Teaching Character in the Primary Classroom Tom Harrison, Ian Morris, John Ryan, 2016-03-10 Teaching Character in the Primary

Classroom provides an excellent and very accessible overview of the emerging field of character education. It covers in detail the theory of character education as well as advice and guidance about how this should be applied in practice in primary schools. Professor James Arthur, University of Birmingham, Character matters. As more and more schools are choosing to teach Character Education, trainee and beginning teachers need to know more. What is Character Education? Can it really be taught? How does children's learning benefit from discussions around character in the classroom? How do I teach it? What does good teaching of Character Education look like in the classroom? Teaching Character Education in Primary schools tackles these questions and many more. This is a practical guide to why and how we can teach character in primary schools. It begins by exploring why character matters and considers what character is and importantly what it is not. It goes on to discuss the place for teaching character in primary education and includes practical guidance on how it can be taught. The text also looks at character beyond the classroom: how parents and the wider community can be included in the teaching of character and how outdoor learning and education can contribute. This book is written for all those who are new to teaching character.

Culture, Music Education, and the Chinese Dream in Mainland China Wai-Chung Ho, 2018-01-04. This book focuses on the rapidly changing sociology of music as manifested in Chinese society and Chinese education. It examines how social changes and cultural politics affect how music is currently being used in connection with the Chinese dream. While there is a growing trend toward incorporating the Chinese dream into school education and higher education, there has been no scholarly discussion to date. The combination of cultural politics, transformed authority relations, and officially approved songs can provide us with an understanding of the official content on the Chinese dream that is conveyed in today's Chinese society and how these factors have influenced the renewal of values-based education and practices in school music education in China.

Integrated Education and Learning Nima Rezaei, 2023-01-01. Integrated Education and Learning aims to discuss novel approaches to offer integrated educational methods. Within the last few years, educational techniques have evolved to favour critical thinking and improve learning skills. This volume links thinking and learning in educational settings and discusses diverse mechanisms that influence this association, including meta-cognitive capacity, memory, cognitive style, conceptual approaches, digitalization, teaching approaches, echoing, and questioning. It embraces this discussion at all levels, from early childhood education to higher education. This book also includes teaching tips for creating a learning environment that cultivates students' creativity and critical thinking on both online platforms and live in classroom. The book follows discussing the merits of an integrated educational paradigm that will help develop highly intellectual thinkers and will promote modern values to face current and future challenges. Finally, the book shows a balance between learning and education to enhance creativity, critical thinking, and social skills.

Schools and Religions Julian Stern, 2007-05-08. The link between schools and religions is an area of lively debate. Looking at two challenges of the 21st century: social inclusion and globalization, this book analyses the role that religion can play in fostering communities in schools and its implications for social, cultural, and other

developments in both national and international contexts *Philosophical Perspectives on Social Cohesion* Mary Healy, 2013-10-24 What would the civic relationship between citizens in a socially cohesive society look like What models might we use to educate young people to support developing these bonds Do these different models have different implications for how we structure the bonds that support a civic relationship Philosophical Perspectives on Social Cohesion challenges the basis of how we characterize civic bonds and how we best organize schools to encourage and develop them Mary Healy argues that metaphors and social imaginaries often give a framework for considering our interrelatedness She re-examines the metaphor of fraternity used as a precursor to elements of the Big Society arguing that such attempts to align fraternity with liberty are mistaken and that equality plays a vital role At a time of increasing diversity of school provision this pertinent book indicates the connection between how we organize school structures and the models of citizenship we value *Teacher Education: Professionalism, social justice and teacher education* David Hartley, Maurice Whitehead, 2006
