Faithful Soldiers:

Faithful Fighters Kate Imy, 2019-12-10 During the first four decades of the twentieth century the British Indian Army possessed an illusion of racial and religious inclusivity The army recruited diverse soldiers known as the Martial Races including British Christians Hindustani Muslims Punjabi Sikhs Hindu Rajputs Pathans from northwestern India and Gurkhas from Nepal As anti colonial activism intensified military officials incorporated some soldiers religious traditions into the army to keep them disciplined and loyal They facilitated acts such as the fast of Ramadan for Muslim soldiers and allowed religious swords among Sikhs to recruit men from communities where anti colonial sentiment grew stronger Consequently Indian nationalists and anti colonial activists charged the army with fomenting racial and religious divisions In **Faithful Fighters** Kate Imy explores how military culture created unintended dialogues between soldiers and civilians including Hindu nationalists Sikh revivalists and pan Islamic activists By the 1920s and 30s the army constructed military schools and academies to isolate soldiers from anti colonial activism While this carefully managed military segregation crumbled under the pressure of the Second World War Imy argues that the army militarized racial and religious difference creating lasting legacies for the violent partition and independence of India and the endemic warfare and violence of the post colonial world
