New Trends in Intuitive Geometry Gergely Ambrus, Imre Bárány, Károly J. Böröczky, Gábor Fejes Tóth, János Pach, 2018-11-03 This volume contains 17 surveys that cover many recent developments in Discrete Geometry and related fields Besides presenting the state of the art of classical research subjects like packing and covering it also offers an introduction to new topological algebraic and computational methods in this very active research field The readers will find a variety of modern topics and many fascinating open problems that may serve as starting points for research

The Hybrid Face Massimo Leone, 2023-12-12 This original and interdisciplinary volume explores the contemporary semiotic dimensions of the face from both scientific and sociocultural perspectives putting forward several traditions aspects and signs of the human utopia of creating a hybrid face The book semiotically delves into the multifaceted realm of the digital face exploring its biological and social functions the concept of masks the impact of COVID 19 AI systems digital portraiture symbolic faces in films viral communication alien depictions personhood in video games online intimacy and digital memorials The human face is increasingly living a life that is not only that of the biological body but also that of its digital avatar spread through a myriad of new channels and transformable through filters post productions digital cosmetics all the way to the creation of deepfakes The digital face expresses new and largely unknown meanings which this book explores and analyzes through an interdisciplinary but systematic approach The volume will interest researchers scholars and advanced students who are interested in digital humanities communication studies semiotics visual studies visual anthropology cultural studies and broadly speaking innovative approaches about the meaning of the face in present day digital societies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Illuminati Bible of Divine Light: Part one Sorin Cerin, 2021-07-10 With the appearance of my first philosophical studies but also of aphorisms I initially published the book entitled Bible of the Light and then a more complete form of the book Bible of the Light was the book entitled The Illuminati Bible so that in present to publish the full form of the Bible which I felt that it will be perfected with the help of God and which I decided to call the Illuminati Bible of Divine Light Some will wonder why I chose this name of The Illuminati Bible starting with that book published in 2014 the content of which is also in this book called the Illuminati Bible of Divine Light which in turn contains many other parts Simple Firstly because I wanted to help in Good the Karma of this World because Illuminati and Enlightenment are spoken of in negative terms and secondly because Illuminati comes from Enlightenment and true Enlightenment cannot bring the Evil nor can it be the Evil vile True Enlightenment must be based only on Good and never on bringing the Evil as the supreme Wickedness Therefore in order to improve the Karma of Mankind I show that Enlightenment does not consist in Wickedness but in combating Wickedness The enlightened ones cannot be a hidden group of people who lead humanity out of the shadows committing all sorts of evils and abuses to maintain power These people are

by no means Enlightened but Dark If there really are some in such a situation then they use the term Illuminati or Enlightened falsely How just as Dark are those who dirtyly attack on the true Illuminati or Enlightened only out of obscure interests of a religious nature for fear that the Enlightened ones might open the souls of the People and show them the Way to the Truth from which some high prelates that are at the head of certain churches flee who are afraid that if the Truth would be found they will lose both their financial and their decision making power I believe that the future will belong to those truly Enlightened the true Illuminati A thing is to use Evil to bring through it Good and another is to use Evil to bring through it the Wickedness The true Enlightened and not Dark are those who understand that the Evil can only be used for Good when he can do it and the Good only for the Evil less Evil when the Good itself can lead to destruction disaster or pain The real Bad People the Dark Ones are the ones who use both Good and Evil to do as much as possible Evil and not Good Mankind must understand that the Evil and Good the God and the Devil are an Entity with two distinct characteristics an Entity that defines our True God that is our Creator Factor and Unique Incidentally Therefore in order to improve the Karma of this World we will have to pray to the Universal Consciousness formed by the Universal Pure Language That is to pray to the Divine Light of all the Worlds the Supreme God of Intelligence which to inspire our thoughts so that to use in moderation both Good and Evil for the ultimate purpose of doing and bringing through us as much as possible Good Why didn t I let in continuation the name of the Illuminati Bible and to this new much deeper work of the Bible and call it the Illuminati Bible of Divine Light Because compared to the other book called the Illuminati Bible the Illuminati Bible of Divine Light contains in addition to the content of that book many other new chapters that appeared with the new Wisdom Collections or with the final form of the Coaxialism Sorin Cerin

Buildings and Classical Groups Paul B. Garrett, 1997-04-01 Buildings are highly structured geometric objects primarily used in the finer study of the groups that act upon them In Buildings and Classical Groups the author develops the basic theory of buildings and BN pairs with a focus on the results needed to apply it to the representation theory of p -adic groups In particular he addresses spherical and affine buildings and the spherical building at infinity attached to an affine building He also covers in detail many otherwise apocryphal results Classical matrix groups play a prominent role in this study not only as vehicles to illustrate general results but as primary objects of interest The author introduces and completely develops terminology and results relevant to classical groups He also emphasizes the importance of the reflection or Coxeter groups and develops from scratch everything about reflection groups needed for this study of buildings In addressing the more elementary spherical constructions the background pertaining to classical groups includes basic results about quadratic forms alternating forms and hermitian forms on vector spaces plus a description of parabolic subgroups as stabilizers of flags of subspaces The text then moves on to a detailed study of the subtler less commonly treated affine case where the background concerns p -adic numbers more general discrete valuation rings and lattices in vector spaces over ultrametric fields Buildings and Classical Groups provides essential background material for specialists in

several fields particularly mathematicians interested in automorphic forms representation theory p adic groups number theory algebraic groups and Lie theory No other available source provides such a complete and detailed treatment

Levinas Faces Biblical Figures Yael Lin, 2014-03-20 This collection of essays is an attempt to capture the drama of the encounter of the facing of Levinas and the biblical text It seeks to link Jewish experience and Levinasian themes such as responsibility substitution hospitality suffering and forgiveness and at the same time make the biblical text accessible in a new way The book offers new insights on the opening up of Levinas's thought and biblical stories to one another it considers the ways in which Levinas can open up the biblical text to questioning and how the biblical text can inform our reading of Levinas Setting up in dialogue the heteronomic texts the narrative texts of the bible and Levinas's philosophical texts allows an enforced and renewed understanding of both The examination of these issues is pursued from diverse perspectives and disciplines probing the role biblical figures play in Levinas's thought and the manner by which to approach them Do the biblical allusions serve in Levinas's thought merely as a rhetorical and literary device as illustrations of his ideas or perhaps they have a deeper philosophical meaning which contributes to his project in general Do the references to biblical figures work in Levinas's philosophy in a way that other literary figures are incapable of and how do these references comply with his conflicted attitude towards literature

Buildings Peter Abramenko, Kenneth S. Brown, 2008-12-16 This book treats Jacques Tits beautiful theory of buildings making that theory accessible to readers with minimal background It covers all three approaches to buildings so that the reader can choose to concentrate on one particular approach Beginners can use parts of the new book as a friendly introduction to buildings but the book also contains valuable material for the active researcher This book is suitable as a textbook with many exercises and it may also be used for self study

Hyperbolic Knot Theory Jessica S. Purcell, 2020-10-06 This book provides an introduction to hyperbolic geometry in dimension three with motivation and applications arising from knot theory Hyperbolic geometry was first used as a tool to study knots by Riley and then Thurston in the 1970s By the 1980s combining work of Mostow and Prasad with Gordon and Luecke it was known that a hyperbolic structure on a knot complement in the 3 sphere gives a complete knot invariant However it remains a difficult problem to relate the hyperbolic geometry of a knot to other invariants arising from knot theory In particular it is difficult to determine hyperbolic geometric information from a knot diagram which is classically used to describe a knot This textbook provides background on these problems and tools to determine hyperbolic information on knots It also includes results and state of the art techniques on hyperbolic geometry and knot theory to date The book was written to be interactive with many examples and exercises Some important results are left to guided exercises The level is appropriate for graduate students with a basic background in algebraic topology particularly fundamental groups and covering spaces Some experience with some differential topology and Riemannian geometry will also be helpful

Illuminati Bible of Divine Light Sorin Cerin, The present book entitled the Illuminati Bible of Divine Light is a work of philosophy that deepens both

ontological and gnoseological themes regarding the Existence of God and implicitly ours I have said many times so far that philosophy is the religion of the future At the base of the Illuminati Bible of Divine Light is the philosophical religious system called Coaxialism published in its final form in the book entitled Coaxialism Final Edition but also the Collection of Wisdom consisting of 16 777 aphorisms structured according to certain themes published in its final form in the book entitled The Wisdom Collection 16 777 Philosophical Aphorisms 2020 Edition The God of the Illuminati Bible of Divine Light is not a dictatorial God who demands total submission from Man so that Man can benefit from a Paradise after Death but is a God of Man s rediscovery in his own Self The God of this World is the Creator Factor and Unique Incidentally who is defined through a Meaning that forms a Word In the Parallel Universes there are an infinity of Creator Factors and Unique Incidentally where each one in part is a Meaning that in turn determines a Word in the respective Universe Word from which the respective Universe was formed as well as our Universe in turn was formed from the Word of our own Creator Factor and Unique Incidentally The totality of the Creator Factors and Unique Incidentally that is the totality of the Meanings which determine in their turn each in part a Word form the Universal Pure Language which in its totality determines the Consciousness Unique and Incidentally of the Universal Unique Expression which is the Supreme God the Supreme Intelligence of all Universes whose number is infinite as is infinite and the number of the Words defined in turn each in part by the Creator Factors and Unique Incidentally The Unique Incidentally Consciousness of the Universal Unique Expression always KNOWS where it is and what namely it does each atom in part each elementary particle in part from each Universe which in turn together with all the other Universes makes up the infinity of Universes I have always said that we are from before us that is we are a reflection of what was and from here comes the Destiny that cannot be changed and the Free Will is an Illusion from the great range of the Illusions of Life Everything that will Happen in our Future has Happened and has been in our Past before it was Time Thus the spiritual Energy of our Soul is allowed to pass through the Happenings that the Illusion of our own Life renders to us as being something new even though they were long before us We are a quantum of energy which flows through a reflection of the World that was before Time a World through whose reflection we flow in the so called Present with our own spiritual energies of the Soul having the false sensation of Time Past Present and Future From this flowing of ours through the reflection of that World in the Mirror of Knowledge we have the feeling that we are living our own Life even though in reality we are living our own Illusion of Life In conclusion we are only a quantum of energy which flows through the reflected images of the World that was somewhere sometime from before Time As those images of the World in whose reflection we have the Illusion that we live cannot be changed so neither our Destiny cannot be changed because it flows once with the spiritual energies of our Souls through the images of that World which cannot be changed by us because that World was before us Thus precisely the Illusion of Life that gives us the so called Free Will he which in reality does not exist she the Illusion of Life is the one that can help us to improve or worsen the spiritual energy of our Soul

Hence results the necessity of the Illusion of Life in this World Thus once we travel through this World with Happenings that were long Before we believed that it Happens accompanied by the Illusion of Life that makes us believe in the existence of Free Will we go through all sorts of Trials that are the spiritual relief forms of this World which is a reflection of what was somewhere sometime and from here comes the ineffable Destiny Destiny is ineffable because it cannot be changed because neither the World through whose reflection we pass can never be changed Thus the religions that have developed in this World did not appear Incidentally but they existed in the Initial World that was reflected in the Mirror of our Knowledge a World that was long Before us In that World was also Jesus Christ and the other Great Prophets such as the Prophet Muhammad the Buddha Moses etc What Happened on Earth that is in our World was that some Souls who were so spiritually perfect had the approval of God to travel through this World in the bodies of these Great Prophets just as each of us have the acceptance of God to travel through this World in our own bodies which are some vehicles that take us from the destination of Birth to the destination of Death These vehicles which are our bodies they too are in turn a reflection of a World that was long Before us Due to these things every Man is born under the specter of a certain Religion which has been left so by God through Destiny to Happen The appearance of the Great Prophets was due to the Destiny Jesus Christ did not appear from Nothingness Incidentally in our World but was left namely to Happen in this way by God because God is the one who let the Mirror of Knowledge through which we to can become Aware of this World That s exactly why every Man is good to follow the Religion existing in the area where he was born and to respect the Religions of other People born in other areas where there are other kinds of Religions until these will be replaced or not by other Religions or philosophical and religious systems with the Will of God that is on the understanding of some in a natural way and not forced by anyone Even Atheism is in itself a Religion precisely through the fact that it is based on a certain Faith where God is represented through the Laws of the Universe It has been speculated about me that in the book The Evil I do not make a clear distinction between the Evil necessary for the existence of Good and the Devil Evil is necessary for the existence of Good just as Good is necessary for the existence of Evil Evil can often be a far greater Good than Good and vice versa Good can sometimes be a far greater Evil than Evil Instead with what I do not agree and can really be considered an Evil that can be Devilish is for example Wickedness About wickedness I have developed an entire chapter in the book entitled The Far Future of Mankind Philosophical Aphorisms the Chapter of Wickedness aphorisms 1 227 a book which in turn is part of The Wisdom Collection 16 777 Philosophical Aphorisms which in turn is part from this book entitled The Illuminati Bible of Divine Light Thus Wickedness is something demonic which must be combated because the Evil it brings does not serve the Good than in a much lesser extent than the Good could serve the Evil from this Wickedness If we are to attribute Wickedness to the Devil then we must certainly avoid him as much as we can In conclusion Evil and Good are the attributes of God when Evil can help the Good and of the Devil when Evil can not help the Good than an even greater Evil There is all sorts of speculation concerning the fact

that I would have stated in Coaxialism that Man thinks only with a tiny percentage of the brain I even said that Man does not think than with 2 percent from his brain I stated this in the context in which I wanted to express that only a tiny percentage of the cognitive total we use would have any connection with the Absolute Truth through this interweaving of Illusions of the Life through which we travel during our own Life In reality I think that that two percent percentage is very high and in reality it would not be not even that much And the brain in turn is also an Illusion from the arsenal of the Illusions of Life so the so called ability of the human brain to process data is an Illusion as great as our own Illusion of Life is It is irrelevant whether or not Man uses his entire brain in the thought process once his entire thought process is subjected to the Illusion of Life and due to this fact the Man s thinking is not anchored by even two percent to the Absolute Truth With the appearance of my first philosophical studies but also of aphorisms I initially published the book entitled Bible of the Light and then a more complete form of the book Bible of the Light was the book entitled The Illuminati Bible so that in present to publish the full form of the Bible which I felt that it will be perfected with the help of God and which I decided to call the Illuminati Bible of Divine Light Some will wonder why I chose this name of The Illuminati Bible starting with that book published in 2014 the content of which is also in this book called the Illuminati Bible of Divine Light which in turn contains many other parts Simple Firstly because I wanted to help in Good the Karma of this World because Illuminati and Enlightenment are spoken of in negative terms and secondly because Illuminati comes from Enlightenment and true Enlightenment cannot bring the Evil nor can it be the Evil vile True Enlightenment must be based only on Good and never on bringing the Evil as the supreme Wickedness Therefore in order to improve the Karma of Mankind I show that Enlightenment does not consist in Wickedness but in combating Wickedness The enlightened ones cannot be a hidden group of people who lead humanity out of the shadows committing all sorts of evils and abuses to maintain power These people are by no means Enlightened but Dark If there really are some in such a situation then they use the term Illuminati or Enlightened falsely How just as Dark are those who dirtyly attack on the true Illuminati or Enlightened only out of obscure interests of a religious nature for fear that the Enlightened ones might open the souls of the People and show them the Way to the Truth from which some high prelates that are at the head of certain churches flee who are afraid that if the Truth would be found they will lose both their financial and their decision making power I believe that the future will belong to those truly Enlightened the true Illuminati A thing is to use Evil to bring through it Good and another is to use Evil to bring through it the Wickedness The true Enlightened and not Dark are those who understand that the Evil can only be used for Good when he can do it and the Good only for the Evil less Evil when the Good itself can lead to destruction disaster or pain The real Bad People the Dark Ones are the ones who use both Good and Evil to do as much as possible Evil and not Good Mankind must understand that the Evil and Good the God and the Devil are an Entity with two distinct characteristics an Entity that defines our True God that is our Creator Factor and Unique Incidentally Therefore in order to improve the Karma of this World we will have to pray to the Universal

Consciousness formed by the Universal Pure Language That is to pray to the Divine Light of all the Worlds the Supreme God of Intelligence which to inspire our thoughts so that to use in moderation both Good and Evil for the ultimate purpose of doing and bringing through us as much as possible Good Why didn't I let in continuation the name of the Illuminati Bible and to this new much deeper work of the Bible and call it the Illuminati Bible of Divine Light Because compared to the other book called the Illuminati Bible the Illuminati Bible of Divine Light contains in addition to the content of that book many other new chapters that appeared with the new Wisdom Collections or with the final form of the Coaxialism In the last edition of the Wisdom Collection I published six other new books of philosophical aphorisms bringing the Collection of Wisdom to a total of 16 777 philosophical aphorisms The last books refer to topics such as those related to Justice to the World after Death to the philosophy of Artificial Intelligence to the far Future of Mankind etc All this highlights not only a Bible with concepts like the one I called the Illuminati Bible but also one that fully reflects my thinking and faith as a whole which is based on my philosophical religious system called Coaxialism and therefore the book could not be called otherwise than the Illuminati Bible of Divine Light Especially since in this book entitled the Illuminati Bible of Divine Light there is also the final form of my philosophical religious system called Coaxialism where I refer to Transcendental Coaxiological Mathematics but also to Mathematical Psychology I am convinced that philosophy Coaxialism will become part of the Religion of the Future a Religion whose churches will be the souls of the People Yes I want that the soul of every Man to be a Temple of worship Enlightened by the Divine Light of Absolute Truth whose Thought is reflected by the Universal Consciousness of the Universal Pure Language A Language whose Words are infinite and of all these Words one of them is our God that is our Creator Factor and Unique Incidentally who gave birth to this World Sorin Cerin July 7 2021 *The Chemists' Year Book ...* ,1916 **Canadian Journal of Mathematics** ,1958 **Boundary Value Problems in Linear Viscoelasticity** John M. Golden,George A.C. Graham,2013-04-17 The classical theories of Linear Elasticity and Newtonian Fluids though triumphantly elegant as mathematical structures do not adequately describe the deformation and flow of most real materials Attempts to characterize the behaviour of real materials under the action of external forces gave rise to the science of Rheology Early rheological studies isolated the phenomena now labelled as viscoelastic Weber 1835 1841 researching the behaviour of silk threads under load noted an instantaneous extension followed by a further extension over a long period of time On removal of the load the original length was eventually recovered He also deduced that the phenomena of stress relaxation and damping of vibrations should occur Later investigators showed that similar effects may be observed in other materials The German school referred to these as *Elastische Nachwirkung* or the elastic aftereffect while the British school including Lord Kelvin spoke of the viscosity of solids The universal adoption of the term Viscoelasticity intended to convey behaviour combining proper ties both of a viscous liquid and an elastic solid is of recent origin not being used for example by Love 1934 though Alfrey 1948 uses it in the context of polymers The earliest attempts at mathematically modelling viscoelastic behaviour were

those of Maxwell 1867 actually in the context of his work on gases he used this model for calculating the viscosity of a gas and Meyer 1874

Derrida: Ethics Under Erasure Nicole Anderson, 2012-03-08 Derrida's work is controversial its interpretation hotly contested Derrida's *Ethics Under Erasure* offers a new way of thinking about ethics from a Derridean perspective linking the most abstract theoretical implications of his writing on deconstruction and on justice and responsibility to representations of the practice of ethical paradoxes in everyday life The book presents the development of Derrida's thinking on ethics by demonstrating that the ethical was a focus of Derrida's work at every stage of his career In connecting Derrida's earlier work on language with the ethics implicated in his later work on justice and responsibility Nicole Anderson traverses literary linguistic philosophical and ethical interpretative movements thus recontextualising Derrida's entire oeuvre for a contemporary readership She explores the positive ethical implications of Derrida's work for representation and practice and asks the reader to consider how this new ethical reading of Derrida's work might be applied to concrete instances of his or her own ethical experience

Levinas and the Philosophy of Religion Jeffrey L. Kosky, 2001-07-12 Levinas and the Philosophy of Religion Jeffrey L Kosky Reveals the interplay of phenomenology and religion in Levinas's thought Kosky examines Levinas's thought from the perspective of the philosophy of religion and he does so in a way that is attentive to the philosophical nuances of Levinas's argument an insightful well written and carefully documented study that uniquely illuminates Levinas's work John D Caputo For readers who suspect there is no place for religion and morality in postmodern philosophy Jeffrey L Kosky suggests otherwise in this skillful interpretation of the ethical and religious dimensions of Emmanuel Levinas's thought Placing Levinas in relation to Hegel and Nietzsche Husserl and Heidegger Derrida and Marion Kosky develops religious themes found in Levinas's work and offers a way to think and speak about ethics and morality within the horizons of contemporary philosophy of religion Kosky embraces the entire scope of Levinas's writings from *Totality and Infinity* to *Otherwise than Being* contrasting Levinas's early religious and moral thought with that of his later works while exploring the nature of phenomenological reduction the relation of religion and philosophy the question of whether Levinas can be considered a Jewish thinker and the religious and theological import of Levinas's phenomenology Kosky stresses that Levinas is first and foremost a phenomenologist and that the relationship between religion and philosophy in his ethics should cast doubt on the assumption that a natural or inevitable link exists between deconstruction and atheism Jeffrey L Kosky is translator of *On Descartes Metaphysical Prism The Constitution and the Limits of Onto theology in Cartesian Thought* by Jean Luc Marion He has taught at Williams College Indiana Series in the Philosophy of Religion Merold Westphal general editor May 2001 272 pages 6 1 8 x 9 1 4 bibl index append cloth 0 253 33925 1 39 95 s 30 50

Merleau-Ponty and the Face of the World Glen A. Mazis, 2016-09-21 Assesses Merleau-Ponty's contribution to ethics as calling for a poetic interplay between perception and imagination and between silence and solidarity that reveals our place in the world and our obligations to ourselves and others Before his death in 1961 Merleau-Ponty

worried about what he saw as humanity's increasingly self-enclosed and manipulative way of experiencing self others and the world the consequences of which remain apparent in our destructive inability to connect with others within and across cultures In *Merleau Ponty and the Face of the World* Glen A Mazis provides an overall consideration of Merleau Ponty's philosophy that brings out what he sees as a corrective prescription for ethical reorientation that is fundamental to Merleau Ponty's thought Mazis begins by analyzing the key role that silence plays for Merleau Ponty as a positive powerful presence rather than a lack or emptiness and then builds on this to explore the ethical significance of the face to face encounter in his thought as one of solidarity rather than obligation In the last part of the book Mazis traces the development of what he calls physiognomic imagination in Merleau Ponty's work This understanding of imagination is not fancy or make believe but rather brings out the depths of perceptual meaning and leads to an appreciation of poetic language as the key to revitalizing both ethics and ontology Drawing on Merleau Ponty's published works lecture notes unpublished writings and the work of many phenomenologists and Merleau Ponty scholars Mazis also offers incisive readings of Merleau Ponty's work as it relates to that of Antoine de Saint Exupéry Gaston Bachelard and Emmanuel Levinas
