

Thirty faces,

a chapter in your tale,

Some etched in laughter,

others so pale.

administered rather than as singular beings the apparatus of government recognizes categories not people In contrast relatives of the missing demand that authorities focus on a particular person families and friends are looking for someone who to them is unique and irreplaceable In Missing Jenny Edkins highlights stories from a range of circumstances that shed light on this critical tension the aftermath of World War II when millions in Europe were displaced the period following the fall of the World Trade Center towers in Manhattan in 2001 and the bombings in London in 2005 searches for military personnel missing in action the thousands of political disappearances in Latin America and in more quotidian circumstances where people walk out on their families and disappear of their own volition When someone goes missing we often find that we didn't know them as well as we thought there is a sense in which we are missing even to our nearest and dearest and even when we are present not absent In this thought provoking book Edkins investigates what this more profound missingness might mean in political terms     Photo-era ,1905     The Publishers Weekly ,1924     **Catholic World** ,1960
