

A woman in a red swimsuit stands in the ocean at the base of a massive waterfall, surrounded by lush greenery. The scene is vibrant and adventurous, with the woman positioned centrally in the lower half of the frame, looking up at the cascading water. The waterfall itself is a powerful, white, frothy column of water falling from a dark, forested cliff. The surrounding environment is filled with dense, green foliage, creating a sense of being deep in a tropical jungle. The overall mood is one of awe and the thrill of nature.

The Manual of Astrology, the Standard Work Sepharial, 2010-09 First published in 1898 this is a very different astrology book from what we have now There are extensive delineations for the signs of the zodiac especially when found on the ascendant There are delineations of planets in signs when they are in the first house or are the chart ruler in both cases describing the physical appearance There are delineations of planets in the various houses which will also serve for the planetary rulerships of the houses There are only sketchy notes on aspects So far as the pure astrology of planets in signs in houses in aspect there is almost nothing at all The reason is found in the second part of the book We are not reading the chart as a psychological abstraction We are instead looking for specific traits attempting to answer specific questions Will we have a profession What kind of marriage What kind of children Will we vanquish our enemies or submit to them What kind of illness We then find the house s of the horoscope which rule the question and then delineate the signs planets we find there These are by the way the sort of questions that clients would ask if they only knew we could give answers The sort of things that astrologers themselves want to know In the process we learn how to read a chart get real meaning from it We get ideas from one section and then apply them to other sections There are hundreds and hundreds of useful aphorisms except that Sepharial doesn t label them as such Get this book study it underline key passages scribble in the margins You will learn more from this book than most all others put together
