Faces Of Violence In America:

Faces of Violence in America Gordon A. Crews, Reid H. Montgomery, W. Ralph Garriss, 1995-12 *The Negro Faces America* Herbert Jacob Seligmann, 1920 **The Faces of Africa: Diversity and Progress**, 1972 **America Through Transgender Eyes** J. E. Sumerau, Lain A.B. Mathers, 2019-04 America through Transgender Eyes provides readers with important insights into the beauty and struggle of transgender people identities experiences and relationships *Violent America* Ariane Chebel d'Appollonia, 2023-02-15 In *Violent America* Ariane Chebel d'Appollonia counterintuitively analyzes why and how various ethnoracial groups proactively and instrumentally use different forms of violence to achieve their goals Combining a historical analysis spanning the centuries with an examination of contemporary problems she considers how and why ethnoracial groups can be both perpetrators and victims of violence why some minority groups react differently to violence in comparable situations and what the consequences are today for politics in both America and Europe *Violent America* thus explores the effects of physical and discursive violence on the ways in which ethnoracial groups define themselves Chebel d'Appollonia argues that the use of ethnoracial violence has been and remains an effective identity strategy by which all ethnoracial groups are able to integrate themselves into the mainstream of American society She provides an alternative way of understanding the complex relationship between migrant phobia multiethnic grievances and intergroup conflicts in America *With the Face of the Enemy* Katharina Motyl, 2024-11-20 *With the Face of the Enemy* focuses on the writings of Arab American authors between 2001 and 2011 Positioned as Arab Americans in the post 9 11 U S this underexamined group of writers projects unique insights into both the Western and Arab worlds Using the lens of postcolonial literary theory Katharina Motyl explores how the War on Terror turned Arab Americans into enemies within their own country Countering the master narrative of a clash of civilizations between the Islamic world and the West the fictional and poetic texts discussed in this book alternate between deconstructing neo Orientalist stereotypes and critiquing U S neocolonialism in the Greater Middle East on the one hand and critically examining Arab culture for instance its patriarchal outlook on the other Motyl pays special attention to texts written by Arab American women who have radically advocated for self determination in areas like sexuality and mode of dress thus rejecting the stereotype of Arab women as oppressed victims *With the Face of the Enemy* takes a serious look at how the aesthetics of Arab American literature negotiates the many psychosocial consequences the domestic War on Terror and the U S wars in Iraq and Afghanistan have had on the Arab American community *Asian American Sexual Politics* Rosalind S. Chou, 2012-06-07 *Asian American Sexual Politics* explores the topics of beauty self esteem and sexual attraction among Asian Americans The book draws on sixty in depth interviews to show how constructions of Asian American gender and sexuality tend to reinforce the social and political dominance for whites particularly white males even in the supposed post racial United States Drawing on established scholarship on the intersection of race gender and sexuality *Asian American Sexual Politics* shows how power

dynamics shape the lives of young Asian Americans today Asian American women are often constructed as hyper sexual docile bodies while Asian American men are often racially castrated The book s interview excerpts show the range of frames through which Asian Americans approach the world as well as the counter frames they construct In the final chapter author Rosalind S Chou offers strategies for countering racialized and sexualized oppression This provocative book shows how persistent racism affects Asian American body image self esteem and intimate relationships

Violence and American Cinema J. David Slocum, 2013-09-13 American cinema has always been violent and never more so than now exploding heads buses that blow up if they stop racial attacks and general mayhem From slapstick s comic violence to film noir from silent cinema to Tarantino violence has been an integral part of America on screen This new volume in a successful series analyzes violence examining its nature its effects and its cinematic and social meaning

Terrorism in America J. Lutz, 2007-10-29 Terrorism is often seen as a Middle Eastern problem and terrorists are often perceived as only having a Muslim background It may surprise many to learn that Americans are and have been terrorists since the birth of the nation This book investigates and discusses many instances in which Americans were themselves the terrorists and the victims

Out in the Periphery Omar G. Encarnación, 2016-01-04 Known around the world as a bastion of Catholicism and machismo Latin America has emerged in recent years as the undisputed gay rights leader of the Global South Even more surprising is that several Latin American nations have surpassed many developed nations including the United States in legislating equality for the LGBT community So how did this dramatic and unexpected expansion of gay rights come about And why are Latin American nations diverging in their embrace of gay rights a point highlighted by the paradoxical experiences of Argentina and Brazil Argentina a country with a dark history of repression of homosexuality legalized same sex marriage in 2010 a first for a Latin American nation and since then it has enacted laws to ensure transgender equality to abolish ex gay reparative therapy and to provide reproductive assistance to same sex couples By contrast Brazil a country famous for celebrating sexual diversity proved incapable of legalizing same sex marriage via the legislature leaving the job to the courts and Brazilian anti gay discrimination laws are among the weakest in Latin America In Out in the Periphery Omar G Encarnaci n breaks away from the conventional narrative of Latin America s embrace of gay rights as a by product of the global spread of gay rights from the developed West Instead Encarnaci n aims to decenter gay rights politics His intention is not to demonstrate how the local has trumped the global in Latin America but rather to suggest how domestic and international politics interacted to make Latin America one of the world s most receptive environments for gay rights Economic and political modernization constitutional and judicial reforms and the rise of socially liberal governments have all contributed to this receptivity But the most decisive factor was the skill of local activists in crafting highly effective gay rights campaigns Inspired by external events and trends but firmly grounded in local politics and realities these campaigns succeeded in bringing radical change to the law with respect to homosexuality and in some cases as in Argentina in transforming society and the culture at large
