Peace through Facing Difference—it started with YOU!

Congratulations! You stepped out of your artistic and social comfort zones to create thoughtful self-portraits while exploring your own identity and celebrating those that are different from you.

Your participation in the Facing Difference Challenge has not only generated some of the most personal and moving artwork we've ever received, but your collective efforts have also raised \$600,000 to support youth peace-building in areas of conflict.

This report shares some fun facts and a sample of the neat art we received this Challenge. We're excited and grateful to celebrate our successes together—and we couldn't have done it without each and every one of you.

Facing Difference:

In the Face of Difference William L. Sachs, 2014-11-20 Encounters with difference are the measure of faith as how a person of one faith approaches persons of other faiths reveals the heart of religious conviction Christian congregations are often ill equipped to respond to differing religious perspectives Most are hesitant many are prejudiced In the Face of Difference offers a basis for constructive response demonstrating how one can honor people of another faith by living fully into one's own faith William Sachs examines how Christians can maximize their spiritual growth through a genuine exchange of ideas and inspiration with those of others faiths focusing on encounters between Christians and Muslims By providing a clear and concrete blueprint for congregational leadership in new social circumstances Sachs charts a course for overcoming major religious prejudice He demonstrates how bridges can be built by applying the ideals of love of God and love of neighbor and how faithful people can translate religious ideals into reconciling realities **Department of Defense**

Similar, So Different Pierre Capi, Patricia Gibert, Ian Boussy, 2012-12-06 This book brings together most of the information available concerning two species that diverged 2-3 million years ago The objective was to try to understand why two sibling species so similar in several characteristics can be so different in others To this end it was crucial to confront all data from their ecology and biogeography with their behavior and DNA polymorphism *Drosophila melanogaster* and *Drosophila simulans* are among the two sibling species for which a large set of data is available In this book ecologists physiologists geneticists behaviorists share their data on the two sibling species and several scenarios of evolution are put forward to explain their similarities and divergences This is the first collection of essays of its kind It is not the final point of the analyses of these two species since several areas remain obscure However the recent publication of the complete genome of *D. melanogaster* opens new fields for research This will probably help us explain why *D. melanogaster* and *D. simulans* are sibling species but false friends Role Performance Of Special Education Teachers: Problems And Prospects G.L.
