Life in Christ William Robert West,2015-09-29 What do you believe about souls There are many very different doctrines taught in the world today concerning souls that are believed to be in all humans By most a soul is believed to be something that is wholly apart from the person a soul is in that a soul is something that is that is believed to be complete in its self without the person it will live after the person it is in is dead it is believed that a soul will exist forever without the person it will never be dead therefore a soul cannot be resurrected from the dead It is believed that a soul must live someplace forever and it will live either in Heaven or Hell even if there is no resurrection The doctrine of unconditional immortality of a deathless soul being in a person and that soul leaving that person at the death of the person makes it impossible for Christ to have give His life to save that soul from death if a soul had immortality it would already have life and could never not have life all Christ could do is give it a reward or punish it **Psychology of Death and Dying** John C. Morgan,Richard L.

Morgan,2006-04-01 Sooner or later each one of us faces death our own or others we care about And yet few take time beforehand to think about these endings and in the process may lose the wisdom of the ages that comes after facing death Perhaps this explains why when Plato was asked to summarize his philosophy he reportedly said Practice dying He understood that dying is what each one of us does throughout our lives whether it is leaving home the first time to go to school or departing from this planet when our lives end If we learn how to die to let go and get our egos out of the way we will have gained wisdom about how best to live This brief yet comprehensive book deals not only with the philosophical and psychological meaning of death but its practical implications for our lives Written by two brothers who have taught philosophy ethics psychology and religion at community colleges and four year private colleges this book can be used in many learning situations whether part of courses in philosophy ethics psychology or counseling or for short term workshops or continuing education courses for students in human services health care social work or any of the helping professions

Visitors at the End of Life Allan Kellehear,2020-07-28 About 30 percent of hospice patients report a visitation by someone who is not there a phenomenon known in end of life care as a deathbed vision These visions can be of dead friends or family

members and occur on average three days before death Strikingly individuals from wildly diverse geographic regions and religions from New York to Japan to Moldova to Papua New Guinea report similar visions Appearances of our dead during serious illness crises or bereavement are as old as the historical record But in recent years we have tended to explain them in either the fantastical terms of the supernatural or the reductive terms of neuroscience This book is about how when and why our dead visit us Allan Kellehear a medical sociologist and expert on death dying and palliative care has gathered data and conducted studies on these experiences across cultures He also draws on the long neglected work of early anthropologists who developed cultural explanations about why the dead visit Deathbed visions conform to the rituals that underpin basic social relations and expectations customs of greeting support exchange gift giving and vigils because the dead must communicate with us in a social language that we recognize Kellehear emphasizes the personal consequences for those who encounter these visions revealing their significance for how the dying person makes meaning of their experiences Providing vital understanding of a widespread yet mysterious phenomenon Visitors at the End of Life offers insights for palliative care professionals researchers and the bereaved **New York Life Insurance Company V. Kassly ,1936** **Life in the Face of Death** Richard N. Longenecker,1998 This volume written by eleven first class scholars brings into focus the Resurrection message of the New Testament Much more than just biblical exposition these essays demonstrate how the resurrection both provides the basis for joyful living now despite the shadow of death and undergirds the Christian belief in a future after death

**Encyclopedia of Death and Dying** Glennys Howarth,Oliver Leaman,2003-12-16 In recent years there has been a massive upsurge in academic professional and lay interest in mortality This is reflected in academic and professional literature in the popular media and in the proliferation of professional roles and training courses associated with aspects of death and dying Until now the majority of reference material on death and dying has been designed for particular disciplinary audiences and has addressed only specific academic or professional concerns There has been an urgent need for an authoritative but accessible reference work reflecting the multidisciplinary nature of the field This Encyclopedia answers that need The Encyclopedia of Death and Dying consolidates and contextualizes the disparate research that has been carried out to date The phenomena of death and dying and its related concepts are explored and explained in depth from the approaches of varied disciplines and related professions in the arts social sciences humanities medicine and the sciences In addition to scholars and students in the field from anthropologists and sociologists to art and social historians the Encyclopedia will be of interest to other professionals and practitioners whose work brings them into contact with dying dead and bereaved people It will be welcomed as the definitive death and dying reference source and an essential tool for teaching research and independent study
