Reyad,2024-12-07 According to Serpa in MDPI encyclopedia 3 Society 5.0 can be realized as a concept and a guide for social development with a profound impact on current societal structures in multiple levels. Society 5.0 achieves advanced convergence between cyberspace and physical space enabling AI based on big data and robots to perform or support as an agent the work and adjustments that humans have done up to now. Deguchi et al 4 define Society 5.0 as a highly intelligent society based on generation processing exchange of data and more specifically knowledge through the connection of the physical environment with the cyberspace. Achieving Society 5.0 with these attributes would enable the world to realize economic development while solving key social problems. It would additionally contribute to achieving the SDGs established by the United Nations. Despite the differences in formulation of the names of these periods and societies it is obvious that each of them became a basis for step like growth in developed society at specific time periods. Scale character and depth of these changes are different in different countries. Consequently to address the aims of the book it seeks exploratory empirical interpretive and theoretical research built on either primary or secondary data. The approaches suggested are not exhaustive and can be extended upon by the researchers. In addition the book will contribute towards the UN's sustainable development goals. In support of UN's efforts towards a more digital economy this book aims to debate and discuss the history genesis future opportunities and challenges of transitioning to Society 5.0 and provides a holistic perspective on a variety of topics special topics which contribute towards the optimal attainment of the SDGs particularly in terms of social dimensions. Finally this book provides a platform for researchers academics and professionals to the transition and technological enablers of industrial revolutions through empirical or exploratory studies that use a variety of innovative approaches. The target audience of the book includes researchers and scholars who will find in its comprehensive knowledge about industry 4.0 industry 5.0 society 5.0 and its contribution to economic growth and sustainable development goals SDGs. Furthermore the book's secondary target audience are teachers managers strategists professionals governments and policymakers. *Handbook of Research on Organizational Culture and Diversity in the Modern Workforce* Christiansen, Bryan, Chandan, Harish
