**Gin Before Breakfast** W. Dale Nelson, 2007-06-18 This edifying volume presents mini biographies of key British and American poets who at one time or another worked as journalists Poets covered range from the famous to the obscure Whittier to Whitman Kipling to Bryant Coleridge to Crane Writing in a direct straightforward style W Dale Nelson tells each writer s story often relating how the poet in question felt about the journalistic experience and its impact upon creative work Archbold MacLeish wrote young poets are advised by their elders to avoid the practice of journalism as they would set socks and gin before breakfast On the other hand Leonard Woolf suggests that Hemingway s strong spare prose often bears the mark of good journalism The author raises provocative issues about developments in poetic form effects of printing and communication on poetry and the relationship of poetry and cities He also looks at how poetic diction has been influenced by the language of reportage and the basic difference in the purport of journalism versus that of poetry *Perverse Feelings* Suzanne Ashworth, 2022-09-23 Perverse Feelings Poe and American Masculinity examines white masculinity in Poe s fiction and the culture it represents Poe s men are tormented by chronic illness deviant attachments and ugly emotions As it analyzes these afflictions this book illuminates the pathologies of American masculinity that emerged in a terrible history of imperialism capitalism racism misogyny and homophobia One of its central contentions is that we can better understand a past and present American masculinity through a reckoning with its perverse feelings More pointedly this book asks What does masculinity feel What does white American masculinity feel in the first decades of nation formation What does it feel in the crucible of its revolution its slave system its democracy its nascent capitalism and its pursuit of happiness What feelings besiege and beleaguer Poe s men And what can they teach us about the antagonisms of contemporary white American masculinity **Prospects for the Study of American Literature** Richard Kopley, 1997-08 What can there possibly be left to say about This common litany resonant both in and outside of academia reflects a growing sense that the number of subjects and authors appropriate for literary study is rapidly becoming exhausted Take heart admonishes Richard Kopley in this dynamic new anthology for this is decidedly not the case While generations of literary study have unquestionably covered much ground in analyzing canonical writers many aspects of even the most well known authors both their lives and their work remain underexamined Among the authors discussed are T S Eliot Ralph Waldo Emerson William Faulkner Harriet

Beecher Stowe Walt Whitman Ernest Hemingway Richard Wright Edith Wharton Nathaniel Hawthorne Zora Neale Hurston Henry James Willa Cather Herman Melville Edgar Allan Poe Henry David Thoreau and Mark Twain      **The New**

**of Office Fiction** Masaomi Kobayashi, 2022-11-15 The Multiverse of Office Fiction liberates Herman Melville's 1853 classic Bartleby the Scrivener from a microcosm of Melville studies namely the so called Bartleby Industry This book aims to illuminate office fiction featuring office workers such as clerks civil servants and company employees as an underexplored genre of fiction by addressing relevant issues such as evolution of office work integration of work and life exploitation of women office workers and representation of the Post Office In achieving this goal Bartleby plays an essential role not as one of the most eccentric characters in literary fiction but rather as one of the most generic characters in office fiction Overall this book demonstrates that Bartleby is a generative figure by incorporating a wide diversity of his cousins as Bartlebys It offers fresh contexts in which to place these characters so that it can ultimately contribute to an ever evolving poetics of the office      **Biographical Dictionary of Literary Influences** John Powell, 2000-10-30 Over the past two

decades the process of cultural development and in particular the role of reading has been of growing interest but recent research has been episodic and idiosyncratic In this biographical dictionary research devoted specifically to the reading habits of 19th century individuals who shaped Western culture is brought together for the first time While giving prominent coverage to literary and political figures the volume's 270 entries also include musicians painters educators and explorers Each entry includes brief biographical information a concise summary of literary influences on the subject and clear direction for further research The book provides a practical tool for scholars wishing to trace the reading experience of important Western cultural figures Subjects were selected from the people most responsible for the cultural development of Europe Britain and the British Empire and the Americas between 1800 and 1914 Although selective the sample of 270 figures is substantial enough to suggest broad cross cultural habits and effects enabling scholars to better understand the relationship

between reading and culture In an introductory essay Powell explores the patterns and relationships that can be discerned from the entries The first of three anticipated volumes the book is an important step forward in researching the role of reading in cultural development     *Legacies of the Rue Morgue* Andrea Goulet, 2015-10-27 Taking Edgar Allan Poe's 1841 The Murders in the Rue Morgue as an inaugural frame Andrea Goulet traces shifting representations of violence space and nation in French crime fiction from serial novels of the 1860s to cyberpunk fictions today She argues that the history of spatial sciences geology paleontology cartography helps elucidate the genre's fundamental tensions between brutal murder and pure reason historical past and reconstructive present national identity and global networks As the sciences underlying her analysis make extensive use of strata and grids Goulet employs vertical and horizontal axes to orient and inform her close readings of crime novels Vertically crimes that take place underground subvert above ground modernization and national traumas of the past haunt present criminal spaces Horizontally abstract crime scene maps grapple with the sociological realities of crime while postmodern networks of international data trafficking extend colonial anxieties of the French nation Crime gangs in the catacombs of 1860s Paris Dirt digging detectives in coastal caves at the fin de siècle Schizoid cartographers in global cyberspace Crime fiction's sites of investigation have always exposed central rifts in France's national identity while signaling broader enduring unease with violent disruptions to social order Reading murder novels of the last 150 years in the context of shifting sciences *Legacies of the Rue Morgue* provides a new spatial history of modern crime fiction
