came to replace the librarian as moral censor This shift in ideology is traced against a backdrop of major social and literary  
changes Within this context censorship is treated as part of a broader professional ideology of book selection Geller treats  
that ideology in terms of three constant dilemmas of choice populism vs elitism neutrality vs advocacy and freedom vs  
censorship By exploring the ways in which librarians as public servants have defined their selection policies in terms of the  
public interest she sheds new light on the complex historical background and shifting social values that underlie
