Educating America:

Educating America Jack E. Bowsher, 1989 Public education can learn from corporate training programs Jack Bowsher who helped control a billion dollar a year budget as Director of Education at IBM now retired has a proven track record in education and training This book outlines an incisive workable program for the revival of our educational system Bowsher takes a close look at what s wrong with our schools and tells why many solutions don t work He then applies the best elements of corporate education such as incentives and accountability to public education arguing against blindly throwing more money and more teachers into an already troubled system

Educating America's Military Joan Johnson-Freese, 2013 This book offers a detailed examination of the professional military education system in the United States from a critical insider s perspective The mission of America s war colleges is to educate senior military officers in both the ways of war and the defence of peace But are these colleges doing the best job possible in carrying out that important mission Military education faces many demands including a lack of preparation by the students uneven quality of the faculty and confusion over the curriculum Many officers attend resident programs at the war colleges programs against the career advice of their leadership despite the fact that they are virtually guaranteed graduation after less than a year of study while others do their best to avoid it entirely As the professional military education system has come under increasing scrutiny and criticism some have even called for closing the war colleges That answer however does not serve the United States well especially in a complex globalized environment where military leaders need the best specialized education to prepare them for their future challenges This volume examines the system that created and supports the perpetuation of this system and why it is imperative that it be fixed Written by a faculty member at a military college with twenty years experience of the PME system this book will be of much interest to students of the US Military US politics and military education in general

Educating America Morris Funder, 2004-08-30 Morris Funder a student of Tyler s while teaching school in Chicago brings a insider s perspective to Tyler s work Funder bases his work on extensive interviews with Tyler and those who worked with him Tyler s letters to the author and the many articles and books that Tyler wrote making this an informed and knowledgeable view of an educator whose strong views and philosophy effect American schools to this day **BOOK JACKET**

Black Education Willy DeMarcell Smith,Eva Wells Chunn,2017-07-28 This highly focused collection of papers commissioned by the National Urban League offers a candid and courageous portrait of black education in transition This is a period as the editors note in their opening remarks that is characterized by a huge shift from federal responsibility for minority education to authority and autonomy being lodged at the local government level Further many institutions that once worked well no longer do so Many ambitious social programs and policies that originally promised much have been abandoned have failed or just faded away Pivotal to these times and changes is the question of the extent to which the American educational system has been or still is capable of being responsive to incorporating and even instigating equity and excellence for black Americans This volume asks the hard questions is the educational system geared up for the maintenance

of anything other than mainstream values can it adapt to minority youth requirements when why and how do educational policies of majorities and minorities clash How are priorities to be established on the basis of wealth or need The legal statutes and administrative enforcement of equal educational opportunities are explored in depth and with a deep compassion for all parties involved
