Ethical Leadership and Decision Making in Education Joan Poliner Shapiro, Jacqueline A. Stefkovich, 2016-01-08 The fourth edition of the best selling text Ethical Leadership and Decision Making in Education continues to address the increasing interest in ethics and assists educational leaders with the complex dilemmas in today s challenging and diverse society Through discussion and analysis of real life moral dilemmas that educational leaders face in their schools and communities authors Shapiro and Stefkovich demonstrate the application of the four ethical paradigms the ethics of justice care critique and profession After an illustration of how the Multiple Ethical Paradigm approach may be applied to real dilemmas the authors present a series of cases written by students and academics in the field representing the dilemmas faced by practicing educational leaders in urban suburban and rural settings in an era full of complications and contradictions Following each case are questions that call for thoughtful complex thinking and help readers come to grips with their own ethical codes and apply them to practical situations New in the Fourth Edition A new chapter on technology versus respect focusing on ethical issues such as cyber bullying and sexting New cases on teachers with guns the military and education children of undocumented immigrants homeless students videos in bathrooms incentive pay first responders private alternative high schools verbal threats and gaming etiquette Updates throughout to reflect contemporary issues and recent scholarship in the field of ethical leadership This edition adds teaching notes for the instructor that stress the importance of self reflection use of new technologies and

global appeal of ethical paradigms and dilemmas Easily adaptable to a variety of uses this book is a critical resource for a wide range of audiences including both aspiring and practicing administrators teacher leaders and educational policy makers

Ethics for Professionals in Education Kenneth A. Strike,1993-01-01 This volume delves into a relatively neglected area the ethical principles governing the conduct of teachers administrators and other education professionals and strives to provide a thoughtful starting point for discussion in the field The contributors collective exploration of the subject encompassing many different and sometimes conflicting vantage points results in an overview of the many issues that define the place of ethics in professional preparation and practice Part 1 lays out several alternative philosophical positions about teaching ethics to educational professionals Parts 2 and 3 examine questions of how to include ethics in the pre service curriculum and how a concern for ethics can be institutionalised in the schools *Teaching Ethics in Schools* Philip Cam,2012-09-01 Teaching Ethics in Schools provides a fresh approach to moral education Rather than conveying a set of mandated values codes of conduct behaviour management plans or religious instruction moral education is presented as an essential aspect of study throughout the school curriculum Ethical concepts from the history of philosophy are introduced which in turn link to ways of thinking about conduct and character The book illuminates all kinds of moral dilemmas and contemporary challenges faced by teachers today Responsibilities of parents vis a vis schools and religious versus secular paradigms are discussed The principles of social diversity and inclusion and the need to find a balance between moralising and permissive social constructs are explored Teaching Ethics in Schools shows how an ethical framework forms a natural fit with recent educational trends that emphasise collaboration and inquiry based learning *Ethical Principles Underlying Education* John Dewey,1897 Education and Ethics Emile Boutroux,Fred Rothwell,1913 Ethics and Inclusive Education Roger Slee,Gordon Tait,2022-03-30 This book reveals the entanglement of ethics rights and justice in education It aims to develop everyday philosophy to guide choices as we continue to attempt to make schools places for all comers The authors offer education as a social good a building block for inclusive communities This assumes an ethical predisposition Ethics and inclusive education takes the reader on a journey through the conceptual foundations of ethics rights and justice to assist us to build a formulation of the fair or just society and the way ethical approaches to schooling may support or unravel that

Dilemmas of Educational Ethics Meira Levinson,Jacob Fay,2019-01-02 Educators and policy makers confront challenging questions of ethics justice and equity on a regular basis Should teachers retain a struggling student if it means she will most certainly drop out Should an assignment plan favor middle class families if it means strengthening the school system for all These everyday dilemmas are both utterly ordinary and immensely challenging yet there are few opportunities and resources to help educators think through the ethical issues at stake Drawing on research and methods developed in the Justice in Schools project at the Harvard Graduate School of Education Dilemmas of Educational Ethics introduces a new interdisciplinary approach to achieving practical wisdom in education one that honors the complexities inherent in

educational decision making and encourages open discussion of the values and principles we should collectively be trying to realize in educational policy and practice At the heart of the book are six richly described realistic accounts of ethical dilemmas that have arisen in education in recent years paired with responses written by noted philosophers empirical researchers policy makers and practitioners including Pedro Noguera Howard Gardner Mary Pattillo Andres A Alonso Jamie Ahlberg Toby N Romer and Michael J Petrilli The editors illustrate how readers can use and adapt these cases and commentaries in schools and other settings in order to reach a difficult decision deepen their own understanding or to build teams around shared values

Justice and Caring Michael S. Katz, Nel Noddings, Kenneth A. Strike, 1999-04-09 This thought provoking volume confronts the expected tension between care and justice as moral orientations These original essays by renowned educators reveal how these two moral orientations can work together to produce wiser and more practical policies and practices The authors explore problems at every level of education and tackle tough questions in theory practice and policy making Using real life examples they illustrate the great value of theoretical collaboration instead of competing with each other justice and care should complement each other in both moral theory and practice

Teaching with Integrity Bruce Macfarlane, 2004 While many books focus on the broader socially ethical topics of widening participation and promoting equal opportunities this text focuses specifically on the lecturer s professional responsibilities It covers everyday real life moral dilemmas and encourages a practical reflective approach

Ethics and Educational Policy (International Library of the Philosophy of Education Volume 21) Kenneth A. Strike, Kieran Egan, 2010-02-25 This is a philosophical treatment of the conceptual and normative aspects of topics which are currently a matter of policy debate in education The authors have focussed on such concepts as liberty autonomy equality and pluralism and have provided a philosophical commentary which relates these concepts both to a background of philosophical literature and to the institutional contexts and policy debates in which they function The book will be of significance to all policy makers who need to gain an understanding of the values and concepts involved in major policy problems

Ethics and Research in Inclusive Education Melanie Nind, Jonathan Rix, Kieron Sheehy, Katy Simmons, 2014-01-02 The recent move towards inclusive education has radically influenced the way educational research is conducted Students need to become aware of the critical legal and ethical responsibilities that arise from investigation in this new and expanding area Written

from the standpoint of inclusive education rather than special education this carefully edited collection of readings from a wide variety of sources will develop the student's ability to identify and respond to ethical dilemmas that occur within their particular research methodologies and settings respond appropriately to the myriad of complex legal issues that are pertinent to their own work The contributions to this book draw upon examples of inclusive practices from around the world Students taking postgraduate courses or diplomas in Inclusive education will find this an invaluable read

Justice, Morality and Education Les Brown, 1985-10-28

Ethics and the Foundations of Education Patrick Slattery, Dana Rapp, 2003 Teaching Convictions Critical Ethical Issues and Education explores ethical issues in schools and society from the vantage point of critical theory democratic community aesthetics ecology hermeneutics and constructive postmodernism This text discusses social constructions of reality and the contribution of postmodern theories to justice compassion and ecological sustainability in the challenging and difficult context of today's global society The authors present life experiences and personal convictions in a narrative autobiographical style without positioning themselves as passive observers of education or ethics nor as dispassionate investigators of ethical systems Rather they actively promote vision and aesthetic sensibilities as they examine their understanding of schools and society using examples from their life experiences By referring to the arts ecology identity politics theology race and gender theories in their story of critical ethical issues and education the authors weave a narrative of their teaching convictions in relation to moral issues

Ethics in Professional Education Christopher Martin, Claudia W. Ruitenberg, 2018-03-20 Recent years have seen a growing emphasis on ethics education in different professions such as medicine and teaching However the implications of this emphasis for professional education programs have been underdeveloped In this volume philosophers of education and ethics educators engaged in a variety of professional contexts in Canada the UK Norway Malta and Sweden assess the state of ethics education and the role if any of philosophical approaches to ethics for those professional contexts This volume speaks to teacher medical and business education and the education of school psychologists Each of these fields has its own context aims and expertise generating distinctive ethical challenges As such ethics curricula cannot be uncritically transplanted from one professional context to another Nonetheless the arguments and analyses in this volume point to a shared concern about the role of moral respect self understanding and virtue in the education of professionals The chapters examine a wide range of topics including empirical ethics core concepts in professional ethics moral agency the ethics of ethics education risk taking professional ethics as a practice with its own ethical requirements and the tensions between the individual client patient student and the increasing generalization of professional systems This book was originally published as a special issue of Ethics in Education

The Good Life of Teaching Chris Higgins, 2011-10-17 The Good Life of Teaching extends the recent revival of virtue ethics to professional ethics and the philosophy of teaching It connects long standing philosophical questions about work and human growth to questions about teacher motivation identity and development Makes a significant contribution to the

philosophy of teaching and also offers new insights into virtue theory and professional ethics Offers fresh and detailed readings of major figures in ethics including Alasdair MacIntyre Charles Taylor and Bernard Williams and the practical philosophies of Hannah Arendt John Dewey and Hans Georg Gadamer Provides illustrations to assist the reader in visualizing major points and integrates sources such as film literature and teaching memoirs to exemplify arguments in an engaging and accessible way Presents a compelling vision of teaching as a reflective practice showing how this requires us to prepare teachers differently

Ethics Across the Curriculum—Pedagogical Perspectives Elaine E. Englehardt, Michael S. Pritchard, 2018-12-14 This book features articles by more than twenty experienced teachers of ethics who are committed to the idea that ethics can and should be taught virtually anywhere in the education curriculum They explore a variety of ways in which this might best be done Traditionally confined largely to programs in philosophy and religion the teaching of ethics has in recent decades spread across the curriculum education The contributors to this book discuss the rationale for supporting such efforts the variety of challenges these efforts face and the sorts of benefits faculty and students who participate in ethics across the curriculum endeavors can expect An overriding theme of this book is that the teaching of ethics should not be restricted to one or two courses in philosophy or religion programs but rather be addressed wherever relevant anywhere in the curriculum For example accredited engineering programs are expected to ensure that their students are introduced to the ethical dimensions of engineering This can involve consideration of ethical issues within particular areas of engineering e g civil mechanical electrical chemical as distinctive segments of certain courses e g those that focus on design problems or as a full semester course in ethics in engineering Similar approaches can be taken in nursing medicine law social work psychology accountancy management and so on That is some emphasis on ethics can be expected to be found in broad range of academic disciplines However many ethical issues require careful attention from the perspectives of several disciplines at once and in ways that require their joining hands Recognizing that adequately addressing many ethical issues may require the inclusion of perspectives from a variety of disciplines makes apparent the need for effective communication and reflection across disciplines not simply within them This in turn suggests that faculty and their students can benefit from special programs that are designed to include participants from a variety of disciplines Such programs will be a central feature of this book Although some differences might arise in how such issues might best be discussed across different parts of the curriculum these discussions might be joined in ways that help students faculty administrators and the wider public better appreciate their shared ethical ground
