Rising Robert Dallek,1991-08-15 Like other great figures of 20th century American politics Lyndon Johnson defies easy
understanding An unrivaled master of vote swapping back room deals and election day skulduggery he was nevertheless an
outspoken New Dealer with a genuine commitment to the poor and the underprivileged With aides and colleagues he could
be overbearing crude and vindictive but at other times shy sophisticated and magnanimous Perhaps columnist Russell Baker
said it best Johnson was a character out of a Russian novel a storm of warring human instincts sinner and saint buffoon and
statesman cynic and sentimentalist But Johnson was also a representative figure His career speaks volumes about American
politics foreign policy and business in the forty years after 1930 As Charles de Gaulle said when he came to JFK s funeral
Kennedy was America s mask but this man Johnson is the country s real face In *Lone Star Rising* Robert Dallek winner of the
prestigious Bancroft Prize for his study of Franklin D Roosevelt now turns to this fascinating sinner and saint to offer a
brilliant definitive portrait of a great American politician Based on seven years of research in over 450 manuscript collections
and oral histories as well as numerous personal interviews this first book in a two volume biography follows Johnson s life
from his childhood on the banks of the Pedernales to his election as vice president under Kennedy We see Johnson the twenty
three year old aide to a pampered millionaire Representative become a de facto Congressman and at age twenty eight the
country s best state director of the National Youth Administration We see Johnson the human dynamo first in the House and
then in the Senate whirl his way through sixteen and eighteen hour days talking urging demanding reaching for influence
and power in an uncommonly successful congressional career Dallek pays full due to Johnson s failings his obsession with
being top dog his willingness to cut corners and worse to get there but he also illuminates Johnson s sheer brilliance as a
politician the high regard in which key members of the New Deal including FDR held him and his genuine concern for
minorities and the downtrodden No president in American history is currently less admired than Lyndon Johnson Bitter

memories of Vietnam have sent Johnson's reputation into free fall and recent biographies have painted him as a scoundrel who did more harm than good Lone Star Rising attempts to strike a balance It does not neglect the tawdry side of Johnson's political career including much that is revealed for the first time But it also reminds us that Lyndon Johnson was a man of exceptional vision who from early in his career worked to bring the South into the mainstream of American economic and political life to give the disadvantaged a decent chance and to end racial segregation for the well being of the nation
