The Age of Reasons Ted Greenwald,2016-04-05 This collection of Ted Greenwald s poetry edited by Miles Champion is a sampler of some of Greenwald s most breathtaking work A New York poet with close ties to the New York School and the Language poets Greenwald has written daily since the early 1960s and none of the poems in this book are included in any of his books to date These discrete works were written in advance of or alongside the extended explorations of a mutated triolet form that increasingly occupied him from the late 1970s on This book can be seen as a companion to *Common Sense* and provides further evidence of Greenwald s ability to think with his ear to hear what s said as it arrives as a fresh sound or shape in his head This work is singular in its pattern making its music making and its ability to simultaneously follow multiple paths An online reader s companion will be available at tedgreenwald site wesleyan edu
