Edith Et Marcel:

No Regrets Carolyn Burke, 2011-03-22 The iconic French singer comes to life in this enthralling definitive biography which captures Edith Piaf's immense charisma along with the time and place that gave rise to her unprecedented international career. Raised by turns in a brothel, a circus caravan and a working class Paris neighborhood, Piaf began singing on the city's streets where she was discovered by a Champs Elysées cabaret owner. She became a star almost overnight, seducing Paris's elite and the people of its slums in equal measure with her powerful, passionate voice. No Regrets explores her rise to fame and notoriety, her tumultuous love affairs and her struggles with drugs, alcohol and illness, while also drawing on new sources to enhance our knowledge of little-known aspects of her life. Piaf was an unlikely student of poetry and philosophy, who aided Resistance efforts in World War II, wrote the lyrics for nearly one hundred songs including *La Vie en rose* and was a crucial mentor to younger singers including Yves Montand and Charles Aznavour, who absorbed her love of *chanson* and her exacting approach to their métier. Here is Piaf in her own world, Paris in the first half of the twentieth century and in ours. Burke demonstrates how, with her courage, her incomparable art and her universal appeal, the little sparrow endures as a symbol of France and a source of inspiration to entertainers worldwide. Philippe Rège, 2009-12-11 Cinema has been long associated with France, dating back to 1895 when Louis and Auguste Lumière screened their works, the first public viewing of films anywhere. Early silent pioneers Georges Méliès, Alice Guy, BlachZ and others followed in the footsteps of the Lumière brothers, and the tradition of important filmmaking continued throughout the 20th century and beyond. In *Encyclopedia of French Film Directors*, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death, information on the individual's education and professional training, and other pertinent details such as real names when the filmmaker uses a pseudonym. The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age, Jean Renoir and René Clair, to French New Wave artists such as François Truffaut and Jean-Luc Godard. **French Cinema**

Rémi Fournier Lanzoni, 2015-10-22 To a large extent, the story of French filmmaking is the story of moviemaking. From the earliest flickering images of the late nineteenth century through the silent era, Surrealist influences, the Nazi Occupation, the glories of the New Wave, the rebirth of the industry in the 1990s with the exception culturelle, and the present, Rémi Lanzoni examines a considerable number of the world's most beloved films. Building upon his 2004 best-selling edition, the second edition of *French Cinema* maintains the chronological analysis, factual reliability, ease of use, and accessible prose, while at once concentrating more on the current generation of female directors, mainstream productions such as *The Artist*.

Music in Contemporary French Cinema Phil Powrie, 2017-06-29 This book explores composed scores and pre-existing music in French cinema from 1985 to 2015 so as to identify critical musical moments It shows how heritage films construct space through music generating what Powrie calls third space music while also working to contain the strong women characters found in French heritage films through the use of leitmotifs and musical cues He analyses fiction films in which the protagonists perform at the piano showing how musical performance supports the performance of gender Building on aspects of musical performance and in particular the use of songs performed in films Powrie uses a database of 300 films since 2010 to theorize the intervention of music at critical moments as a crystal song Applying Roland Barthes's concept of the punctum and Gilles Deleuze's concept of the crystal image Powrie establishes the importance of the crystal song which reconfigures time as a crystallization of past present and future

Popular Music in France from Chanson to Techno Steve Cannon, 2017-07-05 In France during the 1960s and 1970s popular music became a key component of socio-cultural

modernisation as the music record industry became increasingly important in both economic and cultural terms in response to demographic changes and the rise of the modern media. As France began questioning traditional ways of understanding politics and culture before and after May 1968, music as popular culture became an integral part of burgeoning media activity. Press, radio and television developed free from de Gaulle's state domination of information and political activism shifted its concerns to the use of regional languages and regional cultures including the safeguard of traditional popular music against the centralising tendencies of the Republican state. The cultural and political significance of French music was again revealed in the 1990s as French language music became a highly visible example of France's quest to maintain her cultural exceptionalism in the face of the perceived globalising hegemony of English and US business and cultural imperialism. Laws were passed instituting minimum quotas of French language music. The 1980s and 1990s witnessed developing issues raised by new technologies as compact discs, the minitel telematics system, the internet and other innovations in radio and television broadcasting posed new challenges to musicians and the music industry. These trends and developments are the subject of this volume of essays by leading scholars across a range of disciplines including French studies, musicology, cultural and media studies and film studies. It constitutes the first attempt to provide a complete and up to date overview of the place of popular music in modern France and the reception of French popular music abroad. Eccentric France Piers Letcher, 2003. So you think eccentric France means frogs legs and pigs trotters. Think again. Piers Letcher takes you to places where you can feast on forgotten vegetables, saddle up for national donkey day or gorge yourself at the world tripe championships. He also reveals the truth behind France's most colorful characters including Coco Chanel, Joan of Arc, Mata Hari and the Marquis de Sade. This latest addition to the Bradt eccentric series makes fascinating reading for those looking to discover the hidden side of France as well as for armchair travelers who delight in the extraordinary. Feeling adventures? Try your hand at pig squealing or brave the Rhone Valley's Crocodile Farm. Romantic? Visit the Lovers Wall in Montmartre or Provence's hidden Paradise Festive. Indulge yourself at the Palais du chocolat or take a Champagne cure. Or just plain curious? Check out the country's most unusual towns, gardens, hotels and restaurants. **Journal of the ...
