Fountain,2014-05-30 When Dan Fountain and his wife arrived in the Congo in 1961 the challenges to effective medical missions seemed overwhelming As the only doctor for a quarter of a million residents of the Vanga Health Zone and with nothing but a dilapidated mission hospital and an undertrained staff to run it Dr Fountain turned to prayer innovation and local partnerships to meet the vast needs of his area Health for All tells the story of an ever increasing vision from curative care to community health from a barely functioning hospital to a network of successful health services from a lack of qualified workers to a local residency training program from biomedical reductionism to whole person care from cultural stalemate to worldview transformation Dr Fountain s insights into health and wholeness have changed countless lives and communities Part memoir part history part textbook Health for All is the legacy of a man who patterned his life and labor after that of the Great Physician **Prayer, Faith & Healing** Kenneth Winston Caine,Brian Paul Kaufman,2000-05-19 Tap the power of prayer and faith to heal whatever ails you Prayer and faith can be potent cures for a whole host of emotional and physical problems Hundreds of scientific studies prove it But how do you access this hidden strength Prayer Faith and Healing will show you how with Advice from more than 160 of America s top religious leaders counselors doctors and scientists More than 500 tips for handling anger addiction depression divorce grief stress infidelity financial problems and over 40 other conditions Plus nearly 30 ways to build a more meaningful prayer life The most complete most compelling advice ever gathered on how to heal yourself with prayer Process Theology and Healing Bruce G. Epperly,2023-12-05 Religious and spiritual healing practices are often seen as a show in which a healer claims to physically cure someone through actions or words These healings mostly fail In this booklet the third of three that integrate process theology with contemporary spiritual life and activity Bruce Epperly presents a very different view of healing He calls for a healing ministry but one that finds God in all things and uses scientific medicine healing ritual practices and prayer in concert sometimes for spiritual healing but also for a way to live out the challenge of illness to face death with dignity and yes sometimes for a cure that appears miraculous He applies these healing practices not just to human beings but to all life and to the planet we live on Healing is not the province of a few calling on supernatural forces Rather it is a cooperation with the energies God has placed in the universe Rather than supernatural it is more natural than anything Epperly is a specialist in bringing difficult concepts to life for everyone He combines that skill with the short format of the Topical Line Drives series to present a call for all of us to be healed and to become healers as part of God s call to life and light This book may well be the call you need to hear to find wholeness Shalom in your life and your relationships to others and this world Faith Reads David Rainey,2008-07-30 At last a resource for librarians who wish to build or develop their nonfiction collection and use it to

An Issue of Relevance Grant LeMarquand, 2004 As the center of the Christian world has migrated south especially into Sub Saharan Africa a growing and dynamic African biblical scholarship has emerged Prominent among the texts that have grabbed the interest of African biblical scholars is the gospel story of the woman with the flow of blood Mark 5 25 34 Matthew 9 20 22 Luke 8 43 48 This book compares traditional North Atlantic scholarship on this gospel story with the new insights of African biblical studies in order to test the contention that these two versions of biblical scholarship are substantially different In particular this book argues that scholarships in the North Atlantic and African worlds differ in their conceptions of the goal of exegesis For African scholars practical hermeneutical concerns are considered central to the exegetical task

Holistic Spirituality Bruce G. Epperly, 2014-02-17 The book of James has gotten a bad rap amongst Christians especially modern protestants It s often considered not as theologically serious as the writings of Paul nor as gracious as the gospels For some it s too works oriented for others just a bit obscure Some have even questioned whether it is truly a Christian book Let s face it You re much more likely to see a seminary course on Romans or Galatians than on James or to hear a sermon for that matter Bruce Epperly doesn t agree with that perspective Not only does he think James has something important to say about the way we live as 21st century Christians just as it did for 1st century Christians but he also doesn t think James is in opposition to Paul He suspects the two apostles would have had no difficulty with each other s theology In this third volume of the Topical Line Drives series he aims to direct readers to the important message of this little book for contemporary Christians He provides a fresh orientation and focus to understanding the message Once you ve read his thoughts you ll likely never read James in the same way again Certainly you won t dismiss it
