Official Knowledge Michael W. Apple, 2014-03-26 This third edition of *Official Knowledge* a classic text from one of education's most distinguished scholars challenges readers to critically examine how certain knowledge comes to be official and whose agendas this knowledge represents A probing and award winning study this new edition builds on the tradition of its predecessors to question the rightist resurgence in education while substantive updates throughout show how such policies continue to define our commonsense notions about what counts as a good school A new preface and two full new chapters address current controversies over curriculum and textbooks and extend the discussion of previous editions to reflect on some of the most important pressures being placed on higher education as well Apple also considers the recent conversion of some prominent neoliberal neoconservative and managerial thinkers to more critical understandings of educational policies proving that progressive change is possible if we examine the roots of these ideologies in the first place As insightful as it is thorough *Official Knowledge* is a refreshing call to challenge the dominant forces within education today as Apple powerfully illustrates how larger social movements are only possible if we purposefully and inclusively deepen our understanding of the existing body of knowledge about education

projects within a larger international history and charts the ongoing theoretical debates that seek to explain the relationship between school and society Today much of the language of this critical turn has now become commonplace words such as hegemony ideology and the term critical itself but by providing a historical analysis The Critical Turn in Education illuminates the complexity and nuance of these theoretical tools which offer ways of understanding the intersections between individual identities and structural forces in an attempt to engage and overturn social injustice Educating About Social Issues in the 20th and 21st Centuries - Vol 4 Samuel Totten,Jon Pedersen,2014-05-01 This volume is the fourth and last volume in the series entitled Educating About Social Issues in the 20th and 21st Centuries An Annotated Bibliography Volumes I and Volume 2 focused on 1 the lives and work of notable scholars dedicated to addressing why and how social issues should become an integral component of the public school curriculum and 2 various topics approaches vis vis addressing social issues in the classroom Volume 3 addressed approaches to incorporating social issues into the extant curricula that were not addressed in the first two volumes This volume Volume Four focuses solely on critical pedagogy both the lives and work of major critical pedagogues and the different strains of critical pedagogy the latter pursued e g critical theory in education critical feminism in education critical race theory *Education and Neoliberal Globalization* Carlos Alberto Torres,2008-11-19 This volume by noted critical education scholar Carlos Alberto Torres takes up the question of how structural changes in schooling and the growing impacts of neoliberalism and globalization affect social change national development and democratic educational systems throughout the world The first section of the book offers analytical avenues to understand and criticize the practices and policies of neoliberal states both domestically and internationally More than a mere lament of the state of educational policy however Torres also documents the critiques and alternatives developed by social movements against neoliberal governments and policies Ultimately his work urges readers to engage in the struggle to resist the oppressive forces of neoliberal globalization and proactively and deliberately act in informed ways to create a better world *Handbook of Research in the Social Foundations of Education* Steven Tozer,Bernardo P. Against Global Capitalism Paula Allman, 2019-04-09 In today's vernacular Marx outed capitalism well over a century ago however his explanation has been both ignored and misinterpreted by not only his detractors but also by many socialists and even a considerable number of Marxists as well Today we are experiencing the full impact and suffering the repercussions of capitalism's inherent need to grow and become more than ever before a fully internationalized and integrated system of socioeconomic control and domination the global system that many commentators have suddenly remembered Marx and Engels 1848 presciently forecasted in the Communist Manifesto When the Berlin Wall fell in 1989 the victory of capitalism and liberal democracy was triumphantly proclaimed The Cold War was over and we were promised a lasting peace As we entered the third millennium the promise of peace was brutally dashed and humanity now appears to have entered a state of permanent war We have just witnessed the near total collapse of the global financial system and are continuing to experience as we will for years to come the collateral damage this crisis has caused Problems we were facing before the current crisis will be exacerbated escalating social and economic divisions jobless growth injustice and oppression together with an environment in varying stages of degradation Daily on television news we are bombarded by the schizoid media images of capitalism's extremes the ravaged faces and wasted bodies of some of the thousands suffering famine or the millions living in the world's slums followed within a blink of the eye by the gleaming yet vacuous smile and sumptuously adorned figure of some extravagant wealthy individual who is one of the select members of the global upper class Are we becoming conditioned to accept such contrasts and regard them as normal and inevitable at a time when we have the potential to eliminate scarcity and eradicate human deprivation The author argues that revolutionary critical education is needed to inform and form a social movement capable of challenging and then transforming capitalism She also offers an accessible account of Marx's dialectical critique and expos of capitalism clearly demonstrating the real enemy that should be the focus of anti capitalist and anti globalization struggles This is an account that explains why our focus should not be on greedy individual capitalists Wall Street financial institutions particular multinational corporations national governments or even their handmaiden institutions such as the World Bank IMF WTO etc but instead the global network of capitalist socioeconomic relations and consequent habituated human practices in which we are all involved These together with the historically specific form of capitalist wealth are the real enemy the essence of capitalism that must be abolished in order for humanity to have any hope of social and economic justice in the future **Handbook of Research on Educational Leadership for Equity and Diversity** Linda C. Tillman, James Joseph Scheurich, 2013-08-21 The rapid growth of diversity within U S schooling and the heightened attention to the lack of equity in student achievement school completion and postsecondary attendance has made equity and diversity two of the principle issues in education educational leadership and educational leadership research The Handbook of Research on Educational Leadership for Equity and Diversity is the first

research based handbook that comprehensively addresses the broad diversity in U S schools by race ethnicity culture language gender disability sexual identity and class The Handbook both highly values the critically important strengths and assets that diversity brings to the United States and its schools yet at the same time candidly critiques the destructive deficit thinking biases and prejudices that undermine school success for many groups of students Well known chapter authors explore diversity and related inequities in schools and the achievement problems these issues present to school leaders Each chapter reviews theoretical and empirical evidence of these inequities and provides research based recommendations for practice and for future research Celebrating the broad diversity in U S schools the Handbook of Research on Educational Leadership for Equity and Diversity critiques the inequities connected to that diversity and provides evidence based practices to promote student success for all children

Emancipated Education Azhar Ibrahim,2022-12-06 The obsession with world rankings and vocational training has turned universities into factories for the production of students and publications Teaching plays second fiddle to research output normally circulated within a small circle of experts to be validated or condemned to the abyss leading to the justifiable charge that universities are ivory towers In Emancipated Education Dr Azhar Ibrahim s call to reclaim the space of what he calls the educative front as a site for emancipation is timely and urgent Channelling the thoughts of giants like Paulo Freire and N F S Grundtvig the book articulates the higher purpose of higher education It serves to re humanise the human process of learning that we may have harmed Dr Nazry Bahrawi Literary and

cultural critic Co founder of the Bras Basah Open School for Theory and Philosophy Dr Azhar s book is a detour around the current climate of global education which tends to celebrate rankings at the expense of empowerment and humanisation He clearly shows that education should be a combative front against any establishment without having to succumb to dogmatic power through a combination of reason ethics conscience and spirituality For him education is not just a ladder for immediate gains but is also supposed to be a part of supra structure to ensure social justice Emancipated Education is a must read book for teachers lecturers and education policy makers alike who wish to recharge their intellectual spirits Dr Achmad Uzair Fauzan Director of the Office for International Affairs Sunan Kalijaga State Islamic University Yogyakarta *Advocacy Leadership* Gary L.
