The book draws from analysing a diverse range of data sources, including statistics from organizations like the International Labour Organization (ILO) and the World Bank's World Development Indicators (WDI), as well as data from surveys such as the Periodic Labour Force Survey (PLFS) and the Employment-Unemployment Survey (EUS) conducted by the National Sample Survey Office (NSSO) of the Ministry of Statistics and Programme Implementation (MoSPI), Government of India, and educational surveys such as the Unified District Information System for Education (UDISE) All India Survey on Higher Education (AISHE), School Education Quality Index (SEQI), and NSSO's surveys on Household Social Consumption Education. These data cover a period spanning over two decades from 2000 to 2023. The book is a valuable resource for policymakers, researchers, and anyone interested in understanding the complex challenges and opportunities associated with the transition of Indian youth from school to decent employment. This transition is closely linked to the achievement of Sustainable Development Goals (SDG 4 and 8) and with India being home to the world's largest youth population.
