Israel witnessed rapid changes during the last five decades of its existence as an independent state Geopolitical developments particularly the continuous conflict with its Arab state neighbors affected all spheres of life including education Demographically changing patterns of Jewish immigration has transformed the Jewish population several times from predominantly European in the late 1940s to Middle Eastern during the late 1950s and 1960s and back to European following mass immigration from the former Soviet Union in the late 1980s and 1990s These demographic changes including waves of immigrants from Ethiopia have raised issues of equality in educational policies The authors of this book provide historical background and analyses of Israel s educational system that they believe is on the crossroads of still another transformation as a result of the prospects of peace in the region      *Politics and Policy-Making in Israel's Education System* Haim Gaziel, 1996-01-01 This volume describes and analyses the structure of Israel s education system from a political and policy making perspective      Israel and the Occupied Territories Lynne Rosengrant Franks, 1987 Information on the educational systems of Israel and the Occupied Territories West Bank and the Gaza Strip and guidelines on placing students from this region in U S high schools and colleges are presented After describing the country and territories attention is directed to preschool primary and intermediate education secondary education teacher training and the education profession nursing and other health professions overseas student programs in Israel technological education higher education and the United Nations Relief and Works Agency for Palestine Refugees in the Near East Profiles of technical and higher education institutions in Israel and the Occupied Territories cover degrees diplomas admission requirements college programs and school characteristics General information on Israeli higher education includes college organization and administration the grading and credit systems examinations and degree programs Guidelines for admissions officers focus on the admissibility and appropriate level of placement of students from Israel and the territories in U S schools A glossary and list of postsecondary technological vocational schools are appended SW      **Education among Indigenous Palestinians in Israel** Majid Al-Haj, 2024-07-01 Unparalleled in its scope this book provides a detailed longitudinal analysis of indigenous Palestinian education in Israel since the establishment of the state Taking a comparative approach Majid Al Haj juxtaposes the Arab and Hebrew education systems in Israel from early childhood through higher education looking at their administration resources curriculum content and outcomes Significantly the book represents the first systematic examination of an authentic model for social change and educational empowerment initiated by Palestinian Arabs in Israel through a civil society organization Blending quantitative and qualitative methods Al Haj addresses widely debated theoretical questions about the role of education among indigenous minorities and disadvantaged groups in the context of cultural hegemony and

inequalities on the one hand and self empowerment and social change on the other Lastly Al Haj offers a review of the pre state period and considers the impact of the ongoing Israel Palestinian conflict on the goals substance and narratives of Arab and Hebrew education *Conflicting Philosophies of Education in Israel/Palestine* Ilan Gur-Ze'ev, 2013-06-29 effectiveness and creativity in different contexts In this issue this will be presented in full detail in the articles which refer to different aspects of the Israeli educational context This special issue of Studies in Philosophy and Education concentrates on the intellectual impotence moral devotion cultural willingness and social and technological efforts for the preservation and enhancement of the tyranny of normalizing education over human beings in a specific arena The various studies in this issue with all their differences of orientation and issues under consideration will reconstruct the ways for forcing subjects and communities to commit themselves to destroy the otherness or the human potential of the inner and external Other They reveal this phenomenon as a characteristic of both the victimizers and their 8 victims Normally philosophy of education supports this process and justifies or hides this reality As will be shown in this special issue however at the same time philosophy of education might also become a non productive or even a rebellious element in the culture industry and present a serious challenge to the present order It can address and challenge the perpetual success of normalizing education in all its versions among all rival communities narratives and armies of teachers consumers soldiers and intellectuals This of course does not guarantee that such a critique or resistance will not become another dogmatic or nihilistic blow to the free Spirit or nothing but another version of normalizing education *Arab Education in Israel* Sami Khalil Mar'i, 1978-06-01
