Faith And Modernity:

Faith and Modernity Chris Sugden, 1994 The context for Christian mission is the world of modern technology and modern thought Yet how well do we really understand modernity This book sets out the ideas discussed at a conference of the Lausanne Committee on World Evangelisation held in Uppsala Sweden in 1993 Powers of Distinction Nancy Levene, 2017-12-06 The principle of modernity A history of religion Artificial populations The collective Images of truth from Anselm to Badiou The radical enlightenment of Spinoza and Kant Modernity as ground zero Of gods laws rabbis and ends

Religion, Modernity and Postmodernity Paul Heelas, 1998-07-07 Religion Modernity and Postmodernity is the first book to engage the study of religion with contemporary theorizing about culture It addresses important issues such as whether there are postmodern forms of religion whether theories of religion framed in terms of modernity can be recast to suit new or emerging circumstances and how the study of religion can be better integrated with recent developments in the study of culture **The Faith of Modernism** Shailer Mathews, 2012-03-01 **Religion and the Discourse on Modernity**

Paul-François Tremlett, 2011-11-03 The point of departure for this book is the debate about whether religious studies should privilege explanation or understanding Engaging with contemporary scholarship in the field Tremlett argues that the study of religions has always involved the conflation of facts and values and indeed has been structured in advance by the value saturated discourse on disenchanted modernity He argues that phenomenological and post modern approaches to religions lack both theoretical and methodological coherence and in their stead proposes a Marxist approach to religions that is at once empirical and informed by values pertaining to social justice freedom and autonomy **Emerging Evangelicals** James S. Bielo, 2011 The Emerging Church movement developed in the mid 1990s among primarily white urban middle class pastors and laity who were disenchanted with America's conservative Evangelical sub culture It is a response to the increasing divide between conservative Evangelicals and concerned critics who strongly oppose what they consider overly slick corporate and consumerist versions of faith A core feature of their response is a challenge to traditional congregational models often focusing on new church plants and creating networks of related house churches Drawing on three years of ethnographic fieldwork James S Bielo explores the impact of the Emerging Church movement on American Evangelicals He combines ethnographic analysis with discussions of the movement's history discursive contours defining practices cultural logics and contentious interactions with conservative Evangelical critics to rethink the boundaries of Evangelical as a category Ultimately Bielo makes a novel contribution to our understanding of the important changes at work among American Protestants and illuminates how Emerging Evangelicals interact with the cultural conditions of modernity late modernity and visions of postmodern Christianity James S Bielo is Visiting Assistant Professor of Anthropology at Miami University in Oxford OH He is the author of *Words Upon the Word: An Ethnography of Evangelical Group Bible Study* NYU Press and editor of *The Social Life of Scriptures: Cross cultural Perspectives on Biblicalism* **The Dilemma of Faith in Modern Japanese**

Literature Massimiliano Tomasi, 2018-04-19 The first book length study to explore the links between Christianity and modern Japanese literature this book analyses the process of conversion of nine canonical authors unveiling the influence that Christianity had on their self construction their oeuvre and ultimately the trajectory of modern Japanese literature Building significantly on previous research which has treated the intersections of Christianity with the Japanese literary world in only a cursory fashion this book emphasizes the need to make a clear distinction between the different roles played by Catholicism and Protestantism In particular it argues that most Meiji and Taisho intellectuals were exposed to an exclusively Protestant and mainly Calvinist derivation of Christianity and so it is against this worldview that the connections between the two ought to be assessed Examining the work of authors such as Kitamura Tokuo Akutagawa Ryunosuke and Nagayo Yoshir this book also contextualises the spread of Christianity in Japan and challenges the notion that Christian thought was in conflict with mainstream literary schools As such this book explains how the dualities experienced by many modern writers were in fact the manifestation of manifold developments which placed Christianity at the center rather than at the periphery of their process of self construction The Dilemma of Faith in Modern Japanese Literature will be of great interest to students and scholars of Japanese modern literature as well as those interested in Religious Studies and Japanese Studies more generally

Abiding Grace Mark C. Taylor, 2018-10-02 Post war post industrialism post religion post truth post biological post human post modern What succeeds the post age Mark C Taylor returns here to some of his central philosophical preoccupations and asks What comes after the end Abiding Grace navigates the competing Hegelian and Kierkegaardian trajectories born out of the Reformation and finds Taylor arguing from spaces in between showing how both narratives have shaped recent philosophy and culture For Hegel Luther's internalization of faith anticipated the modern principle of autonomy which reached its fullest expression in speculative philosophy The closure of the Hegelian system still endures in the twenty first century in consumer society financial capitalism and virtual culture For Kierkegaard by contrast Luther's God remains radically transcendent while finite human beings and their world remain fully dependent From this insight Heidegger and Derrida developed an alternative view of time in which a radically open future breaks into the present to transform the past demonstrating that far from autonomous life is a gift from an Other that can never be known Offering an alternative genealogy of deconstruction that traces its pedigree back to readings of Paul by way of Luther Abiding Grace presents a thoroughgoing critique of modernity and postmodernity's will to power and mastery In this new philosophical and theological vision history is not over and the future remains endlessly open

Faith Challenges Culture Paul O'Callaghan, 2021 Provides a description of the way modern culture challenges Christian faith and theology showing that since modern faith is to an important extent the result of Christian reflection on the world and the human condition faith is likewise meant to challenge and renew culture

Meaning and Modernity Richard Madsen, 2001-12-04 This interesting volume of essays on contemporary religion and its ambivalent relationship to modernity not only serves as a testimony to the

intellectual influence of Robert Bellah it establishes a new school of comparative religious and social thought This Bellahian school at the intersection of sociological theological and contemporary philosophical thinking has roots in Durkheim and Weber borrows insights from Marx Foucault and Bourdieu and finds its clearest voice in the writings of Bellah himself The essays by some of Bellah s colleagues and former students that have been gathered in this volume address some of the most sagacious of these Bellahian themes the religious dimension of contemporary civil societies the relationship between religious and capitalist values the cultural critique of modernity and the moral visions that hold a promise of civic renewal Mark Juergensmeyer author of *Terror in the Mind of God The Global Rise of Religious Violence* California 2000 This highly readable collection of original thought provoking essays by leading scholars provides fresh insights into the issues that Robert Bellah has addressed so fruitfully in his long career Readers will learn much about such issues as how Calvinism contributed to political revolution why democracies require an enlarged sense of political community how the religious foundations of Japan and the United States differ and what it means to be a Christian and an American Benton Johnson coauthor of *Vanishing Boundaries The Religion of Protestant Baby Boomers* 1994 and author of *Functionalism in Modern Sociology Understanding* Talcott Parsons 1975

Religious Responses to Modernity Yohanan Friedmann, Christoph Marksches, 2021-02-22 The dawn of the modern age posed challenges to all of the world s religions and since then religions have countered with challenges to modernity In *Religious Responses to Modernity* seven leading scholars from Germany and Israel explore specific instances of the face off between religious thought and modernity in Christianity Judaism and Islam As co editor Christoph Marksches remarks in his Foreword it may seem almost trivial to say that different religions and the various currents within them have reacted in very different ways to the multiple modernities described by S N Eisenstadt However things become more interesting when the comparative perspective leads us to discover surprising similarities Disparate encounters are connected by their transnational or national perspectives with the one side criticizing in the interest of rationality as a model of authorization and the other presenting revelation as a critique of a depraved form of rationality The thoughtful essays presented herein by Simon Gerber Johannes Zachhuber Jonathan Garb Rivka Feldhay Paul Mendes Flohr Israel Gershoni and Christoph Schmidt provide a counterweight to the popularity of some all too simplified models of modernization

Modernity and Religion William Nicholls, 1987 It would be possible to argue writes William Nicholls that the pivotal subject of debate among theologians for the past two hundred years has been the relationship between modernity and the Christian tradition What is modernity a philosophical outlook or a set of ideas What is modernization a social process Is modernity the same as secularity as many theologians and sociologists in the West believe Is the impact of modernity weakening religious traditions Are the responses of non Western religious traditions to modernity similar to Western ones or are they distinctive indigenous adaptations to the same world wide development These are the kinds of concerns the interdisciplinary group of scholars addresses in this volume Contributors include Moshe Amon Utopias

and Counter Utopias Alan Davies The Rise of Racism in the Nineteenth Century Symptom of Modernity Robert Ellwood Jr Modern Religion as Folk Religion Irving Hexham Modernity or Reaction in South Africa The Case of Afrikaner Religion Shotaro Iida Japanese New Religions Shelia McDonough modernity in Islamic Perspective William Nicholls Immanent Transcendence Spirituality in a Scientific and Critical Age K Dad Prithipaul Modernity and Religious Studies Tom Sinclair Faulkner Caution Moralists at Work Huston Smith Can Modernity Accommodate Transcendence and John Wilson Modernity and Religion A Problem of Perspective **The Theological Origins of Modernity** Michael Allen Gillespie, 2010-10-21 Taking as his starting point the collapse of the medieval world Gillespie argues that from the very beginning moderns sought not to eliminate religion but to support a new view of religion and its place in human life and that they did so not out of hostility but in order to sustain certain religious beliefs He goes on to explore the ideas of such figures as William of Ockham Petrarch Erasmus Luther Descartes and Hobbes showing that modernity is best understood as the result of a series of attempts to formulate a new and coherent metaphysics or theology *The Many Altars of Modernity* Peter L. Berger, 2014-09-11 This book is the summation of many decades of work by Peter L Berger an internationally renowned sociologist of religion Secularization theory which saw modernity as leading to a decline of religion has been empirically falsified It should be replaced by a nuanced theory of pluralism In this new book Berger outlines the possible foundations for such a theory addressing a wide range of issues spanning individual faith interreligious societies and the political order He proposes a conversation around a new paradigm for religion and pluralism in an age of multiple modernities The book also includes responses from three eminent scholars of religion Nancy Ammerman Detlef Pollack and Fenggang Yang [The Role of Religion in Modern Societies](#) Detlef Pollack, Daniel V. A. Olson, 2008 Presenting a thorough understanding of the many ways in which religion interacts with modernization and its debates respected scholars such as David Voas Steve Bruce and Anthony Gill examine modern societies across the world in this splendid book **Modernity and Transcendence** Dr Eng Anthony Carroll, Staf Hellemans, 2021-10-06 David Martin's last great contribution or at least one of his last great contributions on religion before his passing away in 2019 Charles Taylor's marvelous synthesis of his work on religion and modernity in the last 25 years in 10 000 words The further elaboration and extension of Taylor's idea of a Catholic modernity into a perspective involving all the great religious traditions **After Modernity?** James K. A. Smith, 2008 After Modernity addresses a cluster of questions and issues found at the nexus of globalization and religion This unique volume examines various religious especially Christian evaluations of and responses to globalization In particular the book considers the links among globalization capitalism and secularization and the ways in which religion is or can be deployed to address a range of hot button topics With cross disciplinary analyses the collection argues consistently for the necessity of a post secular evaluation of globalization that unapologetically draws on the resources of Christian faith The conservative radicalism represented in these contributions will resonate with a broad audience of scholars and citizens who seek to put faith into

action **Modern Egyptian Women, Fashion and Faith** Amany Abdelrazek-Alsiefy, 2023-11-03 This book discusses Egyptian Muslim women's dress as the social political and ideological signifier of the changing attitudes towards Western modernity. It employs women's clothing styles as a feminist act that provides rich insights into the power and limits of legal regulations and hegemonic discourses in constructing gendered and cultural borders in the modern Egyptian public sphere. Furthermore, through highlighting marginalized but significant models and historical moments of cultural exchange between Muslim and Western cultures through female dress, the book tells a third story beyond the binary model of an assumed modest oppressed traditional Muslim woman vis-à-vis consumer emancipated modern Western woman in mainstream Western discourse and literary representation.

Solidarity with the World Carolyn A. Chau, 2016-11-15 Is Christian mission even possible today? In a secular age, is it possible to talk about the goodness of God in a compelling way? How should the church proceed? Carolyn Chau explores the question of Catholic mission in a secular age through a constructive interpretation of the work of two celebrated Catholic thinkers: philosopher Charles Taylor and theologian Hans Urs von Balthasar, arguing that Taylor and Balthasar together offer a promising path for mission today. Chau attends to Taylor's account of the conditions of belief today and the genesis of the sociohistorical limits on contemporary God talk, as well as his affirmation of certain aspects of Western modernity's culture. From Balthasar, Chau sifts out the distinctiveness of his view of the human person as defined by mission and his encouragement of a kenotic self-understanding of the church. In the end, Chau claims that if modern persons in secular Western societies are seeking fulfillment and integrity, Christian spirituality remains a rich resource on offer.

In Pursuit of Godliness and a Living Judaism Edward M. Feinstein, 2020-02-04 This is a loving, sophisticated, illuminating, outstanding depiction of a brilliant intellectual, spiritual, moral leader who deserves just such a treatment. This book will serve as testimony and inspiration for the new generation: a tour de force articulation of a truly great life. Rabbi Irving Yitz Greenberg: A comprehensive biography about the life and work of Rabbi Harold Schulweis, who was essential in the renewal of Jewish life in post-war America. Harold Schulweis was a dominant figure in the renewal of Jewish life in the post-war generation of American Jewry. Widely regarded as the most successful and influential pulpit rabbi of his generation, he shaped an extraordinary career as pulpit rabbi, theologian, public intellectual, and communal leader. His innovations in synagogue practice reshaped congregations across the continent, introducing synagogue-based havurot, para-rabbinics, and para-professional counseling programs; outreach to alienated Jews and unchurched Christians; opening the traditional synagogue to gay and lesbian Jews and their families; and welcoming families of children with special needs. With Leonard Fein, Schulweis founded Mazon, the Jewish communal response to hunger. He launched The Foundation for the Righteous, recognizing Christians who rescued Jews during the Holocaust, an effort chronicled on the CBS news program 60 Minutes. In the closing years of his career, he initiated the Jewish World Watch, a communal response to the incidence of genocide worldwide.
