Liberation Ethics Sources Models And Norms:

Liberation Ethics Thomas Louis Schubeck, 1993-01-01 Thoroughly researched critically reasoned and well written Schubeck's book is a model of caring and careful discernment Arthur McGovern University of Detroit *Health as Liberation* Alastair V. Campbell, 2005-07-22 Deftly quilting themes of Latin American and feminist liberation theologies with those of philosophers such as Immanuel Kant and John Rawls Alastair V Campbell displays our rich interconnectedness and our moral responsibilities to one another Suggesting that many American citizens are oppressed by our current health care system he contends that prior to questions of health care allocation are questions of what we mean as a society by the term health and how that term is inextricably linked to personal and social freedom and liberation In the forceful final chapter of the book Campbell articulates ethical standards for just health care delivery in the United States standards that above all take account of deep religious faith and concern for one's neighbor *Health as Liberation* is a critical analysis of justice and modern health care and of a society's moral obligations to its citizens *Biblical Ethics in the 21st Century: Developments, Emerging Consensus, and Future Directions* Lúcas Chan, SJ; foreword by James F. Keenan, SJ, 2013 Reviews and critiques the major attempts at biblical ethics over the past twenty years by both biblical theologians and theological ethicists focusing on New Testament ethics as an illustration **Liberation through Reconciliation** O. Ernesto Valiente, 2015-12-01 In the past one hundred years alone more than 200 million people have been killed as a consequence of systematic repression political revolutions or ethnic or religious war The legacy of such violence lingers long after the immediate conflict Drawing on the author's experiences of his native El Salvador *Liberation through Reconciliation* builds on Jon Sobrino's thought to construct a Christian spirituality and theology of reconciliation that overcomes conflict by attending to the demands of truth justice and forgiveness Dictionary of Scripture and Ethics, 2011-11-01 This one stop reference book on the vital relationship between Scripture and ethics offers needed orientation and perspective for students pastors and scholars Written to respond to the movement among biblical scholars and ethicists to recover the Bible for moral formation it is the best reference work available on the intersection of these two fields The volume shows how Christian Scripture and Christian ethics are necessarily intertwined and offers up to date treatment of five hundred biblical traditional and contemporary topics ranging from adultery bioethics and Colossians to vegetarianism work and Zephaniah The stellar ecumenical list of contributors consists of more than two hundred leading scholars from the fields of biblical studies and ethics including Darrell Bock David Gushee Amy Laura Hall Daniel Harrington Dennis Olson Christine Pohl Glen Stassen and Max Stackhouse **The Costa Rican Catholic Church, Social Justice, and the Rights of Workers, 1979-1996** Dana Sawchuk, 2006-01-01 Provides a new understanding of the relationship between Church and State in 20th century Costa Rica Understanding the relationship between religion and social justice in Costa Rica involves piecing together the complex interrelationships between Church and State between priests popes politics and the people This book does just that Dana Sawchuk chronicles the fortunes of the

country's two competing forms of labour organizations during the 1980s and demonstrates how different factions within the Church came to support either the union movement or Costa Rica's home grown Solidarity movement. Challenging the conventional understanding of Costa Rica as a wholly peaceful and prosperous nation and traditional interpretations of Catholic Social Teaching, this book introduces readers to a Church largely unknown outside Costa Rica. Sawchuk has carefully analyzed material from a multitude of sources: interviews, newspapers, books, and articles, as well as official Church documents, editorials, and statements by Church representatives to provide a firmly rooted socio-economic history of the experiences of workers and the Catholic Church's responses to workers in Costa Rica. **Journey for Justice** Nandini

Gunewardena, 2017-06-02 This biography of the late Rev Fr Michael Rodrigo OMI 1930-1987 of Sri Lanka chronicles a life fearlessly devoted to the service of the poor, efforts to witness Christ to the poor through an innovative interfaith dialogue, and a collaboration for their social and economic empowerment. As a Catholic priest whose life parallels that of the recently martyred Oscar Romero of El Salvador, also assassinated for exposing the exploitation and marginalization of the poor, Fr Michael was engaged in a selfless journey for justice. The volume analyzes the driving force of his quest to forge a healing bridge between the Christian and Buddhist populations of Sri Lanka through his spiritual grounding in Catholic social teaching and his unique formulation of an interreligious dialogue. It documents the indelible imprint of interfaith understanding he forged up to his untimely death. Interwoven with ethnographic methodology, the book offers a window for understanding the class and religious ruptures stemming from Sri Lanka's colonial history, contextualized in the social realities of poverty in rural Sri Lanka, the political and economic forces implicated in deepening poverty, the resistance struggle by oppressed youth, and Fr Mike's legacy of justice through peace. Religion and Economics: Normative Social

Theory J.M. Dean, A. M. C. Waterman, 2012-12-06 Normative Social Theory James M Dean and A M C Waterman University of Manitoba 1 Economics and Religion Once Again This book is a sequel to Economics and Religion: Are They Distinct? Brennan and Waterman 1994. That volume was motivated by a frustration born of many disappointing encounters between economists and theologians in the 1980s. Can bishops, synods, and other voices of organized religion bring any interesting and disinterested contribution to the public policy debate? If so, what is the relation of their contribution to that of the purely secular knowledge economists believe they can supply? Can economists bring any interesting and disinterested contribution to the public policy debate? If so, what is the relation of their contribution to the fundamental values that inform social ethics and that are still guarded to a large extent by religious tradition? All too often the two sides talked at cross purposes. Well intentioned economists coexisted for a few hours or days with well intentioned theologians whose manner of conceiving social reality was radically incompatible with their own. There seemed to be no common ground. The first requisite of any genuine conversation is an agreed conceptual framework that is able to accommodate the peculiar social vision both of the economist and of the theologian and to display the logical relation between the two. *SCM Studyguide: Christian Ethics*

Farr, 2008 This volume on Christianity and Cultures is a way of marking an important milestone in the relatively short story of the Oxford Centre for Mission Studies OCMS The papers here have been exclusively sourced from Transformation a quarterly journal of OCMS and seek to provide a tripartite view of Christianity's engagement with cultures by focusing on the question how is Christian thinking forming or reforming through its interaction with the varied contexts it encounters As Christianity has taken and still takes shape in multiple contexts it naturally results in a variety of expressions and emphases One can gain an appreciation of these by studying different strands of theological missiological thinking socio political engagements and forms of family relationships in interaction with the host cultures BOOK JACKET

The Ubuntu God Samuel A. Paul, 2009-01-01 In 1948 the Afrikaner Nationalist Government became the ruling party in South Africa and instituted the brutal system known as apartheid To maintain their power Afrikaners drew on Christian scripture and traditions to create self justifying religious narratives that supported their oppressive ideologies prohibiting inclusion and suppressing pluralism In time these Afrikaner Christian narratives began to unravel as counter narratives within the Christian tradition influenced the Black church to demand equality and democracy This socio political and cultural transformation is best understood and interpreted through the vision of ubuntu a mode of thought in African culture that places a value on humanity in community and shifts the focus from singularity to plurality in South African society In The Ubuntu God Samuel A Paul traces how the dismantling of apartheid led to recognition of the religious other the recovery of alternate narratives and the reappearance of ubuntu perspective and practice in the political and public sphere After the peaceful transition to a democratically elected government the Truth and Reconciliation Commission created a platform for multiple voices stories and religious narratives to be shared in a public political context This multiplicity of voices resulted

ultimately in the formation of a new constitution for South Africa that sought to uphold African values of community and inclusion in its institutions While South Africa's apartheid system and the Truth and Reconciliation Commission are both rooted in the biblical narrative the former used its theology to enforce an iron rule while the latter combined Christian and African concepts to create a pluralistic and open society Such a society is characterized by a culture that emphasizes communality and interdependence

Catholic Activism Today Maureen K. Day, 2020-06-09 Uncovers why Catholic organizations fail to foster civic activism The American Catholic Church boasts a long history of teaching and activism on issues of social justice In the face of declining religious and community involvement in the twenty first century many modern day Catholic groups aspire to revive the faith as well as their connections to the larger world Yet while thousands attend weekly meetings designed to instill religiosity and a commitment to civic engagement these programs often fail to achieve their more large scale goals In *Catholic Activism Today* Maureen K Day sheds light on the impediments to successfully enacting social change She argues that popular organizations such as JustFaith Ministries have embraced an approach to civic engagement that focuses on mobilizing Catholics as individuals rather than as collectives There is reason to think this approach is effective these organizations experience robust participation in their programs and garner reports of having had a transformative effect on their participants' lives Yet Day shows that this approach encourages participants to make personal lifestyle changes rather than contend with structural social inequalities thus failing to make real inroads in the pursuit of social justice Moreover the focus on the individual serves to undermine the institutional authority of the Catholic Church itself shifting American Catholics' perceptions of the Church from a hierarchy that controls the laity to one that simply influences it as they pursue their individual paths Drawing on three years of interview survey and participant observation data *Catholic Activism Today* offers a compelling new take on contemporary dynamics of Catholic civic engagement and its potential effect on the Church at large

Dharma Jijoy Mathew, 2025-07-27 This book responds to a critical gap in contemporary scholarship by revisiting dharma beyond the constraints of colonial and Indian nationalist reinterpretations The book offers a postcolonial intercultural and glocal re-reading of dharma emphasizing its multifaceted nature as it intersects with both global and local realities By challenging the conflation of dharma with the Western category of religion it reintroduces dharma as a concept that transcends religious boundaries deeply relevant not only within Hinduism but also across various cultural and spiritual practices worldwide Going beyond global interest in Indian traditions like yoga, ayurveda and mindfulness each drawing on the ethical and spiritual dimensions of dharma this book provides a nuanced framework for understanding dharma in the contemporary world It invites readers to reconsider the traditional and modern implications of dharma recovering its richness as a guiding principle for personal, social and global well-being This book is an essential resource for scholars and students in religious studies, postcolonial studies, South Asian philosophy and anyone interested in a deeper understanding of the transformative nature of dharma in a globalized world

Feminist Ethics and Natural Law

Cristina L. H. Traina, 1999-04-28 Heated debates over such issues as abortion contraception ordination and Church hierarchy suggest that feminist and natural law ethics are diametrically opposed Cristina L H Traina now reexamines both Roman Catholic natural law tradition and Anglo American feminist ethics and reconciles the two positions by showing how some of their aims and assumptions complement one another After carefully scrutinizing Aquinas's moral theology she analyzes trends in both contemporary feminist ethics theological as well as secular and twentieth century Roman Catholic moral theology Although feminist ethics reject many of the methods and conclusions of the scholastic and revisionist natural law schools Traina shows that a truly Thomistic natural law ethic nonetheless provides a much needed holistic foundation for contemporary feminist ethics On the other hand she offers new perspectives on the writings of Josef Fuchs Richard McCormick and Gustavo Gutierrez arguing that their failure to catch the full spirit of Thomas's moral vision is due to inadequate attention to feminist critical methods This highly original book proposes an innovative union of two supposedly antagonistic schools of thought a new feminist natural law that would yield more comprehensive moral analysis than either existing tradition alone This is a provocative book not only for students of moral theology but also for feminists who may object to the very notion of natural law ethics suggesting how each might find insight in an unlikely place **Martin Luther King in the African American Preaching Tradition** Valentino Lassiter, 2010-06-01 Valentino Lassiter has cast spiritual breads upon the waters with this compelling comparison of the historic tradition of African American preaching and the overwhelming spiritual preaching of Martin Luther King Jr Martin Luther King in the African American Preaching Tradition details preaching by slave preachers to present day preachers More importantly it shows how King's sermon content was cut from the same loaf as those preachers who preached justice and God's assurance in the 1600s Lassiter has written a book that will be an important resource for pastors seminarians and those who are interested in the never ending fascination with dynamic African American preaching *Freedom and Existence* Matthew Aaron Tennant, 2023-08-07 Is theology a dead corpse or living organism For Uruguayan Jesuit Juan Luis Segundo 1925-1996 theology is dynamic Freedom and existence for central themes Segundo believed that theology should be transformative in human lives For a theology to be transformative there must be a connection to existence That is it must be existential Yet most scholars have overlooked this assumption in critical analyses of liberation theology This prima facie connection to existence is distinguishable from existentialism as a school of philosophy By showing the significant existential dimension to Segundo's theology assessing his work and contribution to twentieth century theology relates to freedom ecumenism the role of faith in society and the relationship between faith and ideologies *Scripture and Ethics* Jeffrey S. Siker, 1997 Siker brings together the history of biblical interpretation and the study of uses of the Bible in Christian ethics to examine how the Bible has actually been used in Christian theological ethics and in the process profiling eight influential twentieth century theologians **African Women's Liberating Philosophies, Theologies, and Ethics** Beatrice Okyere-Manu, Léocadie Lushombo, 2024-05-02 This volume

explores the ethical and philosophical paradigms presented by most of the influential Matriarchs of the Circle of African Women Theologians It critically evaluates the effectiveness of their ethical and philosophical theories models and frameworks in pursuing justice and liberation for women in Africa and globally The authors address critical questions How have African women theologians reimagined existing ethical paradigms What original ethical and philosophical ideas have they generated How have their ethical frameworks influenced the theologies and interpretations they have developed What purposes do their ethical and philosophical paradigms serve How do these renderings intersect with various social categories including gender race class sexuality capitalism and colonialism What liberating frameworks do they propose The volume further explores the dialogue between distinct African contexts and universal experiences and values It explores how universal themes such as humanity human dignity rights justice motherhood and more can coexist with communal African concepts and themes It contemplates how embracing African approaches engages these themes more globally bringing together particular African contexts of women and the universal ethical philosophical and theological theories models and frameworks to advance the cause of justice and liberation for African women and women worldwide into the future
