Facts Not Fear A Parents Guide To Teaching Chi:

Schooling for Sustainable Development Across the Pacific John Chi-Kin Lee, Rob Efrid, 2014-05-23 Environmental education EE and education for sustainable development ESD are asserting their growing role in curricula around the world yet how deeply embedded are they in the learning systems of the Pacific nations Building on an earlier analysis in China and Taiwan this volume expands its purview to examine the quality and extent of environmental and sustainable development education in a number of countries in the Asia Pacific region including China itself Taiwan South Korea Japan and Indonesia As well as offering detailed national analyses provided by Asian Pacific academics and professionals this work includes examples in the US and Canada and an introduction that assesses the contrasting challenges and positive commonalities among diverse education systems The chapters reflect leading edge practice innovation and depth of experience and at the same time as detailing locally relevant and culturally appropriate strategies they also provide clear models and strategies for expanding the application and influence of education for sustainable development elsewhere In doing so they mirror the global nature of environmental issues as well as the local nature of the solutions

Who Owns the Environment? Peter J. Hill, Roger E. Meiners, 1998-08-20 The past several decades have witnessed a growing recognition that environmental concerns are essentially property rights issues Despite agreement that an absence of well defined and consistently enforced property rights results in the exploitation of air water and other natural resources there is still widespread disagreement about many aspects of America s property rights paradigm The prominent contributors to Who Owns the Environment explore numerous theoretical and empirical possibilities for remedying these problems An important book for environmental economists and those interested in environmental policy

Property Rights Terry L. Anderson, Fred S. McChesney, 2018-06-26 The institution of property is as old as mankind and property rights are today deemed vital to a prosperous economic system Much has been written in the last decade on the economics of the legal institutions protecting such rights This unprecedented book provides a magnificent introduction to the subject Terry Anderson and Fred McChesney have gathered twelve leading thinkers to explore how property rights arise and how they bolster economic development As the subtitle indicates the book examines as well how controversies over valuable property rights are resolved by agreement by violence or by law The essays begin by surveying the approaches to property taken by early political economists and move to colorful applications of property rights theory concerning the Wild West the Amazon endangered species and the broadcast spectrum These examples illustrate the process of defining and defending property rights and demonstrate what difference property rights make The book then considers a number of topics raised by private property rights analytically complex topics concerning pollution externalities government taking of property and land use management policies such as zoning Overall the book is intended as an introduction to the economics and law of property rights It is divided into six parts with each featuring an introduction by the editors that integrates prior chapters and material in coming chapters In the end

the book provides a fresh comprehensive overview of an intriguing subject accessible to anyone with a minimal background in economics With chapters written by noted experts on the subject Property Rights offers the first primer on the subject ever produced In addition to the editors the contributors are Louise De Alessi Yoram Barzel Harold Demsetz Thinn Eggertsson Richard A Epstein William A Fischel David D Haddock Peter J Hill Gary D Libecap Dean Lueck Edwin G West and Bruce Yandle
