**Face to Face** Kausik Bandyopadhyay, 2021-03-30 While rivalry is embedded in any sporting event or performance soccer the world's most

popular mass spectator sport has been an emblem of such rivalries since its inception as an organized sport. Some of these rivalries grow to become long term and perennial by their nature, extent, impact and legacy from the local to the global level. They represent identities based on widely diverse affiliations of human life: locality, region, nation, continent, community, class, culture, religion, ethnicity and so on. Yet at times such rivalries transcend barriers of space and time where soccer clubs, nations, personalities, organizations, styles and fans float and compete with intriguing identities. The present volume brings into focus some of the most fascinating and enduring rivalries in the world of soccer. It attempts to encapsulate, analyse and reconstruct those rivalries between nations, between clubs, between personalities, between styles of play, between fandoms and between organizations in a historical perspective in relation to diverse identities, competing ideologies, contestations of power, psychologies of attachment, bonds of loyalty, notions of enmity, articulations of violence and affinities of fan culture, some of the core manifestations of sporting rivalry. The chapters in this book were originally published as a special issue of *Soccer Society*. *Pediatric Sports Medicine for Primary Care* Richard B. Birrer, Bernard Griesemer, Mary B. Cataletto, 2002. Comprehensive and detailed, its focus is on the content necessary to pass the CAQ in Sports Medicine offered by the American Board of Pediatrics (ABP) and the American Board of Family Practitioners (ABFP). The Palgrave Handbook of Paralympic Studies is written by a range of international authors, a number of whom are senior strategists as well as academics and explores legacy themes through case studies of recent Paralympic games. Written in the wake of the 2016 Rio Paralympic Games, it provides an assessment of contemporary challenges faced by the International Paralympic Committee and other key stakeholders in the Paralympic Movement. Its critical assessment of approaches to branding, classification, social inclusion and technological advances makes this handbook a valuable resource for undergraduate study across a range of sport and disability related programmes as well as a point of reference for researchers and policy makers. *Routledge Handbook of Sport and COVID-19* Stephen Frawley, Nico Schulenkorf, 2022-08-24.
