Face To Face With John Freeman

Robin Renwick

Face To Face With John Freeman:

Face to Face with John Freeman British Broadcasting Corporation, 1989 Face to Face with John Freeman John Freeman, 1989 *Different Times* David Stubbs, 2023-07-27 They don't make comedy like they used to. From the slapstick comedy of Charlie Chaplin and Stan Laurel, the surrealism of Spike Milligan and Monty Python, and the golden age of political incorrectness helmed by Benny Hill, to the alternative scene that burst forth following the punk movement, the hedonistic joy of *Absolutely Fabulous*, the lacerating scorn of Jimmy Carr, Ricky Gervais and Jo Brand, and the meteoric rise of socially conscious stand-up, today comedy can be many things, and it is a cultural phenomenon that has come to define Britain like few others. In *Different Times*, David Stubbs charts the superstars that were in on the gags, the unsung heroes hiding in the wings, and the people who ended up being the butt of the joke. Comedians and their work speak to and of their time, drawing upon and moulding Britons' relationship with their national history, reflecting us as a people and simply providing raucous laughs for millions of people around the world. *Different Times* is a joyous, witty, and insightful paean to British comedy.

Behind the Public Veil Lewis V. Baldwin, 2016-06-03 What was Martin Luther King Jr. really like? In this groundbreaking volume, Lewis V. Baldwin answers this question by focusing on the man himself. Drawing on the testimonies of friends, family, and closest associates, this volume adds much-needed biographical background to the discussion as Baldwin looks beyond all of the mythic, messianic, and iconic images to treat King in terms of his fundamental and vivid humanness. Special attention is devoted to King's personal insecurities and struggles, his humility and affinity to common people, his delight in pleasant and passionate conversation, his insatiable love for the precious but ordinary things of life, his robust appetite for artfully prepared and delicious soul food, his enduring appreciation for music and dance, his cheerful and playful attitude and spirit, his abiding interest in games and sports, and his amazing gift of wit, humor, and laughter. King emerges here as an ordinary human being who enjoyed and celebrated life to the fullest but was never bigger than life. Here we see the personal qualities of King as a real, fleshly human being, and also as a man shaped by his social and cultural experiences and locations. This book reclaims the man behind the mythology.

Jrt Wood, 2012-05 So Far and No Further Rhodesia's Bid for Independence during the Retreat from Empire 1959-1965 Ian Smith's unilateral declaration of independence for Rhodesia now Zimbabwe on 11 November 1965 was seen by many as the act of a rebellious white minority seeking to preserve their privileged position in defiance of Britain's determination to shed her Empire and introduce rule by the African majority as soon as possible However the drama of UDI has long overshadowed and oversimplified the complexities of the preceding years In this account of that time based on sole access to the hitherto closed papers of Ian Douglas Smith and Sir Roy Welensky as well as extensive research at London's Public Record Office and in government and private collections elsewhere Dr J R T Wood chronicles the collision course on

which Britain and Rhodesia were set after 1959 complementing his study of the fate of the Federation of Rhodesia and Nyasaland in his definitive *The Welensky Papers A History of the Federation of Rhodesia and Nyasaland 1953-1963*. Britain Wood shows was intent on shedding her Empire as quickly as possible against a backdrop of the Cold War and the rise of Chinese and Soviet sponsored African nationalism. She delivered some 600 one man one vote constitutions to her fledgling nations and had no intention of granting Rhodesia independence on different terms. Unlike Britain's other African possessions however Rhodesia had enjoyed self governance since 1923. The largely white Rhodesian electorate wary of the consequences of premature and ill prepared majority rule sought instead dominion status akin to that of Canada, Australia and New Zealand. Their intention was gradually to pave the way for majority rule since 1923 Rhodesia's electoral qualifications had excluded race. It was always understood that the African majority would acquire power; the concern was the speed and smoothness of that acquisition. Culminating in those dramatic days of November 1965 when Ian Smith concluded in the face of resolute British stonewalling that he had no alternative but UDI, this unique account is the first in a series which chronicles the course of events that ultimately led to Robert Mugabe's accession to power in 1980 and all that entailed.

Jung* forms one of the basic texts of twentieth century thought at once foundational for depth psychology and pivotal for intellectual, cultural and religious history. The writings presented here spanning five decades embody Jung's attempt to establish an interdisciplinary science of analytical psychology and apply its insights to the fields of psychiatry, criminology, psychotherapy, psychoanalysis, personality psychology, anthropology, physics, biology, education, the arts and literature, the history of the mind and its symbols, comparative religion, alchemy and contemporary culture and politics among others, each in turn has been decisively marked by his thought. Of timely and

ongoing relevance to the understanding of these fields Jung's writings are at the same time essential reading for any understanding of the making of the modern mind *Television and Consumer Culture* Rob Turnock, 2007-07-30 The radical expansion of television broadcasting in the post war years and beyond both reflected and promoted a cultural revolution sweeping across British society Reaching out to a mass audience for the first time the new television industry made visible the transition from drab austerity and seeming cultural consensus to the brash heady glitz and individualism of the new consumer age *Television and Consumer Culture* explores television's institutional technological and programming developments during this period revealing how genres as different as action adventure series serious dramas situation comedies and quiz and game shows simultaneously promoted both consumer culture and class conflict Drawing on historical analysis and sociological theory and looking at issues such as celebrity scheduling intimacy and sociability Turnock argues that television during this era established and promoted itself as a culturally powerful force a fact that has implications for the way that media power is understood to operate today *The Boy* Richard Williams, 2021-04-01 Captures the bold engaging spirit of one of Britain's best loved sporting heroes Sunday Times A fascinating read and sure to be the definitive account of his life Mark Knopfler SHORTLISTED FOR THE SPORTS WRITING BOOK OF THE YEAR AWARD Even in the midst of a global pandemic the death of Stirling Moss on 12 April 2020 at the age of 90 made headlines almost 60 years after he retired from Formula One In *The Boy* Richard Williams assesses what made him such an iconic figure Told in 60 brief chapters Williams builds a fascinating and revealing portrait of a driver who was a hero to millions As the long years of war began to recede sport in Britain was getting moving again and there was a need for heroes Denis Compton and Stanley Matthews were in their pomp playing to packed houses But Stirling Moss was a fresh face just 17 years old when he first emerged in 1947 Too young to have served and been scarred by the war he was soon revealed to possess not only an unearthly degree of skill but the qualities of courage and resolution noted in the generation that fought in the air and on land and sea Their youth had been stolen his was new and unspoiled *The Boy* explains how and why he came to occupy such a unique place in the esteem and the affections of the nation Why him rather than some of his contemporaries such as Mike Hawthorn and Peter Collins who shared a role in the rise of Britain as a power in international motor racing Moss may never have been world champion but he created a remarkable and enduring legacy and Williams brilliantly shows just how he did it *Stoned* Andrew Loog Oldham, 2002-04-24 In 1963 Andrew Loog Oldham was a precocious hustler of genius on the London scene with a keen eye for the next look and a willingness to gamble on it He was all of nineteen when Brian Epstein took him on to be the Beatles London press agent and already regarded as someone who could make things happen But it was when he went to hear a relatively unknown blues combo perform that Oldham found his true calling I met the Rollin Stones he recalls simply and said hello to the rest of my life He took on more than a band he took on an irresistible force that with his vision would become the Greatest Rock n Roll Band of All Time In addition to indelible portraits of Mick Jagger and crew *Stoned*

regales the reader with candid memories of John Lennon Bob Dylan and Marianne Faithfull whom Oldham also created Joined by contemporaries such as Pete Townshend Vidal Sassoon Diana Vreeland Nik Cohn and others who counted Oldham gives us a privileged brilliantly clear eyed and unmistakably authentic view back to where for generations of music fans things first started rolling
