## **Educational Politics Prebure Groups And Faithbased Schools:**

**Educational Politics** Geoffrey Walford, 1995 The 1993 Education Act opened the way for new grant maintained schools to be established which support particular religious or philosophical beliefs This change marks a fundamental shift in government policy towards religious schools and is the result of sustained activity by a small number of political pressure groups This book gives an account of that political activity and focuses on the role of the Christian Schools Campaign which was responsible for significant changes in the 1992 and 1993 Education Acts This particular group which represented about 65 small private evangelical Christian schools has acted with other religious groups and politicians on the new Right to sponsor various amendments to government legislation The book presents a case study of the activities of a particular pressure group and a theoretical analysis which focuses on the nature of pressure groups and the importance of networking in pressure group activity *In Defence of Religious Schools and Colleges* Elmer John Thiessen, 2001 It is often argued that religious schools and colleges promote intolerance divisiveness and fanaticism and that they violate the principle of academic freedom Some writers also suggest that economic support for religious schools by the state violates the principle of the separation of church and state Elmer Thiessen provides a philosophical defence of religious schools and colleges against these and other standard objections He concludes with a radical proposal a pluralistic educational system will better prepare students for citizenship in pluralist liberal democracies than a monopolistic state maintained school system In placing his argument within the context of liberal democratic values Thiessen gives concrete examples of objections to religious schools and offers practical suggestions that follow from the philosophical treatment of the problem In *Defence of Religious Schools and Colleges* bridges the gap between philosophical argument and educational practice It will be of interest not only to philosophers and educational theorists but also to practitioners in education Academics policy makers political theorists lay people teachers administrators and parents those who object to religious schools and colleges and those who find themselves trying to answer the objections will benefit from reading this book *Faith Schools* Roy Gardner, Denis Lawton, Jo Cairns, 2005 Provides an accessible overview of the debates issues and practicalities of faith based education It sets out the challenges and opportunities of different approaches to faith schools and addresses the choices faced by parents [Policy and Politics in Education](#) Geoffrey Walford, 2017-11-01 This title was first published in 2000 This is an examination of the sponsored grant maintained schools initiative These schools were an attempt to increase the diversity of schools within the state maintained sector so families would have a greater choice when selecting the most desirable school for their children Thus allowing schools to be run by religious and ethnic minority groups The book considers and analyzes the political nature of the policy formulation and implementation It examines the way the 1993 Education Act came to be formulated and follows its path within the changing social economic and political context of the years 1993 to 1998 The text examines the background to the applications for funding from religious minority and other groups and discusses the implications of such a

changes in funding policy in the context of the 1998 School Standard and Framework Act      *Academies, Free Schools and Social Justice* Geoffrey Walford, 2017-10-02 Academies were introduced by Labour in 2000 and first opened their doors in 2002 but during Labour's time in power the nature of the Academies changed At first they were designed to replace existing failing schools but by 2004 the expectation had widened to provide for entirely new schools where there was a demand for new places From 2010 under the coalition government two new types of Academy were introduced While the original Academies were based on the idea of closing poor schools and replacing them by dramatically redesigned and restructured ones the 2010 Academies Act allowed existing highly successful state maintained schools to apply to become Academies as well Further while Labour had restricted Academy status to secondary schools the Coalition extended it to primary and special schools The result is that there has been a dramatic increase in the number and diversity of Academies In addition to this the 2010 Act introduced Free Schools wherein groups of parents teachers or other sponsors can apply to start their own state maintained but officially independent schools These schools can either be completely new or the result of existing private schools applying to become state maintained The results of these changes remain under researched This book puts forward new research that examines the history and nature of Academies and Free Schools the processes by which they have come into existence and their effects in terms of social justice The contributors do not all speak with one voice but rather present a diversity of views on these important topics Included in the collection are the results of research on pupil outcomes and socio economic segregation issues of identity and ethos in church academies the problems of establishing free schools the history of policy on Academies and a comparison between Swedish independent schools and Academies and Free Schools This book was originally published as a special issue of Research Papers in Education      **Durkheim and Modern**

**Education** W.S.F. Pickering, Geoffrey Walford, 2002-09-11 This volume explores Durkheim's place in modern educational thought at three different levels Durkheim's ideas on education are analyzed and placed in the context of modern society current educational issues are explored using a Durkheimian framework Durkheim's thought is related to that of modern educational theorists to reveal his enduring influence In discussing Durkheim's modern relevance the contributors stress his desire to integrate the practical and theoretical aspects of education They identify particular pertinence in his focus upon the moral base of education and his insistence upon the importance of the social and society      Education, Reform and the State

book provides a collection of articles that have made an important impact on policy studies and cover a broad range of significant policy issues including equality in education school effectiveness special educational needs school choice fourteen to nineteen education the structure of the educational system The book has been compiled by the current editors of the journal to show the development of the field and their specially written introduction contextualises the selection and introduces students to the main issues and current thinking in the field

**Doing Qualitative Educational Research** Geoffrey Walford,2001-06-01 Geoffrey Walford a renowned and experienced researcher reflects upon the trials and tribulations and the problems and promises of conducting research and also on the links between the idiosyncrasies and circumstances of researchers and what is possible in research Research is revealed as a much more complicated process than is usually recognized sometimes messy and disorganized sometimes constrained in unexpected ways but always challenging to both researcher and reader

***Rethinking Religious Education and Plurality*** Robert Jackson,2013-02 This book offers a critical view of approaches to the treatment of different religions in contemporary education in order to devise approaches to teaching and learning and to formulate policies and procedures that are fair and just to all

**Private Education** Geoffrey Walford,2005-11-24 Private schools are central to the reproduction of social inequality For example whilst in the UK providing only about seven per cent of the school population about half of the undergraduates at Oxford and Cambridge still come from the private sector Private schools have long been associated with privilege and elitism While this traditional elitist aspect to the private sector is still central the private school sector is actually far more diverse that is usually acknowledged It now includes many small schools and faith based schools that may not offer the traditional advantages of the private sector but which provide a particular environment deemed desirable by parents In spite of their educational and social importance there has been very little academic research and writing on private schools The proposed book will be the culmination of Professor Walford s research into private schools over the past twenty years

**Power and Responsibility in Education** Keith Watson,Celia Modgil,Sohan Modgil,1997-01-01 This study by more than 130 contributors assesses the moves to decentralize educational administration The text contains overviews by individual authors and joint papers forming dialogues between different academic contenders It provides a survey of educational policies and planning and an analysis of the changes in England and Wales Curriculum control privatization and leadership issues are also debated This book is one of four volumes which consider the educational dilemmas facing governments professional educators and practising administrators in the current educational climate The issues are addressed from international and comparative perspectives

**In Good Faith** Marie Parker-Jenkins,Dimitra Hartas,Barrie A. Irving,2019-05-23 First published in 2005 this timely volume challenges those who see faith schools as contributing positively to the well being of society and responding to parent choice to think through the implications of September 11 for our multi ethnic and multi faith society without taking a position on the ultimate necessity of faith schools The authors conducted research in several faith based schools representative both

of older religious traditions in England and Wales and of those which have been more recently established The focus was on state funded faith based schools but a range were visited to provide an overview of issues facing all faith based schools as well as those specific to newly funded institutions

Educational Strategies among Muslims in the Context of Globalization Holger Daun,Geoffrey Walford,2004-04-01 This volume deals with Islamic conceptualization of knowledge various types of Islamic education and educational strategies among selected groups of Muslims in Islamized countries Pakistan Iran Morocco Senegal and so on as well as countries in Europe where Muslims form important minorities The first chapter gives an overview of Islamic educational arrangements in the context of globalization and chapter two presents some principal ideological orientations among Muslims The remaining chapters describe educational arrangements available to Muslim parents in different countries The book is useful as a textbook in social sciences courses teacher training institutions and among the general public

*Empirical Theology in Texts and Tables* Leslie J. Francis,Mandy Robbins,Jeff Astley,2009 Empirical theology offers fresh and stimulating insights into the concerns of both the Church and the Academy It does this by accessing relevant empirical evidence using the tools of the social sciences and placing this evidence in the context of theological critique and contemporary debate In this pioneering collection of focused essays leading experts of empirical theology illustrate key perspectives within this rapidly expanding discipline The first section of the book explores theoretical issues underpinning the main methods of obtaining empirical data and the use of these data within theology The other two sections display the role both of qualitative studies and of the analysis of quantitative data in exploring a range of theological beliefs and religious social and educational concerns

**School Choice and the Quasi-market** Geoffrey Walford,1996-01-01 Throughout much of the industrialised world in the 1980s and 1990s governments divested themselves of responsibility for providing services for their citizens and espoused the ideology of the market In education the term quasi market has been used to describe the situation where the market forces introduced into schooling differ in some fundamental respects from classical free markets This book brings together specially written accounts of developments in the quasi market in nine countries The authors were asked to focus on their own particular country and to review policy developments in school choice over the previous five to ten years In addition they were asked to assess the research evidence on the workings of the quasi market of schools and in particular the effects of such changes on children of different genders and from differing social class and ethnic backgrounds The result is a series of thought provoking articles that add greatly to our understanding of the pressures that led to quasi markets in education and of how particular countries have responded to such changes and to the potentially inequitable effects of such moves
