Quality Education for Latinos and Latinas Rita Portales, Marco Portales, 2010-01-01 As educators and legislators across the country debate how to improve public schools, the most vital factor often disappears from the equation: the relationship between the teacher and the student. According to veteran educators Rita and Marco Portales, this relationship is the central issue in the education of students, especially Latino students who often face serious barriers to school success because of the legacy of racism, insufficient English language skills, and cultural differences with the educational establishment. To break down these barriers and help Latino students acquire a quality education, the Portaleses focus attention on the teacher-student relationship and offer a proven method that teachers can use to strengthen the print and oral skills of their students. They begin by analyzing the reasons why schools too often fail to educate Latino students, using eloquent comments from young Latinos and their parents to confirm how important the teacher-student relationship is to the student's success. Then they show how all educational stakeholders—teachers, administrators, state education agencies, legislators, and parents—can work together to facilitate the teacher-student relationship and improve student education. By demonstrating how teachers can improve students' reading, critical thinking, writing, and oral communication skills across the curriculum, they argue that learning can be made more relevant for students, keeping their interest levels high while preparing them for academically competitive colleges.

Issues in Latino Education Mariella Espinoza-Herold, Ricardo González-Carriedo, 2017-04-21 Candid and illuminating, this text exposes the educational realities of Latinos in the U.S. and foreign-born students in K-12 public schools in the Western United States from the students' own perspectives. Through the testimonies of students who struggled to graduate from high school, issues that are often oversimplified and commonly misunderstood are brought to life. The students themselves offer pragmatic solutions to reduce the unchanging academic gap among culturally diverse groups. Their accounts are then compared with the viewpoints of a range of K-12 teachers on matters of community learning, race, culture, and school politics. Examining in depth the question of

how to best educate a growing culturally and linguistically diverse student population this critical case study provides food for thought and provokes reflection on the critical role that human interactions and networking play in attaining one's dreams and human aspirations Changes in the Second Edition Updated demographics New chapter The Role of the Media in the Transmission of Ideologies Related to Latino Students Updated conclusions and study implications **Latino Education** Pedro Pedraza, Melissa Rivera, 2006-04-21 This volume represents the work of the National Latino a Education Research Agenda Project NLERAP It conceptualizes and illustrates the theoretical framework for the NLERAP agenda and its projects
