hundred years or so of their history public libraries in Britain were built in an array of revivalist architectural styles This

In this new Routledge book Alistair Black argues that the architectural modernism of the post war years was symptomatic of
the age s spirit of renewal In the 1960s public libraries truly became libraries of light and Black further explains how this
phrase not only describes the shining new library designs with their open plan decluttered Scandinavian inspired designs but
also serves as a metaphor for the public library s role as a beacon of social egalitarianism and cultural universalism A sequel
