Edgar Cayce in Context K. Paul Johnson, 2016-03-22 Edgar Cayce, widely acclaimed clairvoyant and forerunner of the holistic health movement, is revealed here as a pivotal figure in the transition from the esoteric and metaphysical movements of the late nineteenth century to the New Age movement. This book describes and evaluates his psychic readings, more than 14,000 trance discourses that address medical, theological, historical and psychological concerns raised by thousands of inquirers. The author evaluates evidence for and against Cayce's reliability in the subject areas emphasized by the readings. Cayce's medical and psychological advice is shown to be well ahead of his time in many respects and his spiritual teachings are appraised as a reconciliation of Protestant mysticism with New Thought and Theosophy. Although the medical readings provide intriguing evidence for Cayce's ESP, his clairvoyant time travel illustrates the fallibility of information derived through hypnotic trance. The author contends that the contents of the readings reflect the knowledge and interests of their recipients as much as Cayce's personal opinions and beliefs. This is the first book to focus solely on appraising the entire body of the Cayce readings from a scholarly perspective.

Stephen Lives Anne Puryear, 1997-04 The author discusses the life of her son Stephen who committed suicide at the age of fifteen and relates messages she has received from him since his death, telling her why he took his own life and offering hope to other people who may be discouraged with their own lives.

The Gift of Healing Dr. Rev. Diana B. St. Clair, 2016-12-23 The Bible is a divine guide that shows what we need to do to avoid sickness and disease, so why don't people use it as such? Dr. Rev. Diana B. St. Clair, an ordained minister, proves that everyone has the gift to heal in this detailed thesis that she wrote for the doctorate program at Metropolitan University. She looks to the ancient prophets of long ago, the Christian Holy Bible and historical events to unlock how we can access this hidden power. She also examines how Native Americans used healing techniques, the use of gemstones in healing, how Jesus healed, and the work pastoral counselors have done to promote healing. She backs up her arguments with additional research and case studies. In explaining how we can heal ourselves and others, she looks closely at the soul, which we often think of as the spark of God within us. She also examines the conscious and subconscious aspects of God. Stay vibrant in mind, body and spirit by learning the parallels between ancient healing practices, Christianity

Allan Boyles, 2021-01-25 Physics cannot show that a corporal godlike figure exists in the universe However the major religions of the world especially Christianity describe God as a spiritual energy and not corporal Quantum physics says there exists a universal energy that has the attributes of God This energy has consciousness and creativity All matter is composed of this energy This energy was responsible for the Big Bang Professor emeritus William Tiller a physicist at Stanford University has shown this energy can interact with human consciousness This book takes you through a non mathematical proof of the physics of these assertions **It's Never Quite What You Think** Grace, 2013-11 *It's Never Quite What You Think* In mothering adopted four and six year old daughters from a foreign country the searing heartbreak of broken dreams compelled me to evaluate the layers of mass consciousness and societal conditioning about what everyone believes love is and what love should do Acquiring self knowledge is demonstrated as the way to release ancient beliefs and fears that perpetuate guilt self sacrificing superstition or long term suffering This includes any handed down text that promotes dependency on a force other than the God Mind mastery within each of us to create our own reality My own stumbles in parenting transform themselves into steps of liberation as my story evolves from the taboo of a mother who leaves her home into a message of freedom in the song that it sings Love is not held in the captivity of expectation like the birds it is free to go as it chooses
