Audiences themselves represent diverse class, gender and ethnic identities that complicate the quest of national cinema, not least with recent developments in formerly communist Eastern Europe and post colonialist Western Europe. Through their individual studies, the contributors open up a new area of study using the medium of film to focus a wider discussion of popular European culture.

And why wouldn't you want to live a super long life if you could remain in good health? You'd get to meet your great grandkids, try out space travel and the teleporter and gross out all your descendants by having noisy old person sex. Comedian Ariane Sherine has always been determined to live into her hundreds but never knew how. With so much conflicting and confusing health information out there she didn't have a clue where to start until she met David Conrad, a public health expert who helped her to weigh up all the research and evidence and explained exactly what to do to live a long and healthy life. And together they've decided to tell you how to live to a hundred too. This book has all the facts, stats, inappropriate jokes and shameless puns you could ever need to make it to your eleventh decade. The evidence is given for a hundred factors that affect life expectancy: everything from green tea to gardening, sex to sweeteners. And celebrities weigh in with their own thoughts too, so you'll find contributions from Derren Brown, Richard Osman, Lou Sanders, Charlie Brooker, Konnie Huq, Robin Ince, Jeremy Vine, Clive Anderson and many more.

the railway and cinema were especially prominent Together the two technologies radically transformed how people interacted with the world around them and became crucial to how British media reflected the nation s modernity and changing role within the empire Rebecca Harrison draws on archival sources and an extensive corpus of films to trace the intertwined histories of the train and the screen for the first time In doing so she presents a new and illuminating material and cultural history of the period and demonstrates the myriad ways railways and cinema coalesced to transform the population s everyday life With examples taken from more than 240 newsreels and 40 feature length films *From Steam to Screen* is essential reading for students and researchers working on film studies and British history at the turn of the century and beyond
