempt to influence children's personal beliefs. The philosophy which underpins this book is the belief that RE is best taught within an integrated approach to the humanities. The humanities are about what it is to be human in time and place and in terms of belief. Therefore RE is linked with history, geography and the creative arts within five themes: human survival, light and dark, leadership, the environment and time and motion. As well, there is accurate and detailed subject knowledge about the six major world faiths and plays scenes about them written and produced in schools by myself. The book is in alignment with the British National Curriculum which requires that RE is taught in schools and with the latest Ofsted Report 2010 which states that there is a need for guidance for teachers and more creative and innovative approaches to link RE with the wider curriculum. *New England Journal of Education*, 1909

Children of the Stars Nikki Pattillo, 2008-08 Star children are children who have been sent here from all areas of the universe to help the earth and the people on it. They possess psychic, spiritual and other extra-sensory abilities. These children will bring peace, topple corrupt systems and shift dimensional consciousness in the years to come. They have come here on special assignment to assist in this rebirth into a higher-dimensional Earth. Since the beginning of time, parents have wished their kids came with an owner's manual. Big changes are coming as this is a new world, a new energy grid, and the children of the stars or Star children, as we call them, have finally arrived to help save the earth with no owner's manual.
